Answer:

(D) It deals with complex human phenomena about which knowledge is still limited

17. Management qualifies all tests of a profession except

- (A) Dominance of service motive
- (B) Restricted entry
- (C) Systematic body of knowledge
- (D) Use of knowhow and skills

Answer:

(D) Use of knowhow and skills

18. Who is popularly known as the ‘founder of modern management theory’

- (A) Frederick Taylor
- (B) Luther Gulick
- (C) Newmann and Summer
- (D) Henry Fayol

Answer:

- (D) Henry Fayol

19. Henry Fayol, the industrialist and popularly known as the ‘founder of modern management theory’

- (A) German
- (B) French
- (C) Greek
- (D) American

Answer:

- (B) French

20. Planning is deciding in advance – S

- (A) What is to be done
- (B) How is to be done
- (C) When it is to be done
- (D) All of above

Answer:

- (D) All of above

21. Which of the following is the preparatory step for actions and helps in bridging the gap between the present and the future?

- (A) Controlling
- (B) Directing
- (C) Motivating
- (D) Planning

Answer:

- (D) Planning

22. Which of the following comprises determination and laying down of objectives, policies, procedures, rules, programmes, budget, and strategies?

- (A) Motivating process
- (B) Planning process
- (C) Controlling process
- (D) Directing process

Answer:

- (B) Planning process

23. Which of the following is fundamental function of management and all other functions of management are greatly influenced by it?

- (A) Controlling
- (B) Directing

(C) Motivating

(D) Planning

Answer:

(D) Planning

Answer:

- (C) Measurement of actual performance against the standard and recording deviations.

34. Which of the following is not one of the five elements of management?

- (A) Planning
- (B) Co-ordination
- (C) Centralization
- (D) Command

Answer:

- (C) Centralization

35. Control is closely related to the job of the manager.

- (A) Planning
- (B) Discipline
- (C) Order
- (D) Motivation

Answer:

- (A) Planning

36. Who is popularly known as the father of 'scientific management'?

- (A) Luther Gulick
- (B) Newmann
- (C) Henry Fayol
- (D) Frederick Taylor

Answer:

- (D) Frederick Taylor

37. The scientific management movement early in the century was hailed as a "second industrial revolution".

- (A) Seventieth
- (B) Eightieth
- (C) Ninetieth
- (D) Twentieth

Answer:

- (D) Twentieth

38. Who is popularly known as the father of 'modern management theory'?

- (A) Luther Gulick
- (B) Newmann
- (C) Henry Fayol
- (D) Frederick Taylor

Answer:

- (C) Henry Fayol

39. How many principles of management have been suggested by the Henry Fayol?

- (A) Ten
- (B) Twelve
- (C) Fourteen
- (D) Fifteen

Answer:

- (C) Fourteen

40. Out of the principles of management suggested by the Henry Fayol, 'Discipline' is necessary to ensure obedience and respect for –

- (A) Juniors'
- (B) Society
- (C) Superiors

Answer:

(D) Planning, commanding, organizing, coordinating, controlling

48. Which of the following principle of Henry Fayol emphasizes the need for teamwork?

- (A) Esprit de corps
- (B) Stability of tenure of personnel
- (C) Division of work
- (D) Scalar chain

Answer:

(A) Esprit de corps

49. Scientific management is based on the assumption that –

- (A) Observation would reveal the workers need to be multi-skilled.
- (B) Workers can decide their own methods of performing tasks.
- (C) The scientific observation of people at work would reveal the one best way to do the task.
- (D) Workers would receive a set wage regardless of performance.

Answer:

(C) The scientific observation of people at work would reveal the one best way to do the task.

50. Administration is concerned with –

- (A) Policy implementation
- (B) Policy making

- (C) Both (A) and (B)
- (D) Neither (A) nor (B)

Answer:

- (B) Policy making

51. Broadly speaking, administration is concerned with –

- (A) Planning
- (B) Organizing
- (C) Motivating and controlling
- (D) Planning and organizing

Answer:

- (D) Planning and organizing

52. Administration is done by –

- (A) Top level management
- (B) Middle level management
- (C) Lower level management
- (D) None of above

Answer:

- (A) Top level management

53. Board of directors of any company is normally concerned with –

- (A) Management
- (B) Administration
- (C) Health of managers
- (D) None of the above

Answer:

- (B) Administration

54. Administration is a process of -.....

- (A) Laying down broad policies
- (B) Objectives of the organization
- (C) Either (A) or (B)
- (D) Both (A) & (B)

Answer:

- (D) Both (A) & (B)

55. It is also said that administration is

- (A) Lower level function
- (B) Middle level function
- (C) Top-level function
- (D) None of the above

Answer:

- (C) Top-level function

56. Management includes –
- (A) Administrative management
 - (B) Operative management
 - (C) Either (A) or (B)
 - (D) Both (A) & (B)

- 1. An all-pervasive function
- 2. Fundamental function

Select the correct answer from the options given below –

- (A) 2 only
- (B) Neither 1 nor 2
- (C) Both 1 and 2
- (D) 1 only

Answer:

- (D) 1 only

57. Administration can be viewed as:

- (A) Less important than management
- (B) The same thing as management
- (C) Part of management
- (D) Separate from management

Answer:

- (C) Part of management

58. Decision-making skills are required at –

- (A) Top level management
- (B) Middle level of management
- (C) All levels of management
- (D) None of the above

Answer:

- (C) All levels of management

59. Managers require a combination of technical competence, social and human skills and conceptual ability. Technical competence may be defined as:

- (A) The ability to view the complexities of the operations of the organization as a whole, including environmental influences

- (C) The ability to apply specific knowledge, methods and skills to discrete tasks
- (D) None of the above

Answer:

- (C) The ability to apply specific knowledge, methods and skills to discrete tasks

60. What type of approach is most frequently identified with Human Capital Management (HCM)?

- (A) Controlling
- (B) Interpersonal and technical
- (C) Formalized, technical and manipulative
- (D) Influencing and manipulative

Answer:

(C) Formalized, technical and manipulative

61. Which of the following is NOT a measure of a manager's effectiveness?

- (A) Absenteeism and sickness
- (B) Level of Staff turnover
- (C) Accidents at work
- (D) Speed of promotion through the organization

Answer:

(D) Speed of promotion through the organization

62. How you will describe the planning as function of management?

given below –

- (A) 2 only
- (B) Neither 1 nor 2
- (C) Both 1 and 2
- (D) 1 only

Answer:

(C) Both 1 and 2

63. Planning is deciding in advance –

- (I) What is to be done?
- (II) How is to be done?
- (III) When it is to be done?
- (IV) Who has to do it?

Select the correct answer from the options

given below –

- (A) (I)
- (B) (I), (II),
- (C) (I), (II), (III)
- (D) (I), (II), (III), (IV)

Answer:

(D) (I), (II), (III), (IV)

64. Identify the best definition of planning.

- (A) An integrated process, in which plans are formulated, carried out and controlled.
- (B) Devising ways of achieving the objectives of an organization.
- (C) The core activity of planners and planning departments.
- (D) Setting an organization's objectives and the means of reaching them.

Answer:

(D) Setting an organization's objectives and the means of reaching them.

65. Planning –

- (B) Involves choosing the proper course of action from among alternatives
- (C) Is based upon individual incentives rather than group incentives
- (D) Give employees fresh insights into their own personalities and it can also help them

understand why others sometimes respond as they do.

Answer:

(B) Involves choosing the proper course of action from among alternatives

66. Which qualities should a person possess to succeed in planning?

(I) Reflective thinking

(II) Pondering

(III) Imagination

(IV) Farsightedness

(V) Reflecting

Select the correct answer from the options given below –

(A) (I), (III) & (V)

(B) (IV), (III) & (II)

(C) (II), (III), (I) & (V)

(D) (IV), (I) & (III)

Answer:

(D) (IV), (I) & (III)

67. Limitations of planning:

(A) Planning is a continuous function of management

(B) Since the future cannot be predicted with absolute accuracy, premising is always subject to a margin of error and guess-work which are reflected in various plans based on them.

(C) Planning is an all-pervasive and a primary function of management.

(D) Planning is the selecting and relating of facts and the making and using of assumptions regarding the future in the visualization and formulation of proposed activities believed necessary to achieve desired results.

Answer:

(B) Since the future cannot be predicted with absolute accuracy, premising is always subject to a margin of error and guess-work which are reflected in various plans based on them.

68. A statement which defines the company's business, its objectives and its approach to reach those objectives:

(A) Planning

(B) Mission

(C) Forecasting

(D) Policy

Answer:

(B) Mission

69. Planning process comprises determination and laying down of –

(i) Objectives

(ii) Policies

(iii) Procedures

(iv) Rules

(v) Remuneration

Select the correct answer from the options given below –

(A) (i), (ii), (iii), (v)

- (B) (i), (ii), (iii), (iv)
- (C) (i), (ii), (iv), (v)
- (D) (i), (iii), (iv), (v)

Answer:

- (B) (i), (ii), (iii), (iv)

70. The second step involved in planning process is the –

- (A) Evaluation of alternatives
- (B) Formulating derivative plans
- (C) Establishment of planning premises
- (D) Establishing objectives

Answer:

- (C) Establishment of planning premises

71. Which of the following can be treated as internal planning premise?

- (A) Politico-technological conditions
- (B) Socio-economic conditions
- (C) Sales forecast
- (D) Technological changes

Answer:

- (C) Sales forecast

72. Which of the following can be treated as external planning premise?

- (A) Politico-technological conditions
- (B) Marketing plans
- (C) Sales forecast
- (D) Strategic Plans

Answer:

- (A) Politico-technological conditions

73. Identify the correct steps in planning.

- I. Selecting a course of action
- II. Determining alternative courses
- III. Establishing objectives
- IV. Formulating derivative plans
- V. Evaluation of alternatives
- VI. Establishment of planning premises

Select the correct answer from the options given below –

- (A) III, VI, II, IV, I, V
- (B) VI, III, II, V, I, IV
- (C) III, IV, II, V, I, VI
- (D) III, VI, II, V, I, IV

Answer:

- (D) III, VI, II, V, I, IV

74. Identify correct steps in forecasting.

- I. Analysis of deviations
- II. Forecasting future course of business
- III. Improving the existing forecasting procedure
- IV. Identifying and developing the structure

Select the correct answer from the options given below –

- (A) II, IV, I, III
- (B) III, I, II, IV
- (C) I, III, IV, II
- (D) IV, II, I, III

Answer:

- (D) IV, II, I, III

75. **Statement 1:** Forecasting does not play any role in planning.

Statement 2: Forecasts are based on postulations and assumptions and, as such, are subject to some amount of guess-work.

- (A) Statement 1 and Statement 2 both are false.
- (B) Statement 1 and Statement 2 both are true.
- (C) Statement 1 is true but Statement 2 is false.
- (D) Statement 2 is true but Statement 1 is false.

Answer:

- (D) Statement 2 is true but Statement 1 is false.

76. Risk cannot be managed unless it is

- (A) Assessed
- (B) Identified
- (C) Measured
- (D) Evaluated

Answer:

- (B) Identified

77. In decision making under different conditions, what is the difference between risk and uncertainty?

- (A) Under risk, information is reliable; under uncertainty, it is not.
- (B) Under risk, choices are clear and the chances of different outcomes can be measured; under uncertainty, neither applies
- (C) Under risk, there is a well defined problem; under uncertainty, the definition is unclear.
- (D) Under risk, probabilities can be measured; under uncertainty, they cannot

Answer:

- (B) Under risk, choices are clear and the chances of different outcomes can be measured; under uncertainty, neither applies

78. Which of the following is not a principle of decision-making?

- (A) Principle of definition
- (B) Principle of evidence
- (C) Principle of identity
- (D) Principle of prudence

Answer:

(D) Principle of prudence

79. In case of decision making, “diagnosing the real problem implies”

(A) Analyzing the internal and external factors and discovering relations between them

(B) Knowing the gap between what exists and what is expected to happen, identifying the reasons for the gap

(C) Decentralizing routine matters so that top management can concentrate on vital and strategic decisions

(D) Actual selection of a course of action from among a number of alternatives

Answer:

(B) Knowing the gap between what exists and what is expected to happen, identifying the reasons for the gap

80. Identify correct steps in decision making.

I. Identifying the real problem

II. Discovery of alternatives

III. Analysis of available alternatives

IV. Selection of alternatives

V Communication of decision

Select the correct answer from the options given below –

(A) II, IV, I, III, V

(B) III, I, II, IV, V

(C) I, III, II, IV, V

(D) I, II, III, IV, V

Answer:

(D) I, II, III, IV, V

81. Which of the following is not related with ‘business plans’?

(A) Largely enforced business goals

(B) The reasons why they are believed attainable

(C) The plan for reaching those goals

(D) Changes in perception and branding

Answer:

(D) Changes in perception and branding

82. Which of the following best expresses the difference between programmed and non-programmed decisions?

(A) Made by managers who prefer a thinking or technocratic style; made by managers who use judgment and follow intuition

(B) Have computer routines developed for them; are not computerized

(C) Handled with decision rules; decision rules cannot be developed

(D) Occur under certainty or risk; occur under uncertainty or ambiguity

Answer:

(C) Handled with decision rules; decision rules cannot be developed

83. Identify correct sequence/steps in organizing function of management.

- (I) Delegation of authority and placing of responsibility.
- (II) Identification and classification of activities of the enterprise consistent with its objectives.
- (III) Making provision for effective coordination and establishment of definite lines of supervision.
- (IV) Establishing superior subordinate relationship within the departments.
- (V) Grouping various activities into workable units or departments.

Select the correct answer from the options given below –

- (A) II, V, I, III & IV
- (B) II, V, IV, I & III
- (C) II, I, V, IV & III
- (D) II, V, I, IV & III

Answer:

- (D) II, V, I, IV & III

84. Which of the following is one of the steps in organizing function of management?

- (A) Identification of opportunities and avoiding or mitigating losses.
- (B) Grouping various activities into workable units or departments
- (C) Structured approach in managing uncertainty related to a threat.
- (D) Promote greater openness in decision making and improves communication

Answer:

- (B) Grouping various activities into workable units or departments

85. Due to which function of management superior subordinate relationships are established?

- (A) Planning

48. Who has given the hierarchy of needs hierarchy theory of motivation? Sol:

- A. Abraham Maslow
- B. David McClelland
- C. Victor Vroom
- D. Frederick Herzberg

Answer» A. Abraham Maslow

[discuss](#)

49. How many levels are there in Needs Hierarchy theory of motivation?

- A. 6
- B. 5
- C. 4
- D. 3

Answer» B. 5

[discuss](#)

50. Which among the following is the highest level need under Need Hierarchy Theory of Motivation?

- A. A:)Safety and Security Needs
- B. Social Needs
- C. Self-esteem Needs
- D. Self Actualization Needs

Answer» D. Self Actualization Needs

51. Which among the following is the lowest level need under Need Hierarchy Theory of Motivation?

- A. A:)Physiological Need
- B. Safety and Security Needs
- C. Social Needs
- D. Self-esteem Needs

Answer» A. A:)Physiological Need

[discuss](#)

52. .Name the motivation theory that is based on Satisfaction-progression? Sol:

- A. Alderfer – ERG theory
- B. Maslow – hierarchy of needs theory
- C. Herzberg – Two factor theory
- D. Skinner’s reinforcement theory

52. .Name the motivation theory that is based on Satisfaction-progression? Sol:

Answer» D. Skinner's reinforcement theory

[discuss](#)

53. According to Maslow's need hierarchy theory motivation, the lower level of human needs emanates from _____

- A. A:)Need of maintaining a given economic level
- B. Needs like food, clothing, shelter, air, water
- C. Need of individuals to associate, belong with others
- D. Need for power, self respect, autonomy, self confidence,

Answer» B. Needs like food, clothing, shelter, air, water

[discuss](#)

54. Which among the following theories can be considered as an extension of Maslows' Need Hierarchy Theory of Motivation?

- A. A:)Alderfer – ERG theory
- B. Maslow – hierarchy of needs theory
- C. Herzberg – Two factor theory
- D. Skinner's reinforcement theory

Answer» A. A:)Alderfer – ERG theory

[discuss](#)

55. Which among the following is not a deficiency need that arises due to deprivation? Sol:

- A. Physiological Need
- B. Safety and Security Needs
- C. Social Needs
- D. Self Actualization Needs

Answer» D. Self Actualization Needs

[discuss](#)

56. Who propounded X and Y theory of motivation Sol:

- A. Maslow
- B. F. Herzberg
- C. Alderfer
- D. Mc Gregor

Answer» D. Mc Gregor

58. Process or administrative theory of organization is being given by Sol:

- A. Elton Mayo
- B. Henry Fayol
- C. F.W. Taylor
- D. Max Weber

Answer» B. Henry Fayol

[discuss](#)

59. Basis of "Autocratic Model of OB is Sol:

- A. Economic resources
- B. Power
- C. Leadership
- D. Partnership

Answer» B. Power

[discuss](#)

60. Which one of the following need is not coming under Mc Clelland theory of motivation? Sol:

- A. Need for achievement
- B. Need for affiliation
- C. Need for actualization
- D. Correct

Answer» D. Correct

[discuss](#)

61. An attitude can be inferred from a person's: Sol:

- A. Cognition
- B. Affect
- C. Behavior
- D. All of the above

Answer» D. All of the above

[discuss](#)

62. Which theory of attitudes does not involve a cognitive component? Sol:

- A. Cognitive dissonance theory
- B. Balance theory
- C. of planned behavior
- D. Classically conditioned attitudes

Answer» D. Classically conditioned attitudes

[discuss](#)

63. A person has two important attitude, those attitudes are likely to be: Sol:

- A. Mutually consistent
- B. Accessible
- C. Persistent over time
- D. All of the above

Answer» D. All of the above

[discuss](#)

64. Who propounded the Need's Theory Sol:

- A. Frederick Herzberg
- B. Alderfer
- C. Abraham Harold Maslow
- D. None of the above

Answer» C. Abraham Harold Maslow

[discuss](#)

65. The two factor theory is based on which factors? Sol:

- A. Hygiene and behavioural
- B. Safety and self – esteem
- C. Self - actualisation and status quotient
- D. None of the above

Answer» A. Hygiene and behavioural

[discuss](#)

66. Which of the following is a need that motivates human behaviour as per the achievement motivation theory? Sol:

- A. Power
- B. Affiliation
- C. Achievement
- D. All of the above

Answer» D. All of the above

[discuss](#)

67. Which of the following is a need that motivates human behaviour as per the achievement motivation theory?

- A. Power
- B. Affiliation
- C. Achievement
- D. All of the above

Answer» D. All of the above

[discuss](#)

68. _____ and _____ came out with a comprehensive theory of motivation called the performance - satisfaction model. Sol:

- A. Festinger and Heider
- B. Jacques and Patchen
- C. Porter and Lawler
- D. Weick and Adams

Answer» C. Porter and Lawler

[discuss](#)

69.	Which among the following is the correct order of Maslows' Need Hierarchy Theory of Motivation starting from lower to higher level need? Sol:
A.	Social Needs, Physiological Need, Safety and Security Needs, Self-esteem Needs, SelfActualization Needs
B.	Physiological Need, Safety and Security Needs, Social Needs, Self-esteem Needs, SelfActualization Needs
C.	Self-Actualization Needs , Physiological Need, Safety and Security Needs, Social Needs, Self-esteem Needs
D.	Safety and Security Needs, Physiological Need, Social Needs, Self Actualization Needs, Self-esteem Needs
Answer» C. Self-Actualization Needs , Physiological Need, Safety and Security Needs, Social Needs, Self-esteem Needs

B.	Terry
C.	Louis Allan
D.	Hendry Fayol
Answer» D. Hendry Fayol	

[discuss](#)

73.	Early theories concentrate on what motivates individuals in their work. They include: Sol:
A.	Maslow's hierarchy of needs
B.	Herzberg's hygiene and motivator factors
C.	Both A&B
D.	All of the above
Answer» C. Both A&B	

[discuss](#)

74. It is argued that individuals are motivated differently, and the strength of their motivation depends on a variety of factors, such as:

- A. Needs, personality
- B. Perceptions about whether more effort will result in achieving goals
- C. Rewards and expectations about whether the rewards for achieving the goals will actually meet the individual's needs.
- D. All of the above

Answer» D. All of the above

[discuss](#)

75. If a person has two important attitudes, those attitudes are likely to be: Sol:

- A. Mutually consistent
- B. Accessible
- C. Persistent over time
- D. All of the above

Answer» D. All of the above

76. Which people tend to have the strongest attitudes? Sol:

- A. Young adults
- B. Middle-aged adults
- C. Older adults
- D. None of the above

Answer» D. None of the above

[discuss](#)

77. Which people make riskier decisions? Sol:

- A. Individuals
- B. Group members at the beginning of a discussion
- C. Group members after a discussion
- D. None of the above

Answer» D. None of the above

[discuss](#)

78. What is one difference between cognitive dissonance theory and balance theory? Sol:

- A. Balance theory does not relate to consistency
- B. Cognitive dissonance theory does not relate to cognition
- C. Cognitive dissonance theory does not concern relationships between people
- D. None of the above

Answer» C. Cognitive dissonance theory does not concern relationships between people

[discuss](#)

79. When are people more likely to learn selectively? Sol:

- A. During incidental learning
- B. During intentional learning
- C. During active learning

79. When are people more likely to learn selectively? Sol:

D. Both B and C

Answer» A. During incidental learning

[discuss](#)

80. Which group is more likely to show selective attention? Sol:

A. Repressors

B. Sensitizers

C. Extroverts

D. None of the above

Answer» A. Repressors

[discuss](#)

81. People are more selective about exposure to content when: Sol:

A. Dissonance is decreased

B. An attitude is personally important

C. Sequentially arriving information increases commitment

D. Both B and C

Answer» D. Both B and C

[discuss](#)

82. Dissonance can be described as: Sol:

A. A motivational state

B. A state of arousal

C. Both A and B

D. Neither A nor B

Answer» C. Both A and B

[discuss](#)

83. Cognitive dissonance research has mostly focused on: Sol:

A. Attitude change

B. Behaviour change

C. Both A and B

D. Neither A nor B

Answer» A. Attitude change

[discuss](#)

**84. What is one similarity between classic attitudes research and newer social cognition research?
Sol:**

A. Metatheories

B. Theories of cognition

C. Methods from cognitive psychology

D. None of the above

Answer» A. Metatheories

[discuss](#)

85.	Why was social cognition research initially spurned by traditionalist researchers Sol:
A.	It did not include enough of an affective component
B.	It did not involve enough of a behavioural component
C.	It was thought to be redundant with cognitive psychological research
D.	It was thought to be redundant with attitudes research
Answer» A. It did not include enough of an affective component	
discuss	
86.	Which among the following is the correct order of Maslows' Need Hierarchy Theory of Motivation starting from lower to higher level need?
A.	Safety and Security Needs, Physiological Need, Social Needs, Self-esteem Needs, Self-Actualization Needs
B.	Social Needs, Physiological Need, Safety and Security Needs, Self-esteem Needs, Self-Actualization Needs
C.	Physiological Need, Safety and Security Needs, Social Needs, Self-esteem Needs, Self-Actualization Needs
D.	Self-Actualization Needs , Physiological Need, Safety and Security Needs, Social Needs, Self-esteem Needs
Answer» C. Physiological Need, Safety and Security Needs, Social Needs, Self-esteem Needs, Self-Actualization Needs	
discuss	
87.	Which among the following is not a deficiency need that arises due to deprivation? Sol:
A.	Safety and Security Needs
B.	Social Needs
C.	Self-esteem Needs

Answer» C. cognitive approach

[discuss](#)

111. Devin's personality is researched through 3 factors: extraversion, neuroticism and psychoticism. This personality trait model is called

- A. Eysenck's Trait Model
- B. Myers-Briggs Type Indicator
- C. Smith Model
- D. Cattell's Sixteen factor Model

Answer» A. Eysenck's Trait Model

[discuss](#)

112. What type of personality focuses on how people adapt to everyday life and intervenes to improve the lives of individuals through therapy?

- A. Academic psychology
- B. Clinical Psychology
- C. Practical Psychology
- D. Applied Psychology

Answer» B. Clinical Psychology

[discuss](#)

113. Which of the following would be a phenomenological approach to the study of personality?

- A. emphasize subject's feelings
- B. emphasize subject's thoughts
- C. emphasize the meaning that people ascribe to events, not simply the objective events themselves
- D. All of the above

Answer» D. All of the above

[discuss](#)

114. What is the trait approach to personality?	
A.	Assumes that people are motivated by unconscious emotional conflicts
B.	Assumes that each individual has stable personality characteristics
C.	Assumes that people's thoughts and beliefs are central to personality
D.	Assumes that people have an innate tendency to become self-actualized
Answer» B. Assumes that each individual has stable personality characteristics	

[discuss](#)

115. William Sheldon suggested that body build was associated with personality traits. Which one best describes a person who's sensitive and intellectual?	
A.	conservative
B.	neurotic
C.	endomorph
D.	ectomorph
Answer» D. ectomorph	

[discuss](#)

116. Natali . What is the difference between nomothetic and idiographic approaches to personality?	
A.	nomothetic approaches seek to find generalized laws of behaviour that help us classify people in terms of their similarities, while idiographic approaches seek to find what makes people unique
B.	nomothetic approaches view only the differences between people, while idiographic approaches seek to find similarities
C.	idiographic approaches try to categorize people, while nomothetic approaches don't
D.	None of them
Answer» A. nomothetic approaches seek to find generalized laws of behaviour that help us classify people in terms of their similarities, while idiographic approaches seek to find what makes people unique	

[discuss](#)

117. D What is one of the main assumptions of the trait approach to personality?	
A.	traits are not very stable across the lifespan and are therefore weak predictors of personality
B.	traits stay relatively stable across the lifespan
C.	traits change drastically around the age of 6 years, which has to be taken into account when predicting personality
D.	None of them
Answer» A. traits are not very stable across the lifespan and are therefore weak predictors of personality	

[discuss](#)

118. Which of the following is NOT given as a criticism of the Type A/B personality theory?	
A.	most of the research on Type A personality is purely correlational

118.	Which of the following is NOT given as a criticism of the Type A/B personality theory?
B.	there is a lack of cross-cultural research
C.	the questionnaires that claim to measure Type A personality have poor internal reliability scores
D.	None of them
Answer» C. the questionnaires that claim to measure Type A personality have poor internal reliability scores	

[discuss](#)

119.	What is meant by ‘interactionism’ in personality psychology?
A.	the view that the interaction between people shapes their personalities
B.	the view that there is reciprocal interaction between personality, situations and the environment

Answer» D. Crash.	

[discuss](#)

52.	Large scale projects are an example of ----- project.
A.	Quantifiable
B.	Magnitude
C.	Sect oral
D.	Crash.
Answer» B. Magnitude	

[discuss](#)

53.	----- is the final report.
A.	Feasibility report
B.	Interim report
C.	Project report
D.	Progress report.
Answer» C. Project report	

[discuss](#)

54.	Which of the following is not included in utilities.
A.	Raw material
B.	Water
C.	Power
D.	Efficient disposal.
Answer» A. Raw material	

[discuss](#)

55.	----- skill helps an entrepreneur to establish an enterprise.
A.	Communication
B.	Decision making
C.	project development
D.	Management.
Answer» C. project development	

[discuss](#)

56.	----- skills are necessary for an entrepreneur to deal with many people.
A.	Communication
B.	Decision making
C.	project management
D.	management.
Answer» A. Communication	

[discuss](#)

57. ----- refers to manner in which a company's inputs are transferred into output process.

- A. Proces
- B. Method
- C. Technology
- D. Method.

Answer» C. Technology

[discuss](#)

58. ----- is the huge investment in plant and machinery.

- A. Labor intensive
- B. Capital intensive
- C. large scale
- D. Medium scale

Answer» B. Capital intensive

[discuss](#)

59. the discount rate must be determined in advance for the

- A. Payback period
- B. Time adjusted rate of return method
- C. A R R
- D. N P V Method.

Answer» D. N P V Method.

[discuss](#)

60. Which one of the following is not a discounted cash flow technique.

- A. A R R
- B. I R R V
- C. N P V
- D. P I .

60. Which one of the following is not a discounted cash flow technique.

Answer» A. A R R

[discuss](#)

61. The difference between the total preset value of a discount and the initial capital outlay is known as the.

- A. I R R
- B. A R R
- C. N P V
- D. Net profit.

Answer» C. N P V

[discuss](#)

62. ----- report is a document where all the detailes obtained from technical analysis , financial analysis , profitability analysis etc. are put together.

- A. Feasibility
- B. Project
- C. Both
- D. None.

Answer» B. Project

[discuss](#)

63. ----- Analysis is concerned with identification of project demand potential and selection of optimal technology.

- A. Techno economic
- B. Social cost benefit
- C. Network
- D. Financial.

Answer» A. Techno economic

[discuss](#)

64. ----- analysis concerned with the development of detailed work plan of the project and its time profile.

- A. Techno-economic

64. ----- analysis concerned with the development of detailed work plan of the project and its time profile.

B. Network

C. financial

- C. Uncertainty
- D. none of these.

Answer» A. Profit

[discuss](#)

182. Resources are scarce which demands are -----.

- A. Unlimited
- B. Limited
- C. Scarce
- D. none of these.

Answer» A. Unlimited

[discuss](#)

183. The development of nation depends on the development of -----.

- A. Entrepreneurship
- B. Export
- C. Import
- D. None of these.

Answer» A. Entrepreneurship

[discuss](#)

184. ----- is the drive to achieve goal

- A. Motivation
- B. Need for achievement
- C. Portfolio
- D. none of these.

184. _____ is the drive to achieve goal

Answer» A. Motivation

[discuss](#)

185. After screening the ideas, they are translated into project _____.

- A. Portfolio
- B. Profiles
- C. Proposal
- D. none of these.

Answer» B. Profiles

[discuss](#)

186. The element of job to be completed in a specific time is known as _____.

- A. Event
- B. Activity
- C. Network
- D. Slack.

Answer» B. Activity

[discuss](#)

187. Activities lying on the critical path are known as _____ activities.

- A. Critical
- B. Preceding
- C. Succeeding
- D. Concurrent.

Answer» A. Critical

[discuss](#)

188. Which of the following is a technique of project identification?

- A. desk research
- B. Sensitivity analysis

188. Which of the following is a technique of project identification?

- C. CVP analysis
- D. none of these.

Answer» A. desk research

[discuss](#)

189. Which of the following is not a technique of financial analysis.

- A. Ratio analysi
- B. Risk analysis
- C. Cash flow analysis
- D. Fund flow analysis.

Answer» B. Risk analysis

[discuss](#)

190. ----- is described as bread earning point.

- A. Cash flow
- B. Fund flow
- C. Ratio
- D. break even.

Answer» D. break even.

[discuss](#)

191. The skill to people and to influence their behavior is known as -----.

- A. Diagnostic
- B. Conceptual
- C. Technical
- D. Human relation.

Answer» D. Human relation.

[discuss](#)

192.	----- analysis is carried out to ascertain technical soundness of the project.
A.	Techno-economic
B.	Technical
C.	Financial
D.	Pre- investment appraisal.
Answer» B. Technical	

[discuss](#)

193.	Which of these is not industries promotional institution?
A.	KFC
B.	KSIDC
C.	KSETDC
D.	KTC.
Answer» D. KTC.	

[discuss](#)

194.	Ability to make clear decisions on the merits of a case is called -----.
A.	Communication
B.	Decision making
C.	Project development
D.	Management.
Answer» B. Decision making	

[discuss](#)

195.	----- skill relates to accounting and financing control, marketing, and production planning and inventory control and to manage people who work in the enterprise.
A.	Communication
B.	Decision making
C.	Project development
D.	Management.

195. ----- skill relates to accounting and financing control, marketing, and production planning and inventory control and to manage people who work in the enterprise.

Answer» D. Management.

[discuss](#)

196. The first and foremost industrial estate was established in the year -----.

- A. 1960
- B. 1962
- C. 1955
- D. 1950.

Answer» C. 1955

[discuss](#)

197. ----- is the financial and promotional assistance provided by the govt. to the industries for boosting up industrial development in all regions particularly in backward areas.

- A. Seed capital
- B. Incentive
- C. Subsidy
- D. none of these.

Answer» B. Incentive

[discuss](#)

198. An imitating entrepreneur is one

- A. who introduces new method of production
- B. who adopts method used by others
- C. who adopts old techniques
- D. who does not like to bear risk

Answer» B. who adopts method used by others

[discuss](#)

199. Drone entrepreneurs are characterized by

- A. Rigid ways

199.	Drone entrepreneurs are characterized by
B.	Liberal attitude
C.	Conservative thinking
D.	Flexible attitude
Answer» A. Rigid ways	

[discuss](#)

200.	A Fabian entrepreneur is one
A.	who takes maximum risk
B.	who is very aggressive
C.	who is frequently induces new product in business
D.	who is timid and caution
Answer» D. who is timid and caution	

MANAGEMENT INFORMATION SYSTEMS

1.	The information of MIS comes from the
A.	internal source
B.	external source
C.	both internal and external source
D.	none of the above
Answer» C. both internal and external source	

[discuss](#)

2.	The back bone of any organization is
A.	information
B.	employee
C.	management
D.	capital
Answer» B. employee	

[discuss](#)

3. AI is the short form of

- A. artificial information
- B. artificial intelligence
- C. artificial integration
- D. none of the above

Answer» B. artificial intelligence

[discuss](#)

4. The advantage(s) of transistors are they

- A. are portable
- B. are more reliable
- C. consume less power
- D. all of the above

Answer» D. all of the above

[discuss](#)

5. The flow of information through MIS is

- A. need dependent
- B. organization dependent
- C. information dependent
- D. management dependent

Answer» A. need dependent

[discuss](#)

6. The elements of control will consist of

- A. authority, direction, management
- B. authority, direction, information
- C. authority, application, management
- D. authority, application, information

6.	The elements of control will consist of
Answer» A. authority, direction, management	
discuss	
7.	Internal information for MIS may come from any one of the following department.
A.	customers care department
B.	hr department
C.	marketing department
D.	production department
Answer» A. customers care department	
discuss	
8.	Audit gives details about _____ to Account Payable System
A.	account balance
B.	transaction
C.	expenditure
D.	all of the above
Answer» A. account balance	
discuss	
9.	One byte is made of
A.	four bits
B.	eight bits
C.	twelve bits
D.	sixteen bits
Answer» B. eight bits	
discuss	
10.	MIS normally found in a manufacturing organization will not be suitable in the _____.
A.	service sector
B.	banking sector

10. MIS normally found in a manufacturing organization will not be suitable in the _____.

C. agriculture sector

D. all of the above

Answer» A. service sector

[discuss](#)

11. _____ details are given by Management to Marketing Service System.

A. customer

B. employee

C. supplier

D. none of the above

Answer» C. supplier

[discuss](#)

12. The basic component(s) of DSS is (are)

A. database

B. model base

C. dss software system

D. all of the above

Answer» D. all of the above

[discuss](#)

13. GDSS is the short form of

A. group decision support system

B. group discussion support system

C. group decision service system

D. group discussion support source

Answer» A. group decision support system

[discuss](#)

14. Decision trees could be represented in different ways such as

- A. bottom to top
- B. left to right
- C. top to bottom
- D. all of the above

Answer» D. all of the above

[discuss](#)

15. The types of data transmission modes are

- A. half duplex. , duplex. , simplex
- B. half duplex. , duplex. , simplex
- C. half duplex. , duplex. , half simplex
- D. simplex, duplex, half triplex

Answer» B. half duplex. , duplex. , simplex

[discuss](#)

16. Using _____ a decision maker can make hypothetical changes to problem data and observe the impact on the results

- A. simulation
- B. what-if analysis
- C. optimization
- D. goal-seeking analysis

Answer» B. what-if analysis

[discuss](#)

17. _____ involves the investigation of new approaches to existing problems.

- A. systems analysis
- B. creative analysis
- C. critical analysis
- D. organizational analysis

Answer» B. creative analysis

[discuss](#)

18. Which of the following is NOT a goal of transaction processing systems?

- A. capture, process, and store transactions
- B. produce a variety of documents related to routine business activities
- C. reduce manual effort associated with processing business transactions
- D. produce standard reports used for management decision making

Answer» D. produce standard reports used for management decision making

[discuss](#)

19. _____ is factors that are essential to the success of certain functional areas of an organization.

- A. mission-critical factors
- B. critical success factors
- C. performance objectives
- D. strategic factors

Answer» B. critical success factors

[discuss](#)

20. In _____ organization, authority is delegated down the hierarchy.

- A. traditional
- B. classical
- C. operational
- D. absolute

Answer» B. classical

[discuss](#)

21. The starting point of MIS planning is general _____ planning.

- A. objective.
- B. managers.
- C. business.
- D. firms.

21. The starting point of MIS planning is general _____ planning.

Answer» C. business.

[discuss](#)

22. BPR means _____

A. business product engineering.

B. business process engineering.

C. business product electronic.

D. business process electronic.

Answer» B. business process engineering.

[discuss](#)

23. _____ leader who commands both positional and personal influence. Team.

A. team.

B. project.

C. formal.

D. informal.

Answer» C. formal.

[discuss](#)

24. _____ is a prominent attribute of management information procured through MIS of an organization.

A. explicitness.

B. completeness.

C. accuracy.

D. exception based.

Answer» A. explicitness.

[discuss](#)

25. Critical information for top management is provided by _____ information system.

A. expert.

B. executive.

25.	Critical information for top management is provided by _____ information system.
C.	decision.
D.	managerial.
Answer» B. executive.	
26.	_____ sub system covers granting of credit and cost management
A.	accounting.
B.	purchase.
C.	personnel.
D.	sales.
Answer» A. accounting.	

[discuss](#)

27.	_____ type of testing ensures the system is free of errors and is ready to be placed into operation.
A.	audit
B.	general
C.	technical
D.	data
Answer» A. audit	

[discuss](#)

28.	_____ processing is considered as the classical method of processing data.
A.	batch.
B.	group.
C.	sequence.
D.	real.
Answer» A. batch.	

[discuss](#)

29.	_____ type of processing, data is processed immediately after a transaction occurs.
A.	batch.
B.	parallel.
C.	sequence.
D.	real time.
Answer» D. real time.	

[discuss](#)

30.	_____ of information systems that support key business functions as well as cross functional business processes.
A.	standards.
B.	rules.
C.	portfolio.
D.	procedure.
Answer» C. portfolio.	

[discuss](#)

31.	In database handling _____ reports used by software for data.
A.	condition.
B.	specific.
C.	periodic.
D.	demand.
Answer» C. periodic.	

[discuss](#)

32.	_____ steps ensure the success of the new systems
A.	initial
B.	implementation
C.	testing
D.	design
Answer» B. implementation	

[discuss](#)

33. SCM stands for _____

- A. supply chain method
- B. supply collection management
- C. supply chain management
- D. search chain management

Answer» C. supply chain management

[discuss](#)

34. _____ means that information must reach the recipients within the prescribe timerframe.

- A. duration.
- B. period.
- C. timeliness.
- D. time.

Answer» C. timeliness.

[discuss](#)

35. Customer numbers and their names would be an example of the _____ component of an order management information system.

- A. software
- B. hardware
- C. data
- D. procedure

Answer» C. data

[discuss](#)

36. What are the qualities of a good s/w ?

- A. reusability
- B. portability
- C. inter operability
- D. all of the above

36.	What are the qualities of a good s/w ?
Answer» D. all of the above	
discuss	
37.	Which of the following is not a characteristic of good information?
A.	interchangeability
B.	relevance
C.	cost effectiveness
D.	timeliness
Answer» A. interchangeability	
discuss	
38.	The value of information is directly linked to _____ .
A.	its accuracy and completeness
B.	its verifiability
C.	its simplicity and security
D.	how it helps decision makers achieve organizational goals
Answer» A. its accuracy and completeness	
discuss	
39.	_____ often referred to as "rules of thumb," are commonly accepted guidelines or procedures that usually lead to a good decision.
A.	optimization models
B.	satisficing models
C.	heuristics
D.	programmed decisions
Answer» D. programmed decisions	
discuss	
40.	In among the firms executives, managers, and supervisors are comes under _____ of workers.
A.	knowledge.
B.	leader.

40. In among the firms executives, managers, and supervisors are comes under _____ of workers.
- C. informer.
- D. higher level.

Answer» A. knowledge.

[discuss](#)

41. _____ is an awareness and understanding of a set of information and ways that information can be made useful to support a specific task or reach a decision
- A. knowledge
- B. data
- C. feedback
- D. a process

Answer» A. knowledge

[discuss](#)

42. Day's critical activities and is typically available at the beginning of each workday.
- A. demand report
- B. scheduled report
- C. key-indicator report
- D. exception report

Answer» C. key-indicator report

[discuss](#)

43. The translation of strategic and organizational goals into system development initiatives is called _____.
- A. systems development
- B. information systems planning
- C. project planning
- D. project definition

Answer» B. information systems planning

[discuss](#)

44.	Information systems that monitor the elementary activities and transactions of the organizations are _____.
A.	management-level systems.
B.	operational-level systems.
C.	knowledge-level systems.
D.	strategic systems.
Answer» A. management-level systems.	

[discuss](#)

45.	_____ system is concerned with the way information is used for purpose of control and applies technologies.
A.	feedback.
B.	interview.
C.	interaction.
D.	conference.
Answer» A. feedback.	

[discuss](#)

46.	The information generated at regular intervals is a _____ information.
A.	depositing.
B.	saving.
C.	recurring.
D.	collecting.
Answer» C. recurring.	

[discuss](#)

47.	In MIS _____ plays economically sound and logically in development process.
A.	information.
B.	data.
C.	statements.
D.	data flow.

47. In MIS _____ plays economically sound and logically in development process.

Answer» D. data flow.

[discuss](#)

48. The _____ information system deals with the flow of information about people working in the organization

- A. record.
- B. transaction.
- C. personnel.
- D. blocked.

Answer» C. personnel.

[discuss](#)

49. In company side the outsourcing people also called _____.

- A. system integrators.
- B. system analyst.
- C. system evaluator.
- D. system tester.

Answer» A. system integrators.

[discuss](#)

50. _____ will produce the periodic financial statements and reports of the business.

- A. cash ledger
- B. final account
- C. trail balance
- D. general ledger

Answer» D. general ledger

51. The major drawbacks in decision making by MIS is difficult due _____ for business problems.

- A. structure.
- B. rules.

50. _____ will produce the periodic financial statements and reports of the business.
- C. strategy.
- D. conditions.

Answer» B. rules.

[discuss](#)

52. In which of the following functions of MIS reports are generated based on the enterprise's need'?
- A. planning
- B. prediction,
- C. data processing
- D. data storage

Answer» A. planning

[discuss](#)

53. The direct, computer-to-computer exchange of standardized, common business transaction documents between business partners, suppliers, and customers is _____
- A. edi
- B. es
- C. eis
- D. erp

Answer» A. edi

[discuss](#)

54. What software organizes, manages, and processes business data concerned with inventory, customers, and vendors?
- A. customer- oriented software
- B. data management software
- C. storage area network network
- D. grid computing software

Answer» B. data management software

[discuss](#)

55.	_____ organizational structure employs individuals, groups, or complete business units in geographically dispersed areas who may never meet face to face in the same room.
A.	traditional
B.	virtual
C.	multidimensional
D.	matrix
Answer» B. virtual	

[discuss](#)

56.	The data processing activity that involves rekeying miskeyed or misscanned data is called _____.
A.	editing
B.	data storage
C.	data correction
D.	data collection
Answer» C. data correction	

[discuss](#)

57.	_____ are individuals who help users determine what outputs they need from the system and construct the plans needed to develop the necessary programs that produce these outputs.
A.	data entry operators
B.	programmers
C.	database administrators
D.	systems analysts
Answer» D. systems analysts	

[discuss](#)

58.	In a company _____ is the centre which consists of all processing activities.
A.	data.
B.	production.
C.	information.

58. In a company _____ is the centre which consists of all processing activities.

D. sales.

Answer» A. data.

[discuss](#)

59. In a firm the reports are generated under condition are called _____ reports.

A. exception.

B. condition.

C. standard.

D. periodic.

Answer» A. exception.

[discuss](#)

60. A _____ evaluation process reduces the possibility of buying inadequate hardware.

A. stable

B. formal

C. unstable

D. informal

Answer» B. formal

[discuss](#)

61. _____ is the period in days between the ordering and delivering of goods.

A. demand

B. duration

C. lead time

D. process

Answer» C. lead time

[discuss](#)

62.	_____ configurations provide extremely a fast transmission between workstations contains only one link.
A.	general.
B.	star.
C.	mesh.
D.	ring.
Answer» C. mesh.	

[discuss](#)

63.	The first stage in the problem-solving process is called the _____ stage. During this stage, potential problems or opportunities are identified and defined.
A.	choice
B.	design
C.	monitoring
D.	intelligence
Answer» C. monitoring	

[discuss](#)

64.	A _____ is an abstraction or an approximation that is used to represent reality.
A.	model
B.	system parameter
C.	system performance standard
D.	system
Answer» A. model	

[discuss](#)

65.	Which of the following SDLCs listed below takes an iterative approach to the systems development process?
A.	end user
B.	rad
C.	prototyping
D.	traditional waterfall

65. Which of the following SDLCs listed below takes an iterative approach to the systems development process?

Answer» B. rad

[discuss](#)

66. _____ models to analysis a problem and provides possible solution for management evaluation

A. decision.

B. standard.

C. structural.

D. periodic.

Answer» A. decision.

[discuss](#)

67. A deterministic system operate in a predictable _____.

A. model.

B. style.

C. process.

D. manner.

Answer» D. manner.

[discuss](#)

68. _____ is the fact that are properly arranged, classified and organized.

A. data.

B. events.

C. statements.

D. information.

Answer» D. information.

[discuss](#)

69. The _____ component plays a decision rule for the computer.

A. program.

B. statements.

69. The _____ component plays a decision rule for the computer.

C. input data.

D. conditions.

Answer» A. program.

[discuss](#)

70. _____ refers to the holism of the system in real time.

A. organization.

B. integration.

C. interaction.

D. central objective.

Answer» B. integration.

[discuss](#)

71. **Prototype is a**

A. working model of existing system

B. mini model of existing system

C. mini model of processed system

D. none of the above

Answer» A. working model of existing system

[discuss](#)

72. **Deciding where to locate new production facilities is an example of a manufacturing and production information system operating at the:**

A. operational level

B. management level

C. knowledge level

D. strategic level

Answer» D. strategic level

[discuss](#)

73.	Enterprise systems support:
A.	manufacturing processes.
B.	financial and accounting processes.
C.	human resource processes.
D.	all of the above.
Answer» D. all of the above.	

[discuss](#)

74.	An application where only one user accesses the database at a given time is an example of a(n)
A.	single-user database application
B.	multiuser database application
C.	e-commerce database application
D.	data mining database application
Answer» A. single-user database application	

[discuss](#)

75.	In the spiral model risk analysis is performed
A.	in the first loop
B.	in the first and second loop
C.	in every loop
D.	before using spiral model
Answer» C. in every loop	

76.	Which phase is not available in software life cycle?
A.	coding
B.	testing
C.	maintenance
D.	abstraction
Answer» D. abstraction	

[discuss](#)

77. The set of data available to the user, the so-called:

- A. start-user data
- B. end-user data
- C. database
- D. none of these

Answer» B. end-user data

[discuss](#)

78. _____ is the information about data.

- A. data
- B. meta-data
- C. entity
- D. relations

Answer» B. meta-data

[discuss](#)

79. The first step in the systems development life cycle (SDLC) is:

- A. analysis.
- B. design.
- C. problem/opportunity identification.
- D. development and documentation.

Answer» C. problem/opportunity identification.

[discuss](#)

80. Waterfall model is not suitable for?

- A. small projects
- B. complex projects
- C. accommodating change
- D. none of above

Answer» C. accommodating change

[discuss](#)

81. The advantages of creating a prototype are.

- A. it allows developers to experiment with number of different design options
- B. it can serve as means of communication between developers and customers
- C. both (a) and (b)
- D. none of the above

Answer» C. both (a) and (b)

[discuss](#)

82. CASE Tool is

- A. computer aided software engineering
- B. component aided software engineering
- C. constructive aided software engineering
- D. computer analysis software engineering

Answer» A. computer aided software engineering

[discuss](#)

83. RAD stands for:

- A. rotate application development
- B. register application development
- C. related application development
- D. rapid application development

Answer» D. rapid application development

[discuss](#)

84. Which is the most popular database model:

- A. network model
- B. relational model
- C. hierarchical model
- D. object oriented

84. Which is the most popular database model:

Answer» B. relational model

[discuss](#)

85. RAD Model was purposed by?

- A. ibm
- B. motorola
- C. microsoft
- D. lucent technologies

Answer» A. ibm

[discuss](#)

86. Preparing short-term budgets is an example of a finance and accounting Information system operating at the:

- A. operational level
- B. management level
- C. knowledge level
- D. strategic level

Answer» D. strategic level

[discuss](#)

87. Assembling a product, identifying customers and hiring employees are:

- A. transactions
- B. phases
- C. business processes
- D. business functions

Answer» C. business processes

[discuss](#)

88. _____ makes use of groupware technology on Internet platform for faster response Processing.

- A. e-communication
- B. e-business

88. _____ makes use of groupware technology on Internet platform for faster response Processing.

C. e-commerce

D. e-collaboration

Answer» C. e-commerce

[discuss](#)

89. The component of a decision support system that provides decision makers access to a variety of models and assists them in decision making is called the _____.

A. model base

B. model management software

C. database

D. dialogue manager

Answer» C. database

[discuss](#)

90. _____ is a form of transaction processing in which all transactions are collected into a group and processed together.

A. accumulation processing

B. batch processing

C. data collection

D. data collection

Answer» B. batch processing

[discuss](#)

91. _____ gives the computer the ability to make suggestions and act like an expert in a particular field.

A. decision support systems

B. virtual reality systems

C. management information systems

D. expert systems

Answer» D. expert systems

[discuss](#)

92. Decision varies as to the _____ structure within each level of management.

- A. degree.
- B. data.
- C. situation.
- D. order.

Answer» A. degree.

[discuss](#)

93. The project team is composed of the system professional are directly responsible for _____ the system

- A. testing
- B. building
- C. deleting
- D. innovating

Answer» B. building

[discuss](#)

94. BPR stands for _____

- A. business process reengineering
- B. business process reconstruction
- C. business program reengineering
- D. business problem report

Answer» A. business process reengineering

[discuss](#)

95. Materials into intermediate and finished products, and distributing the finished products to customers?

- A. production chain
- B. primary chain
- C. supply chain
- D. distribution chain

Answer» C. supply chain

95. Materials into intermediate and finished products, and distributing the finished products to customers?

[discuss](#)

96. Data mining cannot be done if _____

- A. operational data has not been archived
- B. earlier management decisions are not available
- C. the organisation is large
- D. all processing had been only batch processing

Answer» A. operational data has not been archived

[discuss](#)

97. Knowledge based system supports, _____

- A. knowledge of creation.
- B. knowledge of support.
- C. knowledge of dissemination.
- D. all of the above.

Answer» D. all of the above.

[discuss](#)

98. The accounting system is _____ whereas the demand forecasting system is _____.

- A. deterministic, probabilistic
- B. probabilistic, deterministic
- C. open, close
- D. close, open

Answer» A. deterministic, probabilistic

[discuss](#)

99. The Management information System receives input from the:

- A. eis.
- B. es.

99.	The Management information System receives input from the:
C.	dss.
D.	tps
Answer» D. tps	

[discuss](#)

100.	Projections and responses to queries are Information output characteristics associated with:
A.	dss
B.	mis
C.	ess
D.	tps
Answer» C. ess	

101.	During software development which factor is most crucial?
A.	people
B.	process
C.	product
D.	project
Answer» A. people	

[discuss](#)

102.	Upper CASE tools are used
A.	for developing dfd\s
B.	for screen design
C.	during all phases of system analysis and design life cycle
D.	for converting structured english procedures to source code into a language such as c
Answer» A. for developing dfd\s	

[discuss](#)

103. Identifying customers and markets using data on demographics, markets, consumer behaviour, and trends is an example of:

- A. operational-level sales and marketing information system.
- B. knowledge-level sales and marketing information system.
- C. management-level sales and marketing information system.
- D. strategic-level sales and marketing information system

Answer» B. knowledge-level sales and marketing information system.

[discuss](#)

104. _____ focuses on planning, policies, and procedures regarding the use of corporate data and information.

- A. cio
- B. systems analyst
- C. database administrator
- D. system operator

Answer» A. cio

[discuss](#)

105. The extent to which technology permeates an area or department is called _____.

- A. technology diffusion
- B. technology infusion
- C. technology collusion
- D. technology fusion

Answer» A. technology diffusion

[discuss](#)

106. _____ is any business-related exchange such as payments to employees, sales to customers, or payments to suppliers.

- A. data
- B. e-commerce
- C. a transaction
- D. input

106. _____ is any business-related exchange such as payments to employees, sales to customers, or payments to suppliers.

Answer» C. a transaction

[discuss](#)

107. _____ is software programs that were developed for a general market and that can be purchased in a store.

A. proprietary software

B. off-the-shelf software

C. contract software

D. application software

Answer» B. off-the-shelf software

[discuss](#)

108. With the _____ form of data processing, each transaction is processed immediately.

A. oltp

B. batch processing

C. active processing

D. automated transaction processing

Answer» A. oltp

[discuss](#)

109. In any of the system _____ resource is consider as people resources.

A. end user.

B. hardware.

C. data.

D. software.

Answer» A. end user.

[discuss](#)

110. _____ information system that express a fundamental concept and activities of information systems.

A. model.

110. _____ information system that express a fundamental concept and activities of information systems.

B. style.

C. standard.

D. logic.

Answer» A. model.

[discuss](#)

111. In general the information system can also describe in terms of _____.

A. operations.

B. functions.

C. events .

D. tasks.

Answer» B. functions.

[discuss](#)

112. _____ is the people who develop and operate the information systems.

A. is specialists.

B. is analyst.

C. is experts.

D. is data entry.

Answer» A. is specialists.

[discuss](#)

113. _____ is a collection of single-application software packages in a bundle designed to work similarly so that once you learn the basics for one application, the other applications are easy to learn and use.

A. bundled software

B. software suite

C. productivity applications

D. general purpose software

Answer» B. software suite

[discuss](#)

114. Information systems that support the firm in its interaction with its environment are said to be performing within the _____.

- A. workgroup sphere of influence
- B. global sphere of influence
- C. enterprise sphere of influence
- D. individual sphere of influence

Answer» C. enterprise sphere of influence

[discuss](#)

115. The current major stage in the business use of IS is oriented towards _____.

- A. cost reduction and productivity
- B. gaining competitive advantage
- C. strategic advantage and costs
- D. improved customer relationship management

Answer» B. gaining competitive advantage

[discuss](#)

116. _____ is the process of converting a message into a secret code and changing the encoded message back to regular text.

- A. encryption
- B. fraud
- C. encoding
- D. cryptography

Answer» D. cryptography

[discuss](#)

117. Problems that are routine and have well-defined relationships are called _____.

- A. structured problems
- B. programmed decisions
- C. simple problems
- D. heuristics

117. Problems that are routine and have well-defined relationships are called

_____.

Answer» A. structured problems

[discuss](#)

118. The four key questions related to fairness in information use are

_____.

- A. cost, timing, content, and frequency
- B. notice, consent, accuracy, and authorization
- C. knowledge, control, notice, and consent
- D. knowledge, accuracy, timing, and permission

Answer» D. knowledge, accuracy, timing, and permission

[discuss](#)

119. Acquiring, training and retaining good network _____ should be a top priority.

- A. data entry.
- B. lab in charge.
- C. administrator.
- D. system tester.

Answer» C. administrator.

[discuss](#)

120. Primary storage device such as semiconductor memory chips are called

_____.

- A. parallel
- B. sequential
- C. direct access
- D. binary access

Answer» C. direct access

[discuss](#)

121. In network the different communication are interconnected by using a communication processors called a _____.

A. protocols.

B. gateway.

C. multiplexers.

D. router

Answer» B. gateway.

[discuss](#)

122. _____ is single user workstation that provide presenttion services,database services and connectivity

A. server

B. client

C. system

D. cpu

Answer» B. client

[discuss](#)

123. GUI stands for _____

A. graphical user interface

B. graphical user interactive

C. graphical user integration

D. graphical user inference

Answer» A. graphical user interface

[discuss](#)

124. FIFO stands for _____

A. first interactive first out

B. first in first out

C. first invented first out

D. first interface first out.

Answer» B. first in first out

[discuss](#)

125. A _____ is a binary event representing a signal change from positive to negative

- A. bit
- B. band.
- C. bandwidth.
- D. frequency.

Answer» B. band.

126. Data encryption concept is used for _____ purposes.

- A. data hidden
- B. data display
- C. data processing
- D. data transfer

Answer» D. data transfer

[discuss](#)

127. The _____ is monitors the activities of the computer system

- A. processor.
- B. ram.
- C. rom
- D. operating system.

Answer» D. operating system.

[discuss](#)

128. EDI stands for:

- A. electronic data interchange
- B. electrical data interchange
- C. work flow automation software
- D. enhanced data interchange

Answer» A. electronic data interchange

[discuss](#)

129. Accounting, finance, marketing, and human resources are known as

- A. executive information systems
- B. functional business areas
- C. geographic information system
- D. local information system

Answer» B. functional business areas

[discuss](#)

130. Relational calculus is a

- A. procedural language.
- B. non- procedural language.
- C. data definition language.
- D. high level language.

Answer» B. non- procedural language.

[discuss](#)

131. SDLC stands for?

- A. software design life cycle
- B. software development life cycle
- C. system design life cycle
- D. system development life cycle

Answer» D. system development life cycle

[discuss](#)

132. A combination of a MIS and DSS called _____ which helps top managers make decisions.

- A. gis
- B. eis
- C. epi
- D. cam

132. A combination of a MIS and DSS called _____ which helps top managers make decisions.

Answer» B. eis

[discuss](#)

133. The most creative and challenging phase of system life cycle is

- A. feasibility study
- B. maintenance
- C. design
- D. none of the above

Answer» C. design

[discuss](#)

134. The most important feature of spiral model is

- A. requirement analysis
- B. risk management
- C. quality management
- D. configuration management.

Answer» B. risk management

[discuss](#)

135. Which of these items is a major component of today's IT infrastructure?

- A. data management technology
- B. networking
- C. technology services
- D. all of me above

Answer» D. all of me above

[discuss](#)

136. _____ converts ciphertext back into plaintext.

- A. encryption
- B. a firewall

136. _____ converts ciphertext back into plaintext.

C. decryption

D. an encoder

Answer» C. decryption

[discuss](#)

137. A computer security protocol for logging in would be an example of the component of an information system:

A. software

B. hardware

C. data

D. procedure

Answer» D. procedure

[discuss](#)

138. Relational calculus is a

A. Procedural language.

B. None- Procedural language.

C. Data definition language.

D. High level language.

Answer» B. None- Procedural language.

[discuss](#)

139. The view of total database content is

A. Conceptual view

B. Internal view.

C. External view.

D. Physical view.

Answer» A. Conceptual view

[discuss](#)

140. DML is provided for

- A. Description of logical structure of database.
- B. Addition of new structure in the database system.
- C. Manipulation & processing of database.
- D. Definition of physical structure of database system.

Answer» C. Manipulation & processing of database.

[discuss](#)

141. ODBC stands for

- A. Object Database Connectivity.
- B. Oral Database Connectivity
- C. Oracle Database Connectivity.
- D. Open Database Connectivity.

Answer» D. Open Database Connectivity.

[discuss](#)

142. Architecture of the database can be viewed as

- A. Two levels.
- B. Four levels.
- C. Three levels.
- D. One level.

Answer» C. Three levels.

[discuss](#)

143. The database schema is written in

- A. HLL
- B. DML
- C. DDL
- D. DCL

Answer» C. DDL

[discuss](#)

144. In the architecture of a database system external level is the

- A. Physical level.
- B. Logical level.
- C. Conceptual level
- D. View level.

Answer» D. View level.

[discuss](#)

145. In a Hierarchical level model records are organized as

- A. Graph.
- B. List .
- C. Links.
- D. Tree.

Answer» D. Tree.

[discuss](#)

146. The language used in application programs to request data from the DBMS is referred to as the

- A. DML
- B. DDL
- C. VDL
- D. SDL

Answer» A. DML

[discuss](#)

147. The DBMS language component which can be embedded in a program is

- A. The data definition language (DDL)
- B. The data manipulation language(DML)
- C. The database administrator(DBA)
- D. A query language.

147. The DBMS language component which can be embedded in a program is

Answer» B. The data manipulation language(DML)

[discuss](#)

148. Which one of the following statement is false?

- A. The data dictionary is normally maintained by the database administrator.
- B. Data elements in the database can be modified by changing the data dictionary.
- C. The data dictionary contains the name and description of each data element.
- D. The data dictionary is a tool used exclusively by the database administrator.

Answer» B. Data elements in the database can be modified by changing the data dictionary.

[discuss](#)

149. An advantage of the database management approach is

- A. Data is dependent on programs.
- B. Data redundancy increase.
- C. Data is integrated and can be accessed by multiple programs.
- D. None of the above.

Answer» C. Data is integrated and can be accessed by multiple programs.

[discuss](#)

150. A DBMS query language is designed to

- A. Support end users who use English-like commands.
- B. Support in the development of complex applications software.
- C. Specify the structure of a database.
- D. All of the above.

Answer» D. All of the above.

STRATEGIC MANAGEMENT

1. The word “strategy” is derived from the Greek word “-----”

- A. Strategos
- B. Stratum

1.	The word “strategy” is derived from the Greek word “-----”
C.	Strategy
D.	All of these
Answer» A. Strategos	

[discuss](#)

2.	----- can also be defined as “a general direction set for the company and its various components to achieve a desired state in the future.
A.	Goal
B.	Objectives
C.	Mission

- C. Factory overhead Cost
- D. All of the Above

Answer» D. All of the Above

[discuss](#)

63. Which one of the following is a Working Capital Advance?

- A. Cash Credits
- B. Letter of Credit
- C. Purchase / discount bills
- D. All of the Above

Answer» D. All of the Above

[discuss](#)

64. Higher Debt Service Coverage Ratio denotes

- A. Higher Chances of getting a Loan
- B. Lower Chances of getting a Loan
- C. No Requirement of a Loan at all
- D. None of the Above

Answer» A. Higher Chances of getting a Loan

[discuss](#)

65. Term Loan is _____ borrowing.

- A. Unsecured
- B. Secured
- C. Clean
- D. None of the Above

Answer» B. Secured

[discuss](#)

66. If Project is accepted for Term Loan, Bankers issue a _____

- A. Letter of Credit
- B. Letter of Advance
- C. Letter of Sanction
- D. Letter of Acceptance

Answer» C. Letter of Sanction

[discuss](#)

67. Once the loan is disbursed the bank monitors the project by

- A. Regular Reports furnished by the borrower
- B. Periodic site visit
- C. Discussion with Promoters, Suppliers, Creditors etc.
- D. All of the above

Answer» D. All of the above

[discuss](#)

68. Which are the warning signals of industrial unit sickness?

- A. Continuous irregularity in Cash Credit Account
- B. Low Capacity Utilization
- C. Failure to pay statutory liabilities
- D. All of the Above

68. Which are the warning signals of industrial unit sickness?

Answer» D. All of the Above

[discuss](#)

69. Which of the following has no role in a remedy to Industrial Unit Sickness?

- A. Government
- B. Financial Institution
- C. Industry Association
- D. Customers

Answer» D. Customers

[discuss](#)

70. Which is an external cause of Industrial Unit Sickness?

- A. Non availability of skilled personnel
- B. Lack of Finance
- C. Bad Production Policies
- D. Wrong Marketing Policies

Answer» A. Non availability of skilled personnel

[discuss](#)

71. Which is an internal cause of Industrial Unit Sickness?

- A. Ineffective Corporate Management
- B. Inappropriate Personnel Management
- C. Lack of Promoter's Experience
- D. All of the Above

Answer» D. All of the Above

[discuss](#)

83.	For generating a new project idea which of the below is relevant for an entrepreneur?
A.	Analyse economic and social trend
B.	Draw clues from consumption abroad
C.	Study new technological developments
D.	All of the Above
Answer» D. All of the Above	

[discuss](#)

84. Which of the below is not a resource for a project?

- A. Manpower
- B. Capital
- C. Budget
- D. Machinery

Answer» C. Budget

[discuss](#)

85. Which of the factors should be considered for acceptable risk level at preliminary screening level?

- A. Vulnerability to business cycles
- B. Technological Changes
- C. Competition from imports
- D. All of the Above

Answer» D. All of the Above

[discuss](#)

86. To judge adequacy of market during Preliminary Screening which of the following is a factor to be examined?

- A. Total present domestic market
- B. Price
- C. Product features
- D. Quality of the product

Answer» A. Total present domestic market

[discuss](#)

87. Which of the following is not a base for demographic segmentation of the market?

- A. Gender
- B. Age
- C. Attitude
- D. Family structure

87. Which of the following is not a base for demographic segmentation of the market?

Answer» C. Attitude

[discuss](#)

88. Which of the below can cause a difficulty in getting license for a new project?

- A. Lack of consistency with National Priority
- B. Adverse Environmental Effects
- C. Non availability of foreign exchange
- D. All of the Above

Answer» D. All of the Above

[discuss](#)

89. India Year Book is a source of

- A. Primary Data
- B. Secondary Data
- C. Interim Data
- D. Intermediate Data

Answer» B. Secondary Data

[discuss](#)

90. India Year Book is an annual publication of _____

- A. Ministry of Finance
- B. Commerce Ministry
- C. Ministry of Information and Broadcasting
- D. None of the Above

Answer» C. Ministry of Information and Broadcasting

95.	Indian Textile Bulletin is published by_____
A.	Textile Commissioner
B.	Ministry of Textile
C.	Textile Mills Union
D.	None of the Above
Answer» A. Textile Commissioner	

[discuss](#)

96.	Which of the following is not one of the driving forces behind the increasing demand for Project Management?
A.	Compression of Product Life Cycle
B.	Knowledge Explosion
C.	More Emphasis on the Product and Less on the Customer
D.	Corporate Downsizing
Answer» C. More Emphasis on the Product and Less on the Customer	

[discuss](#)

97.	In the initial stage of the project the probability of completing the project is_____
A.	Zero
B.	High
C.	Low
D.	None of the Above
Answer» C. Low	

[discuss](#)

98.	Which one of the following is NOT one of the principle sources which cause uncertainties and error in demand forecasting?
A.	Data about Past and Present Market
B.	Methods of Forecasting
C.	Environmental Changes
D.	Government Policies
Answer» D. Government Policies	

98. Which one of the following is NOT one of the principle sources which cause uncertainties and error in demand forecasting?

[discuss](#)

99. Which of the following are limitations of Demand Forecasting Methods?

- A. Inability to handle unquantifiable factors
- B. Unrealistic Assumptions
- C. Excessive Data Requirement
- D. All of the Above

Answer» D. All of the Above

[discuss](#)

100. The choice of Product Mix is guided by

- A. Market Requirements
- B. Market Inputs
- C. Employee Requirements
- D. None of the Above

Answer» A. Market Requirements

101. Raw material can be classified in which of the below broad categories?

- A. Agricultural Products, Mineral Products, Live Stock & Forest Products, Marine Products
- B. Agricultural Products, Plastic Products, Industrial Products, Forest and Marine Products
- C. Agricultural Products, Mineral Products, Industrial Products, Marine Products
- D. Agricultural Products, Mineral Products, Industrial Products, Live Stock and Forest Products

Answer» A. Agricultural Products, Mineral Products, Live Stock & Forest Products, Marine Products

[discuss](#)

102. Lime Stone is which type of Raw Material?

- A. Agricultural Products

102. Lime Stone is which type of Raw Material?

- B. Mineral Products
- C. Both a and b
- D. None of the Above

Answer» B. Mineral Products

[discuss](#)

103. Which of the following is NOT a mineral type of raw material?

- A. Iron
- B. Bauxite
- C. Castro Seeds
- D. Zinc

Answer» C. Castro Seeds

[discuss](#)

104. Which of the following is auxiliary material and factory supply?

- A. Additives
- B. Packaging Material
- C. Oil and Grease
- D. All of the Above

Answer» D. All of the Above

[discuss](#)

105. Which of the following is a utility?

- A. Water
- B. Land
- C. Building
- D. Machinery

Answer» A. Water

[discuss](#)

106. Which of the following is NOT an equipment required for a project?

- A. Plant Equipment
- B. Mechanical Equipment
- C. Domestic Equipment
- D. Electrical Equipment

Answer» C. Domestic Equipment

[discuss](#)

107. Which of the below is a category of civil work for a project?

- A. Site Preparation and Development
- B. Building and Structures
- C. Outdoor Works
- D. All of the Above

Answer» D. All of the Above

[discuss](#)

108. While calculating cost of imported machinery, which of the below needs to be considered?

- A. FOB Value
- B. Shipping, Freight and Insurance Cost
- C. Import Duty
- D. All of the Above

Answer» D. All of the Above

[discuss](#)

109. Miscellaneous Fixed Assets include

- A. Furniture
- B. Office Machinery and Equipment
- C. Vehicles
- D. All of the Above

109. Miscellaneous Fixed Assets include

Answer» D. All of the Above

[discuss](#)

110. Preliminary Expenses to start a project include

- A. Expense on Preparing the Feasibility Report
- B. Expense on Raw Material
- C. Salaries
- D. None of the Above

Answer» A. Expense on Preparing the Feasibility Report

[discuss](#)

111. The major components of Capital Issue expenses are

- A. Underwriting Commission
- B. Brokerage
- C. None of the Above
- D. a and b

Answer» D. a and b

[discuss](#)

112. Listing Fee is which type of expense?

- A. Recurring Expense
- B. Capital Issue Expense
- C. Miscellaneous Expense
- D. None of the Above

Answer» B. Capital Issue Expense

[discuss](#)

113. Which one of the below is not a preoperative expense?

- A. Establishment Expenses
- B. Rent, Rates and Taxes

113. Which one of the below is not a preoperative expense?

C. Selling Expense

D. Travelling Expense

Answer» C. Selling Expense

[discuss](#)

114. Public Deposits represent _____ borrowings.

A. Secured

B. Unsecured

C. Deferred

D. None of the Above

Answer» B. Unsecured

[discuss](#)

124. Increase in working capital denotes....

- A. Source of Funds
- B. Source of Cash
- C. Application of Funds
- D. None of the Above

124. Increase in working capital denotes....

Answer» C. Application of Funds

[discuss](#)

125. If we want to prepare the funds flow statement we should have...

- A. Balance sheets of two consecutive years
- B. Funds flow statements of two consecutive years
- C. Budget for next financial year
- D. All of the Above

Answer» A. Balance sheets of two consecutive years

126. The liabilities side of the balance sheet shows the sources of finance employed by the business.

- A. True
- B. False
- C. none
- D. none

Answer» A. True

[discuss](#)

127. Cash Flow statement is also known as

- A. Statement of Changes in Financial Position on cash basis
- B. Statement accounting for variation in cash
- C. Both a and b
- D. None of the Above

Answer» C. Both a and b

[discuss](#)

128. The objectives of Cash Flow Statement are

- A. Analysis of cash position
- B. Short term Cash Planning
- C. Evaluation of Liquidity

128. The objectives of Cash Flow Statement are

D. All of the Above

Answer» D. All of the Above

[discuss](#)

129. Features of Term Loan include

A. Currency

B. Security

C. Interest and Principal payment

D. All of the Above

Answer» D. All of the Above

[discuss](#)

130. Usually assets which are financed with the Term Loan provide as a prime security against the Term Loan

A. True

B. False

C. none

D. none

Answer» A. True

[discuss](#)

131. As a part of Term Loan Procedure the detailed appraisal of project covers

A. Marketing Aspects

B. Technical Aspects

C. Financial Aspects

D. All of the Above

Answer» D. All of the Above

[discuss](#)

132. Syndication is an arrangement for

A. Marketing Support

132.	Syndication is an arrangement for
B.	Manpower Supply
C.	Providing Long Term Finance to Projects
D.	None of the Above
Answer» C. Providing Long Term Finance to Projects	

[discuss](#)

133.	Once letter of sanction is issued, the borrower has to submit _____ after appropriate board resolution to avail the loan.
A.	Copy of the Board Meeting Minutes
B.	Letter of Advances
C.	Letter of Acceptance
D.	Letter of Credit
Answer» C. Letter of Acceptance	

[discuss](#)

134.	Current assets are financed by
A.	Term Loan
B.	Debentures
C.	Working Capital Loan
D.	Share Capital
Answer» C. Working Capital Loan	

[discuss](#)

135.	A DSCR < 1 indicates
A.	There is not enough cash flow to cover loan payments
B.	There is enough cash flow to cover loan payments
C.	Company does not need a loan
D.	None of the Above
Answer» A. There is not enough cash flow to cover loan payments	

[discuss](#)

136.	DSCR is a term most important to
A.	Employees
B.	Financers
C.	Customers
D.	None of the Above
Answer» B. Financers	

[discuss](#)

137.	What is the full form of SIDBI
A.	State Industrial Development Bank of India
B.	Small Industrial Development Bank of India
C.	State Insurance Development Board of India
D.	Small Industries Debt Borrowing Institution
Answer» B. Small Industrial Development Bank of India	

[discuss](#)

138.	Which one of the below is not a source of Project Finance?
A.	Debentures
B.	Bonds
C.	ECBs
D.	Overdraft facility
Answer» D. Overdraft facility	

[discuss](#)

139.	Which one of the following was not set up with a motive of industrial finance?
A.	SIDBI
B.	IDBI
C.	IFCI
D.	IFFCO
Answer» D. IFFCO	

[discuss](#)

140. Low capacity utilization is a signal of _____.

- A. Enough raw Material
- B. Industrial Sickness
- C. Inadequate production capacity
- D. None of the Above

Answer» B. Industrial Sickness

[discuss](#)

141. Which of the following is not a signal of industrial sickness?

- A. Promoter being accused of a crime
- B. Continuous irregularities in Cash Credit Account
- C. Failure to pay Statutory Liabilities
- D. Rapid Turnover of Key Personnel

Answer» A. Promoter being accused of a crime

[discuss](#)

142. Marketing Constraint is an internal source of Industrial Sickness.

- A. True
- B. False
- C. none
- D. none

Answer» B. False

[discuss](#)

143. Which one of the following is NOT a Maha-Ratna Industry?

- A. GAIL
- B. Coal India Limited
- C. SAIL
- D. Airports Authority of India

143. Which one of the following is NOT a Maha-Ratna Industry?

Answer» D. Airports Authority of India

[discuss](#)

144. Ineffective corporate management leads to

- A. Improper performance of the unit
- B. Industrial Sickness
- C. Both a and b
- D. None of the Above

Answer» C. Both a and b

[discuss](#)

145. Finance constraints arises because of

- A. Credit Restrain Policy
- B. Delay in Disbursement of Loan by Government
- C. Unfavourable Investment
- D. All of the Above

Answer» D. All of the Above

[discuss](#)

146. Production constraints arise because of

- A. Shortage of Raw Material
- B. Shortage of Power
- C. High Prices of Fuel
- D. All of the Above

Answer» D. All of the Above

[discuss](#)

147. Which one of the following can be a weakness in capital budgeting?

- A. Poor Alignment between Strategy and Capital Budgeting
- B. Deficiencies in Analytical Techniques

147.	Which one of the following can be a weakness in capital budgeting?
C.	Both a and b
D.	None of the Above
Answer» C. Both a and b	

[discuss](#)

148.	The major deficiencies characterizing the labour markets in developing countries like India are
A.	Shortage of well trained people
B.	Rigid labour laws
C.	Both a and b
D.	None of the Above
Answer» C. Both a and b	

[discuss](#)

149.	Which of the following has marginal exposure to Term Lending?
A.	Insurance Companies (LIC & GIC)
B.	Power Finance Corporation
C.	IDFC
D.	All of the Above
Answer» D. All of the Above	

[discuss](#)

150.	Debt restructuring and infusion of external funds for sick units is one of the remedial measures to overcome Industrial Sickness.
A.	True
B.	False
C.	none
D.	none
Answer» A. True	

BUSINESS RESEARCH METHODS

1.	Research is onlyenquiry into the system of knowledge to disapprove or approve or to arrive at new conclusions for the betterment of the existing system.
A.	Systematic
B.	computerized
C.	general
D.	none of these
Answer» A. Systematic	

[discuss](#)

2.	Business research means the discovery of new knowledge in the field of
A.	Management
B.	administration
C.	business
D.	none of these
Answer» C. business	

[discuss](#)

3.	Inresearch, the researchers try to find out answers for unsolved questions related with business problems.
A.	Management
B.	administration
C.	business
D.	none of these
Answer» C. business	

[discuss](#)

4.	Aanalysis determines the cost of each production item used to produce goods and services.
A.	Marketing
B.	financial
C.	technical
D.	investment

4. **Aanalysis determines the cost of each production item used to produce goods and services.**

Answer» B. financial

[discuss](#)

5. **.....is a set of logically interrelated statements in the form of empirical assertions about properties of infinite class of events or things.**

A. Abstract

B. theory

C. conclusion

D. none of these

Answer» B. theory

[discuss](#)

6. **A theory explains and predict about a**

A. Phenomenon

B. principles

C. conclusion

D. none of these

Answer» A. Phenomenon

[discuss](#)

7. **.....theory represents the common view of the nature of the relationship between theory and research.**

A. Induction

B. deduction

C. rational

D. none of these

Answer» B. deduction

[discuss](#)

8. **..... is regarded as reasoning from the general to particular**

A. Induction

8.	 is regarded as reasoning from the general to particular
B.	deduction
C.	rational
D.	none of these
Answer» B. deduction	

[discuss](#)

9.	Ais an abstraction formed by generalizations from particulars
A.	Constructs
B.	concept
C.	induction
D.	deduction
Answer» B. concept	

[discuss](#)

10.	Ais a statement about observable phenomena that may be judged as true or false.
A.	construct
B.	concept
C.	proposition
D.	hypothesis
Answer» C. proposition	

[discuss](#)

11.	A hypothesis is a about the predicted relationships among events or variables
A.	Statement
B.	conclusion
C.	prediction
D.	none of these
Answer» A. Statement	

[discuss](#)

12.	research deals with practical problems.
A.	Basic
B.	exploratory
C.	applied
D.	experimental
Answer» C. applied	

[discuss](#)

13.	research is mainly concerned with generalizations and with the formulation of a theory.
A.	Basic
B.	exploratory
C.	applied
D.	experimental
Answer» A. Basic	

[discuss](#)

14.	research is a preliminary study of a new problem about which the researcher has little or no knowledge.
A.	Basic
B.	exploratory
C.	applied
D.	experimental
Answer» B. exploratory	

[discuss](#)

15.	Theresearch leads to discovery of new theories and development of existing theories.
A.	Pure
B.	exploratory
C.	applied
D.	experimental
Answer» A. Pure	

15.	Theresearch leads to discovery of new theories and development of existing theories.

[discuss](#)

16.	research is a fact finding investigation.
A.	Formulative
B.	causal
C.	descriptive
D.	none of these

Answer» C. descriptive

[discuss](#)

17.	research seeks to explain what is happening in a particular situation.
A.	Formulative
B.	causal
C.	descriptive
D.	none of these

Answer» B. causal

[discuss](#)

18.	research is a management tool that can be used for creating business strategies, managing production and managing growth.
A.	Social
B.	business
C.	educational
D.	none of these

Answer» B. business

[discuss](#)

19.	A set of logically interrelated statements in the form of empirical assertions about properties of infinite class of events or things is known as.....
A.	Theory

19.	A set of logically interrelated statements in the form of empirical assertions about properties of infinite class of events or things is known as.....
B.	concept
C.	construct
D.	hypothesis
Answer» A. Theory	

[discuss](#)

20.	building broadly consists of observation, induction and deduction.
A.	Theory
B.	concept
C.	construct
D.	hypothesis
Answer» A. Theory	

[discuss](#)

21.	follows an approach which is from “general to specific”.
A.	Retroduction
B.	induction
C.	deduction
D.	none of these
Answer» C. deduction	

[discuss](#)

22.	Themethod consists of studying several individual cases and drawing generalization.
A.	Retroduction
B.	induction
C.	deduction
D.	none of these
Answer» B. induction	

[discuss](#)

23.follows an approach which is “top-down”.

- A. Retroduction
- B. induction
- C. deduction
- D. none of these

Answer» C. deduction

[discuss](#)

24. Ais an abstraction formed by generalizations from particulars.

- A. Theory
- B. concept
- C. construct
- D. hypothesis

Answer» B. concept

[discuss](#)

25. A is a concept that is not directly observable.

- A. Theory
- B. concept
- C. construct
- D. hypothesis

Answer» C. construct

26. Anis a procedure agreed upon for translation of a concept into measurement of some kind.

- A. Operational definition
- B. concept
- C. proposition
- D. hypothesis

Answer» A. Operational definition

[discuss](#)

27. Ais a statement about observable phenomena that may be judged as true or false.

- A. Operational definition
- B. concept
- C. proposition
- D. hypothesis

Answer» C. proposition

[discuss](#)

28.research is also known as basic research because it is related with a particular project and problem.

- A. Pure
- B. exploratory
- C. applied
- D. action

Answer» D. action

[discuss](#)

29. Theresearch leads to discovery of new theories and development of existing theories.

- A. Pure
- B. exploratory
- C. applied
- D. experimental

Answer» A. Pure

[discuss](#)

30.research is a preliminary study of a new problem about which the researcher has little or no knowledge.

- A. Pure
- B. exploratory
- C. applied
- D. experimental

30.research is a preliminary study of a new problem about which the researcher has little or no knowledge.

Answer» B. exploratory

[discuss](#)

31. The major use ofresearch is explanation of the state of affairs, as it exists at present.

A. Formulative

B. causal

C. descriptive

D. none of these

Answer» C. descriptive

[discuss](#)

32. The objective ofresearch is to test hypotheses about cause and effect relationships.

A. Formulative

B. causal

C. descriptive

D. none of these

Answer» B. causal

[discuss](#)

33. Thestudy is always adopted where only little knowledge or information about a problem is available.

A. Situational

B. causal

C. descriptive

D. exploratory

Answer» D. exploratory

[discuss](#)

34. Exploratory research is astudy of an unfamiliar problem.

A. Final

34.	Exploratory research is astudy of an unfamiliar problem.
B.	preliminary
C.	causal
D.	none of these
Answer» B. preliminary	

[discuss](#)

35.	is a method or technique or an approach of exploring or analyzing the life of a social unit.
A.	Preliminary study
B.	secondary study
C.	case study
D.	pilot
Answer» C. case study	

[discuss](#)

36.	Astudy is a small scale preliminary study conducted before the main research, in order to check the feasibility or to improve the design of the research.
A.	Preliminary
B.	secondary
C.	case
D.	pilot
Answer» D. pilot	

[discuss](#)

37.	Aanalysis is a preliminary investigation or informal gathering of background information.
A.	Situational
B.	causal
C.	descriptive
D.	exploratory

37. Aanalysis is a preliminary investigation or informal gathering of background information.

Answer» A. Situational

[discuss](#)

38.research is mainly concerned with discovery and with generating or building theory.

A. Situational

B. causal

C. descriptive

D. exploratory

Answer» D. exploratory

[discuss](#)

39.research helps determine the best research design, data collection method and selection of subjects.

A. Situational

B. causal

C. descriptive

D. exploratory

Answer» D. exploratory

[discuss](#)

40. Secondary data analysis is another form ofresearch.

A. Situational

B. causal

C. descriptive

D. exploratory

Answer» D. exploratory

[discuss](#)

41.is a preliminary study conducted on a limited scale before the original studies are carried out in order to gain some primary information.

A. case study

B. pilot study

41.is a preliminary study conducted on a limited scale before the original studies are carried out in order to gain some primary information.

C. descriptive study

D. diagnostic study

Answer» B. pilot study

[discuss](#)

42. Correctly defining the problem is the essentialstep in the business research process.

A. First

B. second

C. third

D. last

Answer» A. First

[discuss](#)

43.is a tentative explanation for an observation, phenomenon, or scientific problem that can be tested by further investigation.

A. Theory

B. concept

C. construct

D. hypothesis

Answer» D. hypothesis

[discuss](#)

44. Plan of study of a researcher is called the..... .

A. Research design

B. research method

C. research procedure

D. research problem.

Answer» A. Research design

[discuss](#)

45. If one variable depends upon another variable is termed as variable.

- A. Independent
- B. dependent
- C. extraneous
- D. none of these.

Answer» B. dependent

[discuss](#)

46. Research seeks to find cause and affect relationships between variables.

- A. Descriptive
- B. explorative
- C. causal
- D. none of these.

Answer» C. causal

[discuss](#)

47. Are the variables that may have some affects upon a dependent variable but yet are not independent Variables.

- A. Dependent variables
- B. independent variables
- C. Extraneous variables
- D. none of these.

Answer» C. Extraneous variables

[discuss](#)

48. The survey is a non- experimental, Research method.

- A. Descriptive
- B. non descriptive
- C. causal
- D. none of these.

Answer» A. Descriptive

48. The survey is a non- experimental, Research method.

[discuss](#)

49. Surveys gather data over a period of time.

- A. Cross- sectional
- B. longitudinal
- C. sample
- D. none of these.

Answer» B. longitudinal

[discuss](#)

50. often is used to measure causality.

- A. Experiment
- B. survey
- C. research design
- D. none of these.

Answer» A. Experiment

51. Data can be obtained by communication or by observation.

- A. Secondary
- B. primary
- C. sample
- D. none of these.

Answer» B. primary

[discuss](#)

52. A Design is a definite plan for obtaining a sample from a given population.

- A. Research
- B. sample
- C. popular

52. A Design is a definite plan for obtaining a sample from a given population.

D. none of these.

Answer» B. sample

[discuss](#)

53. Probability sampling is also known as Sampling.

A. Chance

B. non random

C. restricted

D. none of these.

Answer» A. Chance

[discuss](#)

54. Under Sampling method the population or universe is divided into number of clusters or large groups.

A. Restricted

B. random route

C. cluster

D. none of these.

Answer» C. cluster

[discuss](#)

55. Researchis the blue print for the study.

A. variable

B. problem

C. design

D. none of these.

Answer» C. design

[discuss](#)

56. If the independent variable is not manipulated, is calledhypothesis testing research.

A. Non-experimental

56. If the independent variable is not manipulated, is calledhypothesis testing research.

- B. experimental
- C. working
- D. none of these.

Answer» A. Non-experimental

[discuss](#)

57.studies does deal with testing of proposition or hypothesis.

- A. Descriptive
- B. analytical
- C. Causal
- D. none of these.

Answer» A. Descriptive

[discuss](#)

58.research seeks to find cause and affect relationships between variables.

- A. Causal
- B. Descriptive
- C. analytical
- D. none of these.

Answer» A. Causal

[discuss](#)

59. The survey is a..... descriptive research method.

- A. experimental
- B. non- experimental
- C. both (a) & (b)
- D. none of these.

Answer» B. non- experimental

[discuss](#)

60. surveys are used to gather information on a population at a single point in time.

- A. cross-sectional
- B. historical
- C. Longitudinal
- D. none of these.

Answer» A. cross-sectional

[discuss](#)

61. Themethod involves a complete enumeration of all units of the population or universe.

- A. census
- B. sample
- C. both (a) & (b)
- D. none of these.

Answer» A. census

[discuss](#)

62.variables are undesirable because they add error to an experiment.

- A. dependent
- B. Extraneous
- C. independent
- D. none of these.

Answer» B. Extraneous

[discuss](#)

63.error is known as non- cumulative error.

- A. Unbiased
- B. biased
- C. technical
- D. none of these.

63.error is known as non- cumulative error.

Answer» A. Unbiased

[discuss](#)

64. is the generation of continuum upon which measured objects are located.

A. Ranking

B. measurement

C. scaling

D. rating

Answer» C. scaling

[discuss](#)

65. When a scale is used for the purpose of the identification, there is strict one to one correspondence between the numbers and the objects.

A. Nominal

B. ordinal

C. interval

D. ratio

Answer» A. Nominal

[discuss](#)

66. Which of the statistics is not permissible with nominally scaled data?

A. Chi square

B. median

C. range

D. both (b) and (c) are not permissible.

Answer» D. both (b) and (c) are not permissible.

[discuss](#)

67. In business research, attitudinal data obtained from rating scales are often treated as Data.

- A. Nominal
- B. ordinal
- C. interval
- D. ratio

Answer» C. interval

[discuss](#)

68. Which of the following scale is not a type of comparative scale?

- A. Semantic differential
- B. constant sum
- C. likert
- D. both (a) and(c).

Answer» D. both (a) and(c).

[discuss](#)

69. The term is used to indicate measuring of something.

- A. Scaling
- B. ratio
- C. rating
- D. none of these.

Answer» A. Scaling

[discuss](#)

70. The Scale places events in order.

- A. Nominal
- B. ordinal
- C. interval
- D. ratio.

Answer» B. ordinal

[discuss](#)

71. Scale is used to draw out a yes or no answer.

- A. Lickert
- B. rating
- C. dichotomous
- D. category.

Answer» C. dichotomous

[discuss](#)

72. This type of scale makes extensive use of words rather than numbers.

- A. Sematic
- B. likert
- C. rating
- D. numerical.

Answer» A. Sematic

[discuss](#)

73. A questionnaire is a devise that is most frequently used in collecting Data.

- A. Secondary
- B. primary
- C. both
- D. none of these.

Answer» B. primary

[discuss](#)

74. These questions are also called fixed alternative questions.

- A. Open ended
- B. closed
- C. both
- D. open response-option questions.

74. These questions are also called fixed alternative questions.

Answer» B. closed

[discuss](#)

75. Questionnaires contain definite, concrete and direct questions.

A. Unstructured

B. structured

C. closed form

D. none of these.

Answer» B. structured

76. Data processing consists of, coding and tabulation.

A. Editing

B. entry

C. classification

D. none of these.

Answer» A. Editing

[discuss](#)

77. helps to become the data accurate, consistent with the intent of the question and other information in the survey, and to see the data is complete in all respects.

A. Coding

B. tabulation

C. editing

D. classification.

Answer» C. editing

[discuss](#)

78. Is the process of assigning figures or other symbols to answers so that responses can be put into a limited number of categories or classes.

A. Editing

B. coding

78. Is the process of assigning figures or other symbols to answers so that responses can be put into a limited number of categories or classes.

C. tabulation

D. classification.

Answer» B. coding

[discuss](#)

79. Data classified on the basis of some attributes are known as.....classification.

A. Qualitative

B. Quantitative

C. Geographical

D. chronological

Answer» A. Qualitative

[discuss](#)

80. Is the process of summarizing raw data and displaying it in a compact form for further analysis.

A. Classification

B. coding

C. tabulation

D. editing.

Answer» C. tabulation

[discuss](#)

81. In statistics, a is a graphical display of tabulated frequencies.

A. Histogram

B. bar diagram

C. histogram

D. none of these.

Answer» C. histogram

[discuss](#)

82.	If the study is related one variable it is called..... analysis.
A.	Bivaralite
B.	correlation
C.	casual analysis
D.	unidimensional
Answer» D. unidimensional	

[discuss](#)

83.	 is the middle value in the distribution when it is arranged in descending or ascending order.
A.	Mode
B.	mean
C.	median
D.	range.
Answer» C. median	

[discuss](#)

84.	 is the most common measure of central tendency.
A.	Mode
B.	median
C.	mean
D.	range
Answer» C. mean	

[discuss](#)

85.	When the study is related with more than two variables it is termed as Analysis.
A.	Bivaraite
B.	multivariate
C.	casual analysis
D.	unidimensional.
Answer» B. multivariate	

[discuss](#)

86. Report is a report prepared for a layman.

- A. Technical
- B. popular
- C. general
- D. specific.

Answer» B. popular

[discuss](#)

87. A Is a list of the sources used by the researcher to get information for research report.

- A. Bibliography.
- B. Content
- C. appendix
- D. none of these.

Answer» A. Bibliography.

[discuss](#)

88. There are primary scales of measurement.

- A. One
- B. two
- C. three
- D. four

Answer» D. four

[discuss](#)

89. is a systematic way of assigning numbers or names to objects and their attributes.

- A. Measurement
- B. classification
- C. scaling
- D. tabulation.

89. is a systematic way of assigning numbers or names to objects and their attributes.

Answer» A. Measurement

[discuss](#)

90. The Scale is known as nominal scale.

A. Interval

B. ordinal

C. ranking

D. ratio.

Answer» C. ranking

[discuss](#)

91. Scales is also known as the cardinal level of measurement.

A. Interval

B. ordinal

C. ratio

D. ranking

Answer» A. Interval

[discuss](#)

92. Nominal variables allow for classification.

A. Quantitative

B. qualitative

C. both (a) & (b)

D. none of these.

Answer» B. qualitative

[discuss](#)

93. A is a device that is most frequently used in collecting primary data.

A. Schedule

B. questionnaire

93. A is a device that is most frequently used in collecting primary data.

C. both (a) & (b)

D. none of these.

Answer» C. both (a) & (b)

[discuss](#)

94. ended questions are called free answer questions.

A. Closed

B. open

C. multiple choice question

D. none of these.

Answer» B. open

[discuss](#)

95. Arefers to one which provides several set of alternatives for its answers.

A. Closed

B. open

C. multiple choice question

D. none of these.

Answer» C. multiple choice question

[discuss](#)

96. A Is a set of questions which are asked and filled in by the interviewer in a face to face situation with another person.

A. Schedule

B. questionnaire

C. check-list

D. none of these.

Answer» A. Schedule

[discuss](#)

97.	Mail survey is the other method of collecting data.
A.	Secondary
B.	primary
C.	both
D.	none of these.
Answer» B. primary	

[discuss](#)

98.	 Is the process of assigning figures or other symbols to answers so that responses can be put into a limited number of categories or classes.
A.	Coding
B.	editing
C.	tabulation
D.	none of these.
Answer» A. Coding	

[discuss](#)

99.	 Is the process of summarizing raw data and displaying it in a compact form for further analysis.
A.	Classification.
B.	Editing
C.	coding
D.	tabulation.
Answer» D. tabulation.	

[discuss](#)

100.	 Are specialized types of database.
A.	Spreadsheets.
B.	Microsoft word
C.	Microsoft office
D.	none of these.
Answer» A. Spreadsheets.	

100.	 Are specialized types of database.
101.	 Measurement has the characteristics of rank order and equal intervals.
A.	Ordinal
B.	ratio
C.	ranking
D.	interval
Answer» D. interval	

[discuss](#)

102.	 measurement is the highest level of measurement and is used for quantitative data.
A.	Interval
B.	ranking
C.	ratio
D.	ordinal
Answer» C. ratio	

[discuss](#)

103.	A is a circular chart divided into sectors, illustrating relative magnitudes or frequencies.
A.	pie chart
B.	bar
C.	pictogram
D.	none of these.
Answer» A. pie chart	

[discuss](#)

104.	The is a line chart.
A.	Lorenz curve
B.	pie chart
C.	bar
D.	pictogram.

104. The is a line chart.

Answer» A. Lorenz curve

[discuss](#)

105. Analysis is a mathematical tool which is used to describe the degree to which one variable is linearly related to each other.

- A. Regression
- B. correlation
- C. variance
- D. none of these.

Answer» B. correlation

[discuss](#)

106. Measures of the dispersion are aof the entire group or data.

- A. Typical value
- B. central value
- C. positional average
- D. none of these.

Answer» B. central value

[discuss](#)

107. Mode is theand it is not affected by the values of extreme items.

- A. Positional average
- B. typical value
- C. central values
- D. none of these.

Answer» A. Positional average

[discuss](#)

108.report is a report prepared for specialists who are interested in understanding the technical aspects of research methodology and research findings.

- A. general
- B. popular
- C. technical
- D. specific

Answer» C. technical

[discuss](#)

109. Thephase in a research report is ordering the parts and planning in writing.

- A. first
- B. second
- C. third
- D. last

Answer» A. first

[discuss](#)

110. The most important part of the research is

- A. Analysis
- B. findings
- C. suggestions
- D. conclusion

Answer» B. findings

[discuss](#)

111. Research is aendeavor to discover answers to questions.

- A. Systematic
- B. Collective
- C. General
- D. None of these

111. Research is aendeavor to discover answers to questions.

Answer» A. Systematic

[discuss](#)

112. Business research is research undertaken in the field of

- A. Management
- B. Administration
- C. Business
- D. Natural science

Answer» C. Business

[discuss](#)

113. Quantitative research is based

- A. Variables
- B. Attributes
- C. Information
- D. None of These

Answer» A. Variables

[discuss](#)

114. Theory is an explanation of observed

- A. Features
- B. Regularity
- C. Events
- D. Principles

Answer» B. Regularity

[discuss](#)

115. A theory explains and predicts about a

- A. Phenomenon
- B. Principles

115. A theory explains and predicts about a

C. Formula

D. None of These

Answer» A. Phenomenon

[discuss](#)

116. Induction is reasoning from To general

A. Particular

B. Collection

C. Group

D. Some

Answer» A. Particular

[discuss](#)

117. A deductive reasoning works from general to particular, it is called.....

A. Bottom-Up Approach

B. Top - Down Approach

C. Balanced Approach

D. Linear Approach

Answer» B. Top - Down Approach

[discuss](#)

118. Empirical studies are studies based on

A. Imagination

B. Insights

C. Experience

D. Events

Answer» C. Experience

[discuss](#)

119. Concepts are the of theory building.

- A. Information
- B. Ideas
- C. Equations
- D. Basic Units

Answer» D. Basic Units

[discuss](#)

120. The act of providing a measure of a concept is referred to as.....

- A. Hypothesis
- B. Construct
- C. Proposition
- D. Operational Definition

Answer» D. Operational Definition

[discuss](#)

121. HDI is a

- A. Construct
- B. Concept
- C. Hypothesis
- D. Proposition

Answer» A. Construct

[discuss](#)

122. The specific value of a variable is called

- A. Data
- B. Attribute
- C. Information
- D. Unit

Answer» B. Attribute

[discuss](#)

123. Independent variable is deemed to have aon the dependent variable.

- A. Direct Influence
- B. Indirect Influence
- C. Marginal Influence
- D. Casual Influence

Answer» D. Casual Influence

[discuss](#)

124. An intervening variable tells..... there is a relationship between two variables.

- A. How
- B. When
- C. What
- D. Why

Answer» D. Why

[discuss](#)

125. When a proposition is formulated for empirical testing, it is called

- A. Estimate
- B. Theory
- C. Principle
- D. Hypothesis

Answer» D. Hypothesis

126. Study is undertaken where the information known on a particular subject matter is little.

- A. Exploratory
- B. Descriptive
- C. Casual
- D. Action

Answer» A. Exploratory

[discuss](#)

127. Research does not follow any formalized pattern

- A. Exploratory
- B. Descriptive
- C. Casual
- D. Experimental

Answer» A. Exploratory

[discuss](#)

128. Case study is a method of exploring or analyzing the life of a

- A. Social Unit
- B. Statistical unit
- C. Several Units
- D. None of These

Answer» A. Social Unit

[discuss](#)

129. A study is a small scale replica of the main study

- A. Pilot
- B. Descriptive
- C. Casual
- D. Focus

Answer» A. Pilot

[discuss](#)

130. The person who runs the focus group session is called

- A. Umpire
- B. Coach
- C. Referee
- D. Moderator

130. The person who runs the focus group session is called

Answer» D. Moderator

[discuss](#)

131. Variables that contain data have only two categories are called.....

A. Interval

B. ordinal

C. nominal

D. dichotomous

Answer» D. dichotomous

[discuss](#)

132. Research design provides a for the collection and analysis of data

A. Evidence

B. conclusion

C. frame work

D. guess

Answer» C. frame work

[discuss](#)

133. The Of data are divided in to primary and secondary

A. Destination

B. details

C. proof

D. source

Answer» D. source

[discuss](#)

134. Studies are designed primarily to describe what is going on or what exists

A. Descriptive

B. casual

134.	 Studies are designed primarily to describe what is going on or what exists
C.	exploratory
D.	analytical
Answer» A. Descriptive	

[discuss](#)

135.	Survey is an important of research.
A.	Manipulation
B.	method
C.	result
D.	event
Answer» B. method	

[discuss](#)

136.	A field study is always conducted in a setting.
A.	Natural
B.	artificial
C.	controlled
D.	uncontrolled
Answer» A. Natural	

[discuss](#)

137.	In Surveys, researchers are interested in variation.
A.	ad hoc
B.	permanent
C.	longitudinal
D.	cross- sectional
Answer» D. cross- sectional	

[discuss](#)

138.	A complete survey of the population is called
A.	Census
B.	sample
C.	panel
D.	trend
Answer» A. Census	

[discuss](#)

139.	The oldest method of data collection is through.....
A.	Interview
B.	group discussion
C.	questionnaire
D.	observation
Answer» D. observation	

[discuss](#)

140.	In experiment the group get the program.
A.	control
B.	focus
C.	program
D.	expert
Answer» C. program	

[discuss](#)

141.	Measurement validity is also called Validity
A.	Internal
B.	ecological
C.	external
D.	construct
Answer» D. construct	

[discuss](#)

142. The Solomon Four- Group Design hasgroups.

- A. One
- B. two
- C. three
- D. four

Answer» D. four

[discuss](#)

143. Random assignment is not adhered to inexperimental design.

- A. Quasi
- B. classical
- C. modern
- D. factorial

Answer» A. Quasi

[discuss](#)

144. Typically data is called quantitative if it is in Form

- A. Verbal
- B. numerical
- C. photographs
- D. none of these

Answer» B. numerical

[discuss](#)

145. The first step in statistical activity is the

- A. Publication of report
- B. processing of data
- C. analysis of data
- D. collection of data

145. The first step in statistical activity is the

Answer» D. collection of data

[discuss](#)

146. In observation, the researcher acts both as an observer and a participant

A. Structured

B. controlled

C. simple

D. non- participant

Answer» C. simple

[discuss](#)

147. Data accuracy is in observation than in survey.

A. Lower

B. higher

C. far below

D. none of these

Answer» B. higher

[discuss](#)

148. Where it is not possible to collect data directly from the informants..... method is followed

A. Direct personal interview

B. indirect personal interview

C. structured interview

D. un structured interview

Answer» B. indirect personal interview

[discuss](#)

149. When questionnaire is posted to informants, it is called

A. Simple questionnaire

B. open- ended questionnaire

149.	When questionnaire is posted to informants, it is called
C.	mailed questionnaire
D.	anonymous questionnaire
Answer» C. mailed questionnaire	

[discuss](#)

150.	 techniques are designed to tap the deeper state of personality of the informant in terms of unconscious motivation.
A.	Focus group
B.	depth interview
C.	schedule
D.	projective
Answer» D. projective	

151.	The ‘Annual Survey of Industries’ is a document published by
A.	CSO
B.	ICAR
C.	FICCI
D.	NCEAR
Answer» A. CSO	

[discuss](#)

152.	Data found from CDs and online journals are called
A.	Primary data
B.	electronic data
C.	govt data
D.	international data
Answer» B. electronic data	

[discuss](#)

153.	Sample means apart of an entire population.
A.	Small

153.	Sample means apart of an entire population.
B.	large
C.	sizable
D.	representative
Answer» D. representative	

[discuss](#)

154.	Sampling is the process of selecting units from a of interest
A.	Population
B.	phenomenon
C.	place
D.	space
Answer» A. Population	

[discuss](#)

155.	The listing of the accessible population from which the sample is drawn is called the.....
A.	Sample design
B.	sample block
C.	sample frame
D.	sampling premises
Answer» C. sample frame	

[discuss](#)

156.	refers to the number of units to be chosen from the population
A.	Sampling plan
B.	sampling method
C.	sampling frame
D.	sample size
Answer» D. sample size	

[discuss](#)

157.	Random sampling is also called sampling.
A.	Probability
B.	non probability
C.	accidental
D.	snow ball
Answer» A. Probability	

[discuss](#)

158.	 is an example of random number table.
A.	Tippet's table
B.	logarithm table
C.	Chi- square table
D.	none of these
Answer» A. Tippet's table	

[discuss](#)

159.	If the population is , stratified sampling method is used.
A.	Systematic
B.	homogeneous
C.	heterogeneous
D.	scattered
Answer» C. heterogeneous	

[discuss](#)

160.	Combining different methods of sampling is called..... sampling
A.	Simple random
B.	systematic
C.	multi- stage
D.	area
Answer» C. multi- stage	

[discuss](#)

161. Samples are best suited for exploratory research.

- A. Systematic
- B. convenience
- C. judgment
- D. random

Answer» B. convenience

[discuss](#)

162. If there is no accessible sampling frame,..... sampling is used

- A. Systematic
- B. snow ball
- C. judgment
- D. random

Answer» B. snow ball

[discuss](#)

163. Undersampling method, the samples are selected non-randomly according to some fixed quota.

- A. Systematic
- B. snow ball
- C. judgment
- D. quota

Answer» D. quota

[discuss](#)

164. The greater the sample size, the smaller the

- A. standard error
- B. mean
- C. median
- D. mode

164. The greater the sample size, the smaller the

Answer» A. standard error

[discuss](#)

165. Respondent errors and administrative errors are examples of

A. Sampling error

B. standard error

C. non- sampling error

D. standard deviation

Answer» C. non- sampling error

[discuss](#)

166. Is the process of observing and recording the observations that are collected as part of research?

A. Survey

B. interview

C. scaling

D. measurement

Answer» D. measurement

[discuss](#)

167. The assignment of objects to numbers or semantics according to a rule is called

A. Statistical analysis

B. interpretation

C. scaling

D. labelling

Answer» C. scaling

[discuss](#)

168. Social status of the respondent is measured on the basis of scale

A. Nominal

B. ordinal

168.	Social status of the respondent is measured on the basis of scale
C.	interval
D.	ratio
Answer» A. Nominal	

[discuss](#)

169.	The ranks obtained by students will be measured on the basis of ... scale
A.	Nominal
B.	ordinal
C.	interval
D.	ratio
Answer» B. ordinal	

[discuss](#)

170.	The Fahrenheit scale of measuring temperature is a scale.
A.	Nominal
B.	ordinal
C.	interval
D.	ratio
Answer» C. interval	

[discuss](#)

171.	In Scale, there is an absolute zero point.
A.	Nominal
B.	ordinal
C.	interval
D.	ratio
Answer» D. ratio	

[discuss](#)

172.	 scale is the highest level of measurement scales.
A.	Nominal
B.	ordinal
C.	interval
D.	ratio
Answer» D. ratio	

[discuss](#)

173.	 means judging the scalability of the phenomenon under study.
A.	Continuum
B.	range
C.	standard deviation
D.	variance
Answer» A. Continuum	

[discuss](#)

174.	Stability of a measure is tested throughmethod
A.	Observation
B.	interview
C.	test- retest
D.	schedule
Answer» C. test- retest	

[discuss](#)

175.	The Validity refers to the degree to which the actual program reflects the ideal.
A.	Construct
B.	face
C.	concurrent
D.	external
Answer» A. Construct	

175. The Validity refers to the degree to which the actual program reflects the ideal.

176. scale is also called summated rating scale.

A. Likert

B. semantic differential

C. nominal

D. ordinal

Answer» A. Likert

[discuss](#)

177. a researcher uses paired comparison scaling techniques to measure consumer preference between 7 brands of toilet soaps . He will present.....pairs of brands to the respondents.

A. 14

B. 21

C. 35

D. 18

Answer» B. 21

[discuss](#)

178. Which of the following is a non comparative scale?

A. Paired comparison

B. rank order

C. constant sum

D. continuous rating scale

Answer» D. continuous rating scale

[discuss](#)

179.is the generation of a continuum upon which measure objects are located

A. Ranking

B. measurement

C. scaling

179.is the generation of a continuum upon which measure objects are located

D. rating

Answer» C. scaling

[discuss](#)

180. Which of the following is not a comparative scale?

A. Semantic differential

B. constant sum

C. Likert

D. both (a) and (c).

Answer» D. both (a) and (c).

[discuss](#)

181. A.....scale is used to draw out a yes or no answer.

A. likert

B. rating

C. dichotomous

D. category

Answer» C. dichotomous

[discuss](#)

182. scale is verbal.

A. Numerical

B. Likert

C. semantic

D. rating

Answer» C. semantic

[discuss](#)

183. Likert's scale is an example of Scale

A. Comparative

183. Likert's scale is an example of Scale

- B. non comparative
- C. verbal
- D. numeric

Answer» B. non comparative

[discuss](#)

184. Is an intermediary stage between the collection of data and their analysis and interpretation?

- A. Processing
- B. analyzing
- C. reporting
- D. designing

Answer» A. Processing

[discuss](#)

185. Editing is the Stage in data processing

- A. Fourth
- B. third
- C. second
- D. first

Answer» D. first

[discuss](#)

186. Is the process by which response categories are summarized by numerals or other symbols?

- A. Editing
- B. coding
- C. classifying
- D. tabulating

Answer» B. coding

[discuss](#)

187. Classification is the process of reducing large mass of data in to group for meaningful analysis.

- A. Various
- B. heterogeneous
- C. homogeneous
- D. different

Answer» C. homogeneous

[discuss](#)

188. Classification on periodical basis is also calledclassification.

- A. Geographical
- B. chronological
- C. simple
- D. manifold

Answer» B. chronological

[discuss](#)

189. If variable can take only exact values, it is calledvariables.

- A. Dependent
- B. independent
- C. continuous
- D. discrete

Answer» D. discrete

[discuss](#)

190. When raw data is arranged in conveniently organized groups, it is called adistribution.

- A. Normal
- B. binomial
- C. poison
- D. frequency

Answer» D. frequency

[discuss](#)

191. is the process of recording the classified facts in rows and columns.

- A. Editing
- B. coding
- C. classification
- D. tabulation

Answer» D. tabulation

[discuss](#)

192. a table may contain data pertaining to more than one characteristic.

- A. Simple
- B. complex
- C. frequency
- D. normal

Answer» B. complex

[discuss](#)

193. If the variables are measured on nominal and ordinal scales, the tools of analysis are calledstatistics.

- A. Parametric
- B. non parametric
- C. descriptive
- D. inferential

Answer» B. non parametric

[discuss](#)

194. If a table shows the relationship between two variables in a tabular form, it is called a ...table

- A. Frequency
- B. simple
- C. complex
- D. contingency

194. If a table shows the relationship between two variables in a tabular form, it is called a ...table

Answer» D. contingency

[discuss](#)

195. In line graphs, values of dependent variables are taken on the

A. X- axis

B. Y – axis

C. base line

D. none of these

Answer» B. Y – axis

[discuss](#)

196. If the area of a circle is divided in two different sectors representing different categories such that the angle of each sector is proportional to the frequency of corresponding category, it is called a

A. Pie chart

B. bar chart

C. stacked bar chart

D. multiple bar chart

Answer» A. Pie chart

[discuss](#)

197. The diagram drawn for presenting the data in picture form is called

A. Chart

B. frequency polygon

C. pie chart

D. pictogram

Answer» D. pictogram

[discuss](#)

198. Data classified on the basis of some characteristics is called

A. Geographical

198.	Data classified on the basis of some characteristics is called
B.	chronological
C.	quantitative
D.	qualitative
Answer» D. qualitative	

[discuss](#)

199.	If the study is related tone variable, it is called Analysis
A.	bivariate
B.	correlative
C.	casual
D.	unidimensional
Answer» D. unidimensional	

[discuss](#)

200.	When the study is related with more than two variables, it is termed as.....
A.	bivariate
B.	multivariate
C.	casual
D.	unidimensional
Answer» B. multivariate	

STATISTICS FOR MANAGEMENT

1.	The necessary diagram to compare among the various components or between a part and the whole is:
A.	Bar diagram
B.	Step diagram
C.	Pie diagram
D.	Histogram
Answer» C. Pie diagram	

[discuss](#)

2.	A random variable X can take the values -1, 0 and 1 with respective probabilities 0.2, 0.5 and 0.3. The expected value of X is:
A.	0.3
B.	0.5
C.	0.2
D.	0.1
Answer» D. 0.1	

[discuss](#)

3.	Consider the following data: Marks in 0 – 9 10 – 19 20 – 29 30 – 39 40 – 49 Total Mathematics No. of students (f) 10 8 12 15 5 50 Frequency density of the second class is
A.	0.8
B.	8
C.	1.2
D.	1
Answer» A. 0.8	

[discuss](#)

4.	The measure of central tendency of a statistical data which takes into account all the data
A.	Median
B.	Mean
C.	Mode
D.	Range
Answer» B. Mean	

[discuss](#)

5.	The A.M. of the numbers 1, 3, 5, (2n – 1) is
A.	n^2
B.	$n + 1$
C.	n
D.	$2n$

5. The A.M. of the numbers 1, 3, 5, $(2n - 1)$ is

Answer» C. n

[discuss](#)

6. The Harmonic Mean (H.M.) of the series 1, 2, 4 is

A. 5

B. 7

C. $7/5$

D. $12/7$

Answer» D. $12/7$

[discuss](#)

7. For a symmetrical distribution first quartile and median are respectively 20 and 24. The third quartile of the distribution is

A. 28

B. 26

C. 22

D. 32

Answer» A. 28

[discuss](#)

8. Standard Deviation (S.D) for two observations 1 and 4 is

A. 1

B. 1.5

C. 2

D. 3

Answer» B. 1.5

[discuss](#)

9. If the two regression coefficients are $b_{yx} = -0.4$ and $b_{xy} = -0.9$ then the value of correlation coefficient (r) is

A. 0.6

B. 0.65

9.	If the two regression coefficients are $b_{yx} = -0.4$ and $b_{xy} = -0.9$ then the value of correlation coefficient (r) is
C.	- 0.6
D.	- 0.65
Answer» C. - 0.6	

[discuss](#)

10.	For a frequency distribution coefficient of skewness = 0.6; mean = 172 and mode = 163. The value of the variance is
A.	169
B.	215
C.	196
D.	225
Answer» D. 225	

[discuss](#)

11.	For two mutually exclusive events A and B if $P(A) = 3/4$ and $P(B) = 1/6$, then $P(A \text{ or } B)$ is
A.	11/12
B.	5/12
C.	7/8
D.	1/8
Answer» A. 11/12	

[discuss](#)

12.	Two unbiased coins are tossed simultaneously. The probability of getting a head and a tail is
A.	1/4
B.	1/2
C.	1
D.	$3/4$
Answer» B. 1/2	

[discuss](#)

13.	The vertical axis of an ogive shows
A.	Cumulative frequencies
B.	Absolute frequencies
C.	Frequency densities
D.	Class boundaries
Answer» A. Cumulative frequencies	

[discuss](#)

14.	The basis of classification according to differences in time is called
A.	Ordinal classification
B.	Temporal classification
C.	Spatial classification
D.	Qualitative classification
Answer» A. Ordinal classification	

[discuss](#)

15.	The frequencies of three class intervals 54 – 58, 59 – 63, 64 – 68 of a distribution are respectively 4, 8 and 12. The frequency density of the 2nd class is
A.	1
B.	1.2
C.	1.6
D.	2
Answer» D. 2	

[discuss](#)

16.	The variance of two observations 10 and 17 is
A.	12.25
B.	12
C.	1.225
D.	13
Answer» A. 12.25	

16. The variance of two observations 10 and 17 is

[discuss](#)

17. If a variable x takes the values 12 and 24 with equal frequencies, then mean of x is

A. 36

B. 18

C. 22

D. 28

Answer» B. 18

[discuss](#)

18. The quartile deviation of the following data 12, 10, 17, 14, 19, 21, 27, 30, 32, 38, 34 is

A. 11

B. 18

C. 9

D. 16

Answer» C. 9

[discuss](#)

19. For a frequency distribution mean = 68.2; median = 69 and coefficient of skewness of the distribution is -0.6 . The variance of the distribution is

A. 9

B. 25

C. 36

D. 16

Answer» D. 16

[discuss](#)

20. If two regression equations $x + 5y = 13$ and $3x - 2y = 5$, then the mean values of x and y are respectively.

A. (2, 3)

B. (3, 2)

20. If two regression equations $x + 5y = 13$ and $3x - 2y = 5$, then the mean values of x and y are respectively.

C. (4, 5)

D. (5, 4)

Answer» B. (3, 2)

[discuss](#)

21. Two dice are thrown simultaneously, the probability of obtaining a total sum 8 is

A. $1/6$

B. $5/6$

C. $5/36$

D. $7/36$

Answer» B. $5/6$

[discuss](#)

22. If the A.M of 14, 16, x , 25, 21 be 19, then the value of x is

A. 16

B. 19

C. 12

D. 21

Answer» B. 19

[discuss](#)

23. The G.M of 3 and 24 with weight 2 and 1 respectively is

A. 8

B. 4

C. 6

D. 9

Answer» C. 6

[discuss](#)

24.	The mean deviation about median of 28, 7, 16, 14, 24, 15, 34, 30 is
A.	8
B.	6
C.	10.5
D.	12
Answer» A. 8	

[discuss](#)

25.	The A.M of first n natural numbers is 6. The value of n is
A.	12
B.	9
C.	11
D.	16
Answer» C. 11	
26.	The 1st and 3rd quartiles of a frequency distribution are respectively 25 and 45. If the coefficient of skewness be – 0.1, then the median is
A.	36
B.	32
C.	24
D.	28
Answer» A. 36	

[discuss](#)

27.	If A.M and the coefficient of variation of x are 6 and 50% respectively, then the variable of x is
A.	3
B.	6
C.	9
D.	11
Answer» C. 9	

[discuss](#)

28. Given : $Q_3 - Q_1 = 8$, $Q_3 + Q_1 = 22$, Median (Q_2) = 10.5. The coefficient of skewness is

- A. $1/8$
- B. $1/7$
- C. $1/5$
- D. 1

Answer» A. $1/8$

[discuss](#)

29. The correlation coefficient between two variables x and y is

- A. sum of two regression coefficients.
- B. Arithmetic Mean of two regression coefficients.
- C. Harmonic Mean of two regression coefficients.
- D. Geometric Mean of two regression coefficients.

Answer» D. Geometric Mean of two regression coefficients.

[discuss](#)

30. For two mutually exclusive events A and B, $P(A \cup B)$ is equal:

- A. $P(A) - P(B)$
- B. $P(A) + P(B)$
- C. $\frac{1}{2} [P(A) + P(B)]$
- D. $P(A) \times P(B)$

Answer» B. $P(A) + P(B)$

[discuss](#)

31. Out of total outlay 40,000 (crore) during an annual plan of a country, the central angle represented by education of amount Rs. x crore is 720. The value of x (in crore) is

- A. 10,000
- B. 9,000
- C. 6,000
- D. 8,000

31. Out of total outlay 40,000 (crore) during an annual plan of a country, the central angle represented by education of amount Rs. x crore is 720. The value of x (in crore) is

Answer» D. 8,000

[discuss](#)

**32. Given a table: Value (greater than) 100 150 200 250 Frequency 50 32 9 0
The number of observations between 150 and 200 is**

- A. 23
- B. 15
- C. 8
- D. 18

Answer» A. 23

[discuss](#)

**33. Given the table: Class Interval 10 – 15 15 – 20 20 – 25 25 – 30 30 – 35
Frequency 5 7 4 6 8 The class mark for the second class is**

- A. 27.5
- B. 17.5
- C. 12.5
- D. 32.5

Answer» B. 17.5

[discuss](#)

34. The Arithmetic Mean for the series 2, 6, 5, 7, 9, 4, 2 is

- A. 7
- B. 4
- C. 5
- D. 6

Answer» C. 5

[discuss](#)

35. The Geometric Mean (GM) for the series 1, 3, 9 is

- A. 3

35.	The Geometric Mean (GM) for the series 1, 3, 9 is
B.	2
C.	1/3
D.	$\frac{1}{2}$
Answer» A. 3	

[discuss](#)

36.	The Standard Deviation for two observations is
A.	square of their difference.
B.	half of their absolute difference
C.	their absolute difference
D.	twice of their absolute difference
Answer» B. half of their absolute difference	

[discuss](#)

37.	The absolute deviations of the values of a variables from the mean are 10, 15, 19, 2, 14. The mean deviation is 15
A.	16
B.	14
C.	12
D.	9
Answer» C. 12	

[discuss](#)

38.	A.M of 40 observations of a variable is 25 and S.D is 4. The sum of squares of all observations is
A.	25640
B.	26540
C.	24560
D.	26450
Answer» A. 25640	

[discuss](#)

39. If $y + 2x = 10$; $\sigma_x = 3$ and $\text{Var}(y) = 25$, then C.V. of y is

- A. 100%
- B. 150%
- C. 125%
- D. 50%

Answer» C. 125%

[discuss](#)

40. The coefficient of skewness of a distribution is 0.4. Its S.D and mean are respectively 8 and 30. The mode of the distribution is

- A. 26
- B. 26.2
- C. 26.4
- D. 26.8

Answer» D. 26.8

[discuss](#)

41. If $\sigma_y = 4$, $b_{yx} = 0.48$, $r = 0.6$, then is σ_x

- A. 5
- B. 7
- C. 9
- D. 6.5

Answer» A. 5

[discuss](#)

42. If A and B be two mutually exclusive events and $P(A) = 3/4$; $P(A \cup B) = 5/6$ then $P(B)$ is

- A. $2/3$
- B. $3/5$
- C. $5/12$
- D. $1/12$

Answer» D. $1/12$

[discuss](#)

43. The mode for the series 2, 5, 7, 6, 3, 7, 4, 7, 9, 2 is

- A. 6
- B. 2
- C. 7
- D. 9

Answer» C. 7

[discuss](#)

44. The median of the numbers 94, 33, 86, 68, 32, 80, 48 and 70 is

- A. 68
- B. 69
- C. 64
- D. 70

Answer» B. 69

[discuss](#)

45. The Geometric Mean (G.M) for the series 1, 2, 4 is

- A. 2
- B. $\frac{7}{3}$
- C. $\frac{3}{7}$
- D. 2.5

Answer» A. 2

[discuss](#)

46. The Standard Deviation (S.D) for 2 and 8 is 16

- A. 5
- B. 4
- C. 3
- D. 6

46. The Standard Deviation (S.D) for 2 and 8 is 16

Answer» C. 3

[discuss](#)

47. The mean deviation of the observations 3, 5, 9, 1 and 2 about their median is

A. 2.4

B. 2.2

C. 3

D. 2.8

Answer» B. 2.2

[discuss](#)

48. If the sum of squares of the deviations of 10 observations taken from mean 50 is 250, then C.V is

A. 10%

B. 12%

C. 20%

D. 15%

Answer» A. 10%

[discuss](#)

49. If the relation between two variables x and y be $5x + 7y = 28$ and median of y be 3, then the median of x is

A. 1.4

B. - 4.2

C. 3

D. $13/7$

Answer» A. 1.4

[discuss](#)

50. For a symmetric distribution, skewness is

A. 0

B. 1

50.	For a symmetric distribution, skewness is
C.	-1
D.	0.5

Answer» A. 0

51.	If $\text{cov}(x, y) = 0.6$, $\sigma_x = 2$, $\sigma_y = 4$, then r_{xy} is
A.	0.1
B.	0.3
C.	0.2
D.	0

Answer» A. 0.1

[discuss](#)

52.	The value of the correlation coefficient lies between
A.	0 and 1
B.	- 1 and 1
C.	-1 and 0
D.	- 0.5 and 0.5

Answer» B. - 1 and 1

[discuss](#)

53.	For two mutually exclusive events A and B, if $P(A) = 0.4$ and $P(B) = 0.3$, then $P(A \text{ or } B)$ is
A.	0.6
B.	0.58
C.	0.7
D.	0.75

Answer» C. 0.7

[discuss](#)

54.	If the Harmonic Mean of 2, a, 8 be $\frac{24}{7}$, the value of a is 17
A.	4

54.	If the Harmonic Mean of 2, a, 8 be $\frac{24}{7}$, the value of a is 17
B.	6
C.	12
D.	9
Answer» A. 4	

[discuss](#)

55.	The variance of first 5 natural numbers is
A.	3
B.	4
C.	8
D.	2
Answer» D. 2	

[discuss](#)

56.	Two variables x and y are given by the relation $y = 3x - 2$. If the mode of x be 5, the mode of y will be
A.	13
B.	10
C.	15
D.	9
Answer» A. 13	

[discuss](#)

57.	If for a symmetrical distribution 1st and 3rd quartiles are respectively 16 and 22, then the Median of the distribution is
A.	20
B.	18
C.	24
D.	19
Answer» D. 19	

[discuss](#)

58.	If Mean = 50 cm and C.V. = 60%, then the S.D. is
A.	25 cm
B.	30 cm
C.	28 cm
D.	20 cm
Answer» B. 30 cm	

[discuss](#)

59.	For a given frequency distribution C.V = 30%, variance = 36 and Pearson's Coefficient of Skewness = - 0.25, the mode of the distribution is
A.	24
B.	20
C.	21.5
D.	24.5
Answer» C. 21.5	

[discuss](#)

60.	The regression equation of y on x is $3x - 5y = -12$ and regression equation of x on y is $2x - y = 7$. The value of y when x = 10 is
A.	8.4
B.	6.5
C.	7
D.	9
Answer» A. 8.4	

[discuss](#)

61.	If $y = 3x + 30$ and mean of x is 20, then the mean of y is
A.	90
B.	80
C.	70
D.	100

61. If $y = 3x + 30$ and mean of x is 20, then the mean of y is

Answer» A. 90

[discuss](#)

62. If the events A and B are mutually exclusive then

A. $P(A + B) = P(A) + P(B)$

B. $P(A + B) = P(A) - P(B)$

C. $P(A + B) = P(A) P(B)$

D. $P(A + B) = 0$

Answer» A. $P(A + B) = P(A) + P(B)$

[discuss](#)

63. If $\sigma_x = 10$, $\sigma_y = 12$, and $b_{xy} = -0.8$, then the value of correlation coefficient (r) is

A. - 0.84

B. - 0.96

C. - 0.75

D. 0.86

Answer» B. - 0.96

[discuss](#)

64. When $\text{Var}(x) = 2.25$, $\text{Var}(y) = 1$ and $\text{Cov}(x, y) = 0.9$, then correlation coefficient is

A. 0.45

B. 0.8

C. 0.6

D. 0.75

Answer» C. 0.6

[discuss](#)

65. If the odds against an event 3:5, the probability of that event is

A. $\frac{3}{8}$

B. $\frac{5}{8}$

65. If the odds against an event 3:5, the probability of that event is

C. $\frac{2}{3}$

D. $\frac{1}{3}$

Answer» B. $\frac{5}{8}$

66. For a symmetrical distribution:

A. $\beta_1 > 0$

B. $\beta_1 < 0$

C. $\beta_1 = 0$

D. $\beta_1 = 3$

Answer» C. $\beta_1 = 0$

[discuss](#)

67. The second and fourth moments about mean are 4 and 48 respectively, then the distribution is:

A. Leptokurtic

B. Platykurtic

C. Mesokurtic or normal

D. Positively skewed

Answer» C. Mesokurtic or normal

[discuss](#)

68. Bowley's coefficient of skewness lies between:

A. 0 and 1

B. 1 and +1

C. -1 and 0

D. -2 and +2

Answer» B. 1 and +1

[discuss](#)

69.	The value of β_2 can be:
A.	Less than 3
B.	Greater than 3
C.	Equal to 3
D.	All of the above
Answer» D. All of the above	

[discuss](#)

Chapter: Unit 3

70.	If the sum of squares of the rank differences of 10 pairs of values is 30, find the correlation coefficient between them.
A.	0.75
B.	0.82
C.	0.90
D.	0.83
Answer» B. 0.82	

[discuss](#)

71.	In a bivariate sample, the sum of squares of differences between marks of observed values of two variables is 33 and the rank correlation between them is 0.8. Find the number of pairs of observations:
A.	12
B.	10
C.	15
D.	18
Answer» B. 10	

[discuss](#)

72.	In a bivariate distribution, Spearman's Coefficient of Correlation is -0.25. If the sum of the squares of various ranks is 150, find out the number of pairs of items:
A.	10
B.	8
C.	9

72. In a bivariate distribution, Spearman's Coefficient of Correlation is -0.25. If the sum of the squares of various ranks is 150, find out the number of pairs of items:

D. 7

Answer» C. 9

[discuss](#)

73. The rank correlation coefficient of a debating contest involving 10 participants was calculated as 0.6. However, it was later discovered that the difference in the ranks of some participants was read as 8 instead of 3. Find the correct correlation coefficient:

A. 0.933

B. 0.652

C. 0.854

D. 0.751

Answer» A. 0.933

[discuss](#)

74. The regression coefficient of X on Y is:

A. b_{XY}

B. b_{YX}

C. Not Specified

D. none

Answer» A. b_{XY}

[discuss](#)

75. Regression Coefficient of Y on X is:

A. b_{XY}

B. b_{YX}

C. Not Specified

D. none

Answer» B. b_{YX}

75.	Regression Coefficient of Y on X is:
76.	If one of the regression coefficient is greater than unity, the other must be:
A.	More than Unity
B.	Less than Unity
C.	Unity
D.	none
Answer» B. Less than Unity	

[discuss](#)

77.	The regression coefficients re independent of change of origin but:
A.	Not of Scale
B.	Also of Scale
C.	No Change in scale
D.	none
Answer» A. Not of Scale	

[discuss](#)

78.	The coefficient of correlation between the regression coefficients is:
A.	Arithmetic Mean
B.	Geometric Mean
C.	Average
D.	none
Answer» B. Geometric Mean	

[discuss](#)

79.	The correlation coefficient is used to determine:
A.	A specific value of the y-variable given a specific value of the x-variable
B.	A specific value of the x-variable given a specific value of the y-variable
C.	The strength of the relationship between the x and y variables
D.	None of these

79. The correlation coefficient is used to determine:

Answer» C. The strength of the relationship between the x and y variables

[discuss](#)

80. If there is a very strong correlation between two variables then the correlation coefficient must be:

- A. any value larger than 1
- B. much smaller than 0, if the correlation is negative
- C. much larger than 0, regardless of whether the correlation is negative or positive
- D. None of these alternatives is correct

Answer» B. much smaller than 0, if the correlation is negative

[discuss](#)

81. In regression, the equation that describes how the response variable (y) is related to the explanatory variable (x) is:

- A. the correlation model
- B. the regression model
- C. used to compute the correlation coefficient
- D. None of these alternatives is correct.

Answer» B. the regression model

[discuss](#)

82. In regression analysis, the variable that is being predicted is the:

- A. Response, or dependent, variable
- B. Independent variable
- C. intervening variable
- D. is usually x

Answer» A. Response, or dependent, variable

[discuss](#)

83. In a regression analysis if $r^2 = 1$, then :

- A. SSE must also be equal to one
- B. SSE must be equal to zero

83.	In a regression analysis if $r^2 = 1$, then :
C.	SSE can be any positive value
D.	SSE must be negative
Answer» B. SSE must be equal to zero	

[discuss](#)

84.	In regression analysis, the variable that is used to explain the change in the outcome of an experiment, or some natural process, is called:
A.	the x-variable
B.	the independent variable
C.	the predictor variable
D.	the explanatory variable
Answer» C. the predictor variable	

[discuss](#)

85.	If the coefficient of determination is a positive value, then the regression equation:
A.	must have a positive slope
B.	must have a negative slope
C.	could have either a positive or a negative slope
D.	must have a positive y intercept
Answer» C. could have either a positive or a negative slope	

[discuss](#)

86.	If two variables, x and y, have a very strong linear relationship, then:
A.	there is evidence that x causes a change in y
B.	there is evidence that y causes a change in x
C.	there might not be any causal relationship between x and y
D.	None of these alternatives is correct.
Answer» A. there is evidence that x causes a change in y	

[discuss](#)

87. If the coefficient of determination is equal to 1, then the correlation coefficient :

- A. must also be equal to 1.
- B. can be either -1 or +1.
- C. can be any value between -1 to +1
- D. must be -1

Answer» B. can be either -1 or +1.

[discuss](#)

88. In regression analysis, if the independent variable is measured in kilograms, the dependent variable:

- A. must also be in kilograms
- B. must be in some unit of weight
- C. cannot be in kilograms
- D. can be any units

Answer» D. can be any units

[discuss](#)

89. The strength (degree) of the correlation between a set of independent variables X and a dependent variable Y is measured by

- A. Coefficient of Correlation
- B. Coefficient of Determination
- C. Standard error of estimate
- D. All of the above

Answer» A. Coefficient of Correlation

[discuss](#)

90. The percent of total variation of the dependent variable Y explained by the set of independent variables X is measured by:

- A. Coefficient of Correlation
- B. Coefficient of Skewness
- C. Coefficient of Determination
- D. Standard error

90. The percent of total variation of the dependent variable Y explained by the set of independent variables X is measured by:

Answer» C. Coefficient of Determination

[discuss](#)

91. A coefficient of correlation is computed to be -0.95 means that:

- A. The relationship between two variables is weak
- B. The relationship between two variables is strong and positive
- C. The relationship between two variables is strong and but negative
- D. Correlation coefficient cannot have this value

Answer» C. The relationship between two variables is strong and but negative

[discuss](#)

92. Let the coefficient of determination computed to be 0.39 in a problem involving one independent variable and one dependent variable. This result means that:

- A. The relationship between two variables is negative
- B. The correlation coefficient is 0.39 also
- C. 39% of the total variation is explained by the independent variable
- D. 39% of the total variation is explained by the dependent variable

Answer» C. 39% of the total variation is explained by the independent variable

[discuss](#)

93. Relationship between correlation coefficient and coefficient of determination is that:

- A. both are unrelated
- B. The coefficient of determination is the coefficient of correlation squared
- C. The coefficient of determination is the square root of the coefficient of correlation
- D. both are equal

Answer» B. The coefficient of determination is the coefficient of correlation squared

[discuss](#)

94.	The value of a correlation is reported by a researcher to be $r = -0.5$. Which of the following statements is correct?
A.	The x-variable explains 25% of the variability in the y-variable.
B.	The x-variable explains -25% of the variability in the y-variable.
C.	The x-variable explains 50% of the variability in the y-variable.
D.	The x-variable explains -50% of the variability in the y-variable.
Answer» A. The x-variable explains 25% of the variability in the y-variable.	

[discuss](#)

95.	Past data has shown that the regression line relating the final exam score and the midterm exam score for students who take statistics from a certain professor is: $\text{final exam} = 50 + 0.5 \times \text{midterm}$ One interpretation of the slope is
A.	a student who scored 0 on the midterm would be predicted to score 50 on the final exam.
B.	a student who scored 0 on the final exam would be predicted to score 50 on the midterm exam.
C.	a student who scored 10 points higher than another student on the midterm would be
D.	predicted to score 5 points higher than the other student on the final exam. students only receive half as much credit (.5) for a correct
Answer» A. a student who scored 0 on the midterm would be predicted to score 50 on the final exam.	

[discuss](#)

96.	One use of a regression line is
A.	to determine if any x-values are outliers.
B.	to determine if any y-values are outliers.
C.	to determine if a change in x causes a change in y.
D.	to estimate the change in y for a one-unit change in x.
Answer» D. to estimate the change in y for a one-unit change in x.	

[discuss](#)

97.	The percent of total variation of the dependent variable Y explained by the set of independent variables X is measured by
A.	Coefficient of Correlation

97.	The percent of total variation of the dependent variable Y explained by the set of independent variables X is measured by
B.	Coefficient of Skewness
C.	Coefficient of Determination
D.	Standard Error or Estimate
Answer» C. Coefficient of Determination	

[discuss](#)

98.	The strength (degree) of the correlation between a set of independent variables X and a dependent variable Y is measured by
A.	Coefficient of Correlation
B.	Coefficient of Determination
C.	Standard error of estimate
D.	All of the above
Answer» D. All of the above	

[discuss](#)

99.	A coefficient of correlation is computed to be -0.95 means that
A.	The relationship between two variables is weak.
B.	The relationship between two variables is strong and positive
C.	The relationship between two variables is strong and but negative
D.	Correlation coefficient cannot have this value
Answer» C. The relationship between two variables is strong and but negative	

[discuss](#)

100.	Relationship between correlation coefficient and coefficient of determination is that
A.	both are unrelated
B.	The coefficient of determination is the coefficient of correlation squared
C.	The coefficient of determination is the square root of the coefficient of correlation
D.	both are equal

100. Relationship between correlation coefficient and coefficient of determination is that

Answer» B. The coefficient of determination is the coefficient of correlation squared

101. The sample coefficient of correlation

- A. Has the same sign as the slope, i.e. β
- B. Can range from -1.00 up to 2.00
- C. Is also called Peterson's r
- D. Can range from -3.00 up to 2.00

Answer» A. Has the same sign as the slope, i.e. β

[discuss](#)

102. The regression equation is the line with slope a passing through

- A. The point $(\bar{X}, \bar{Y})$
- B. The point (Y, X)
- C. The point (X, Y)
- D. The point $(\bar{Y}, \bar{X})$

Answer» A. The point $(\bar{X}, \bar{Y})$

[discuss](#)

103. In regression equation $y = a + \beta x + e$, both x and y variables are

- A. y is fixed and x is random
- B. Random
- C. Fixed
- D. x is fixed and y is random

Answer» D. x is fixed and y is random

Chapter: Unit 4

104. A series of numerical figures which show the relative position is called

- A. index no.
- B. relative no.

104. A series of numerical figures which show the relative position is called

C. absolute no.

D. none

Answer» A. index no.

[discuss](#)

105. Index no. for the base period is always taken as

A. 200

B. 50

C. 1

D. 100

Answer» D. 100

[discuss](#)

106. play a very important part in the construction of index nos

A. weights

B. classes

C. estimations

D. none

Answer» A. weights

[discuss](#)

107. ____ is particularly suitable for the construction of index nos.

A. H.M

B. A.M.

C. G.M

D. None

Answer» C. G.M

[discuss](#)

108.	Index nos. show changes rather than absolute amounts of change.
A.	Relative
B.	Percentage
C.	Both
D.	None
Answer» B. Percentage	

[discuss](#)

109.	The makes index nos. time-reversible
A.	A.M
B.	G.M.
C.	H.M
D.	None
Answer» B. G.M.

112. Circular Test is one of the tests of

- A. index no's
- B. hypothesis
- C. both
- D. none

Answer» A. index no's

[discuss](#)

113. _____ is an extension of time reversal test

- A. Factor Reversal test
- B. Circular test
- C. Both
- D. None

Answer» B. Circular test

[discuss](#)

114. Weighted G.M. of relative formula satisfy test

- A. Time Reversal Test
- B. Circular test
- C. Factor Reversal Test
- D. None

Answer» A. Time Reversal Test

[discuss](#)

115. Factor Reversal test is satisfied by:

- A. Fisher's Ideal Index
- B. Laspeyres Index
- C. Paasches Index
- D. None

115. Factor Reversal test is satisfied by:

Answer» A. Fisher's Ideal Index

[discuss](#)

116. Laspeyre's formula does not obey:

- A. Factor Reversal Test
- B. Time Reversal Test
- C. Circular Test
- D. None

Answer» B. Time Reversal Test

[discuss](#)

117. A ratio or an average of ratios expressed as a percentage is called

- A. a relative no
- B. an absolute no.
- C. an index no.
- D. none

Answer» C. an index no.

[discuss](#)

118. The value at the base time period serves as the standard point of comparison

- A. False
- B. True
- C. Both
- D. None

Answer» B. True

[discuss](#)

119. An index time series is a list of nos. for two or more periods of time

- A. Index
- B. Absolute

119. An index time series is a list of nos. for two or more periods of time

C. Relative

D. None

Answer» A. Index

[discuss](#)

120. Index nos. are often constructed from the

A. Frequency

B. Class

C. Sample

D. None

Answer» C. Sample

[discuss](#)

121. _____ is a point of reference in comparing various data describing individual behavior.

A. Sample

B. Base period

C. Estimation

D. None

Answer» B. Base period

[discuss](#)

122. The ratio of price of single commodity in a given period to its price in another period is called the

A. base period

B. price ratio

C. relative price

D. none

Answer» A. base period

[discuss](#)

123. P01 is the index for time

- A. 1 on 0
- B. 0 on 1
- C. 1 on 1
- D. 0 on 0

Answer» A. 1 on 0

[discuss](#)

124. When the price of a divided by the price of the preceding year, we, get:

- A. Value index
- B. Link relative
- C. Simple relative
- D. None of them

Answer» B. Link relative

[discuss](#)

125. The most appropriate average in averaging the price relatives is:

- A. Median
- B. Harmonic mean
- C. Arithmetic mean
- D. Geometric mean

Answer» D. Geometric mean

126. In constructing index number geometric mean relatives are:

- A. Non-reversible
- B. Reciprocal
- C. Reversible
- D. None of them

Answer» C. Reversible

[discuss](#)

127. The general purchasing power of the currency of a country is determined by:

A. Retail price index

B. Volume index

C. Composite index

D. Whole-sale price index

Answer» D. Whole-sale price index

[discuss](#)

128. What type of index number can help the government to formulate its price policies and to take appropriate economic measures to control prices:

A. Whole sale price index

B. Consumer's price

C. Quantity

D. None of them

Answer» B. Consumer's price

[discuss](#)

129. Which of the following is a component of timer series;

A. Secular trend

B. Correlation

C. Regression

D. Consumer price index

Answer» A. Secular trend

[discuss](#)

130. Which of the following is a method of measuring trend:

A. Freehand curve

B. Bar graph

C. Histogram

D. System Analysis

Answer» A. Freehand curve

[discuss](#)

131. Cyclical variations are caused by

- A. Trade business cycles
- B. Elections
- C. Changes in foreign exchange
- D. Changes in interest rates

Answer» A. Trade business cycles

[discuss](#)

132. Periodic movements with duration longer than a year are called

- A. Seasonal movements
- B. Cyclic movements
- C. Social movements
- D. Cultural movements

Answer» B. Cyclic movements

[discuss](#)

133. Seasonal variations are short term variations with period

- A. less than 6 months
- B. less than 5 years
- C. less than 1 year
- D. more than 10 years

Answer» C. less than 1 year

[discuss](#)

134. The component of time series useful for long term forecasting is

- A. Secular trend
- B. Seasonal variation
- C. Cyclical variation
- D. Irregular variation

134. The component of time series useful for long term forecasting is

Answer» A. Secular trend

[discuss](#)

135. If the growth rate is constant, the trend is –

- A. linear
- B. non linear
- C. curvy
- D. wavy

Answer» A. linear

[discuss](#)

136. The trend line $Y=a+bX$ obtained by the least Squares method is known as the line of

- A. best fit
- B. fit best
- C. best neutral
- D. nonlinear fit

Answer» A. best fit

[discuss](#)

More MCQs

137. Index number for base year is always considered as-----

- A. 100
- B. 101
- C. 200
- D. 201

Answer» A. 100

[discuss](#)

138. Index number is a special type of -----

- A. Average

138. Index number is a special type of -----

- B. dispersion
- C. correlation
- D. none of the above

Answer» A. Average

[discuss](#)

139. A period for which index number is determined is called as -----

- A. current period
- B. base period
- C. . Normal period.
- D. None of the above

Answer» A. current period

[discuss](#)

140. Laspeyre's index = 110, Paasche's index = 108, then Fisher's Ideal index is equal to:

- A. 110
- B. 108
- C. 100
- D. 109

Answer» D. 109

[discuss](#)

141. Index number calculated by Fisher's formula is ideal because it satisfy:

- A. Circular test
- B. Factor reversal test
- D. All of the above

Answer» D. All of the above

[discuss](#)

142. In the regression equation $Y = 75.65 + 0.50X$, the intercept is

- A. 75.65
- B. 0.5
- C. 1
- D. intereminable

Answer» A. 75.65

[discuss](#)

143. The coefficient of determination must be

- A. between -1 and +1
- B. between -1 and 0
- C. between 0 and 1
- D. equal to $SSE/(n-2)$

Answer» A. between -1 and +1

[discuss](#)

144. In the regression equation $Y = a + bX$, the Y is called:

- A. Independent variable
- B. Dependent variable
- C. Continuous variable
- D. None of the above

Answer» B. Dependent variable

[discuss](#)

145. How many type of data are there in Statistics

- A. 2
- B. 3
- C. 4
- D. 5

Answer» A. 2

[discuss](#)

146. is data that is collected by a researcher from first-hand sources

- A. Primary data
- B. Secondary data
- C. both
- D. none

Answer» A. Primary data

[discuss](#)

147. What are the method of collecting Primary Data

- A. Interview
- B. observation
- C. Questionnair
- D. All of the above

Answer» D. All of the above

[discuss](#)

148. A measure of is a single value that attempts to describe a set of data by identifying the central position within that set of

- A. Central Tendency
- B. Mean
- C. Median
- D. Mode

Answer» A. Central Tendency

[discuss](#)

149. Find the mean of 13,18,13,14,13,16,14,21,13

- A. 11
- B. 12
- C. 15
- D. 13

149. Find the mean of 13,18,13,14,13,16,14,21,13

Answer» C. 15

[discuss](#)

150. how many types of series are there

A. 3

B. 2

C. 5

D. 4

Answer» A. 3

OPERATIONS MANAGEMENT

1.refers to the transformation of the state of input in to output.

A. transportation.

B. alteration.

C. inspection

D. all of these

Answer» B. alteration.

[discuss](#)

2.refers to preserving goods in a protected environment.

A. alteration

B. inspection

C. storage

D. bargaining

Answer» C. storage

[discuss](#)

3.refers to the verification of and confirmation towards the requirements of an entity.

A. inspection.

B. pricing.

3.	refers to the verification of and confirmation towards the requirements of an entity.
C.	alteration.
D.	none of these.
Answer» A. inspection.	

[discuss](#)

4.	is the management of all activities directly related to the production of goods and services
A.	productionmanagement
B.	finance control
C.	employee development
D.	all of these
Answer» A. productionmanagement	

[discuss](#)

5.	Which of the following statement is not true in the case of goods?
A.	tangibility.
B.	can be stored
C.	physical shape
D.	intangibility.
Answer» D. intangibility.	

[discuss](#)

6.	Which of the following is not an objective of operations management?
A.	customer satisfaction
B.	profitability
C.	timeliness
D.	employee punishment
Answer» D. employee punishment	

[discuss](#)

7.	Which of the following is not a part of scientific management principles?
A.	replacement of rule of thumb
B.	scientific selection of employees
C.	supervise each worker in detail
D.	coercion
Answer» D. coercion	

[discuss](#)

8.	All of the following are differences between manufacturing and service operations EXCEPT
A.	quality is more easily measured in service operations.
B.	productivity is easier to measure in manufacturing operations
C.	contact with customers is more prevalent with persons working in service operations.
D.	accumulation or decrease in inventory of finished products is more
Answer» A. quality is more easily measured in service operations.	

[discuss](#)

9.	is measure of the quantity of output per unit of input.
A.	productivity
B.	marketability
C.	sociability
D.	none of these
Answer» A. productivity	

[discuss](#)

10.	is the sum all the observations and divided by the total number of observations?
A.	median
B.	mode
C.	mean
D.	none of these

10.is the sum all the observations and divided by the total number of observations?

Answer» C. mean

[discuss](#)

11. Lillian and Frank Gilbreth are responsible for principles of

A. sociotechnical systems

B. zeroinventory

C. motion study

D. interchangeable parts

Answer» C. motion study

[discuss](#)

12. is the process of randomly inspecting a sample of goods and deciding whether to accept the entire lot based on the results

A. statistical process control.

B. acceptance sampling

C. (a) and (b)

D. none of these

Answer» B. acceptance sampling

[discuss](#)

13.is a system that is used to maintain a desired level of quality in a product or service.

A. economic ordering quantity

B. quality control

C. knowledge management

D. manpower planning

Answer» B. quality control

[discuss](#)

14. Operations management is applicable

A. mostly to the service sector

B. mostly to the manufacturing sector

14.	Operations management is applicable
C.	to manufacturing and service sectors
D.	to services exclusively
Answer» C. to manufacturing and service sectors	

[discuss](#)

15.	The person most responsible for popularizing interchangeable parts in manufacturing was
A.	eli whitney
B.	whitney houston
C.	sergio farmerson
D.	lillian gilbreth
Answer» A. eli whitney	

[discuss](#)

16.	The Father of Scientific Management is
A.	frank gilbreth
B.	frederick w. taylor
C.	w. edwards deming
D.	walther shewhart
Answer» B. frederick w. taylor	

[discuss](#)

17.	Walter Shewhart is listed among the most important people of POM because of his contributions to
A.	assembly line production
B.	measuring productivity in the service sector
C.	statistical quality control
D.	just-in-time inventory methods
Answer» C. statistical quality control	

[discuss](#)

18. Henry Ford is noted for his contributions to

- A. quality control
- B. assembly line operations
- C. scientific management
- D. standardization of parts

Answer» B. assembly line operations

[discuss](#)

19. Which of the following is not an objective of operation management?

- A. to improve product quality
- B. to reduce cost of production
- C. material cost control
- D. trading on equity

Answer» D. trading on equity

[discuss](#)

20. Hawthorne studies were related with.....

- A. scientific management
- B. human relations movement
- C. marketing management
- D. none of these

Answer» B. human relations movement

[discuss](#)

21. Moving of materials from the store room to the machine and from one machine to the next machine during the process of manufacture is called.....

- A. ved analysis
- B. abc analysis
- C. material handling
- D. none of these

Answer» C. material handling

21. Moving of materials from the store room to the machine and from one machine to the next machine during the process of manufacture is called.....

[discuss](#)

22.is the term used to describe the set of statistical tools used by quality professionals for the purpose of quality control

- A. accounting standards
- B. statistical quality control
- C. population study
- D. none of these

Answer» B. statistical quality control

[discuss](#)

23. is the art of applying tests, preferably by the aid of measuring appliances to observe whether a given item or product is within the specified limits of variability or not.

- A. inspection
- B. planning
- C. leading
- D. none of these

Answer» A. inspection

[discuss](#)

24. Which of the following is TRUE about business strategies?

- A. all firms within an industry will adopt the same strategy.
- B. well defined missions make strategic development much easier.
- C. strategies are formulated independently of swot analysis.
- D. an organization should stick with its strategy for the life of the business.

Answer» B. well defined missions make strategic development much easier.

[discuss](#)

25.	 is the process of selection of path, which each part of the product will follow
A.	routing.
B.	scheduling
C.	follow-up.
D.	dispatching

Answer» A. routing.

26.	isthe fixation of time and date for each operation as well as it determines the sequence of operations to be followed.
A.	dispatching
B.	scheduling.
C.	routing.
D.	all of these.

Answer» B. scheduling.

[discuss](#)

27.	 is the process of verification or correction in the quality of the product when the deviations in the quality are found to be more than expected.
A.	policies
B.	quality control
C.	quantity measurement
D.	none of these

Answer» B. quality control

[discuss](#)

28.	Which of the following is true? The impact of strategies on the general direction and basic character of a company is
A.	long range
B.	short ranged
C.	minimal
D.	medium range

Answer» A. long range

[discuss](#)

29. Which of the following is true?

- A. corporate strategy is shaped by functional strategies
- B. corporate mission is shaped by corporate strategy
- C. functional strategies are shaped by corporate strategy
- D. external conditions are shaped by corporate mission

Answer» C. functional strategies are shaped by corporate strategy

[discuss](#)

30. The fundamental purpose of an organization's mission statement is to

- A. define the organization's purpose in the society
- B. define the operational structure of the organization
- C. generate good public relations for the organization
- D. define the functional areas required by the organization

Answer» A. define the organization's purpose in the society

[discuss](#)

31. Which of the following is not a key way in which business organizations compete with one another?

- A. production cost
- B. product duplication
- C. flexibility
- D. quality

Answer» B. product duplication

[discuss](#)

32. involves determination of the progress of work, removing bottlenecks in the flow of work and ensuring that the productive operations are taking place in accordance with the plans

- A. follow up
- B. time management
- C. time study

32. involves determination of the progress of work, removing bottlenecks in the flow of work and ensuring that the productive operations are taking place in accordance with the plans

D. time booking

Answer» A. follow up

[discuss](#)

33. is the process of setting of productive activities in motion through release of orders and instructions, in accordance with previously planned timings.

A. time study

B. follow up

C. dispatching

D. none of these

Answer» C. dispatching

[discuss](#)

34. is a time-table of operations specifying the time and date when each operation is to be started and completed.

A. time study

B. schedule

C. loading

D. none of these

Answer» B. schedule

[discuss](#)

35. Involves the fixation of path through which work will flow for manufacturing of goods.

A. scheduling

B. routing

C. time study

D. none of these

Answer» B. routing

[discuss](#)

36.	 is the process of reporting daily progress of work in each shop in a prescribed proforma and to investigate the causes of deviations from the planned performance and to take necessary actions
A.	follow up
B.	motion study
C.	time study
D.	all of these
Answer» A. follow up	

[discuss](#)

37.	Which of the following is an objective of quality control?
A.	to produce qualitative items
B.	to reduce companies cost through reduction of losses due to defects.
C.	to produce optimal quality at reduced price.
D.	all of these
Answer» D. all of these	

[discuss](#)

38.	 is that aspect of operation management function, which is concerned with the acquisition, control, and use of materials needed and flow of goods and services connected with the production process.
A.	materials management
B.	division of labour
C.	mass production
D.	craft production
Answer» A. materials management	

[discuss](#)

39.	If inputs decrease while output remains constant, what will happen to productivity?
A.	) it will increase
B.	it will decrease
C.	it will remain the same
D.	it is impossible to tell

39. If inputs decrease while output remains constant, what will happen to productivity?

Answer» A.) it will increase

[discuss](#)

40.is the art and science of ensuring that all which occurs is in accordance with the rules established and the instructions issued in the case of operations.

- A. operational attack
- B. operational control
- C. operational summary
- D. none of these

Answer» B. operational control

[discuss](#)

41. is concerned with deciding in advance what is to be produced, when to be produced, where to be produced and how to be produced

- A. operational planning
- B. operational control.
- C. (a) and (b).
- D. none of these

Answer» A. operational planning

[discuss](#)

42. The differences between the actual demand for a period and the demand forecast for that period is called:

- A. forecast error
- B. weighted arithmetic mean
- C. decision process.
- D. mean square error

Answer» A. forecast error

[discuss](#)

43.	All of the following decisions fall within the scope of operations management EXCEPT for
A.	financial analysis
B.	design of products and processes
C.	location of facilities
D.	quality management
Answer» A. financial analysis	

[discuss](#)

44.	can be defined as the measurements that detect the onset of a degradation mechanism, thereby allowing causal stressors to be eliminated or controlled prior to any significant deterioration in the component physical state
A.	break down maintenance
B.	predictive maintenance
C.	past maintenance
D.	none of these
Answer» B. predictive maintenance	

[discuss](#)

45.	is defined as the combination of tasks that are required to keep a machine or part of a machine in the desirable condition.
A.	substitution
B.	maintenance
C.	reduction
D.	induction
Answer» B. maintenance	

[discuss](#)

46.	 involves systematically recording, analysing and synthesizing the times required to perform a motion.
A.	method study
B.	motion study
C.	time study

46. involves systematically recording, analysing and synthesizing the times required to perform a motion.

D. all of these

Answer» C. time study

[discuss](#)

47.refers to the manufacturing of large volume of a single or a very few varieties of products with a standard set of processes

A. continuous production

B. intermittent production

C. project production

D. none of these

Answer» A. continuous production

[discuss](#)

48. is the process of predicting and defining the long-term and the short-term capacity needs of an organisation and determining how those needs will be satisfied.

A. capacity planning

B. capacity control

C. staff fixation

D. instrumentalisation

Answer» A. capacity planning

[discuss](#)

49.is a measure the actual level of output for a process or activity over a period of time.

A. actual capacity

B. design capacity

C. maximum capacity

D. none of these

Answer» A. actual capacity

[discuss](#)

50.	Production facilities are arranged as per the sequence of production operations from the first operations to the finished product. This method is called.....
A.	process production
B.	job production
C.	both of these
D.	none of these

Answer» A. process production

51.	Frederick Winslow Taylor is called;
A.	father of operations research
B.	father of marketing management
C.	father of financial management
D.	father of scientific management

Answer» D. father of scientific management

[discuss](#)

52.	In the case of..... the products are produced as per the specifications of the customers within prefixed time and cost.
A.	mass production
B.	job production
C.	both of these
D.	none of these

Answer» B. job production

[discuss](#)

53.	is the system in which items are processed in lots and a new lot is undertaken for production only when the production on all items of a lot is complete.
A.	job production
B.	batch production
C.	mass production
D.	none of these

Answer» B. batch production

53.	is the system in which items are processed in lots and a new lot is undertaken for production only when the production on all items of a lot is complete.

[discuss](#)

54.	is the capacity that specifies a theoretical upper limit above the usual rate of routine operations.
A.	maximum capacity
B.	effective capacity
C.	actual capacity
D.	none of these.
Answer» A. maximum capacity	

[discuss](#)

55.	is the highest reasonable output rate which can be achieved with the current product specifications, product mix, work force, plant and equipment.
A.	publicity
B.	capacity
C.	(a) and (b)
D.	none of these
Answer» B. capacity	

[discuss](#)

56.	In, machines and other supporting services are located according to the processing sequence of the product
A.	project lay out
B.	product lay out
C.	combination lay out
D.	none of these
Answer» B. product lay out	

[discuss](#)

57.	The lay out in which production operation is performed in a fixed position is called.....
A.	project lay out
B.	product lay out
C.	(a) and(b)
D.	none of these
Answer» A. project lay out	

[discuss](#)

58.	The layout in which all the equipment'sperforming similar tasks are grouped together is called.....
A.	)product lay out
B.	process lay out
C.	combination lay out
D.	none of these
Answer» B. process lay out	

[discuss](#)

59.	 is the configuration of departments, work centres and equipment in the conversion process.
A.	plant lay out
B.	plant locations
C.	(a) and (b)
D.	none of these.
Answer» A. plant lay out	

[discuss](#)

60.	Which of the following affect the choice of plant location decision?
A.	proximity to markets
B.	supply of materials
C.	(a) and (b)
D.	none of these
Answer» C. (a) and (b)	

60.	Which of the following affect the choice of plant location decision?

[discuss](#)

61.	The founder of the scientific management movement was:
-----	---

- | | |
|----|--------------------|
| A. | frank gilbreth |
| B. | walter shewhart |
| C. | frederick w.taylor |
| D. | ford harris |

Answer» C. frederick w.taylor

[discuss](#)

62.	The Hawthorne Studies stimulated the development of:
-----	---

- | | |
|----|------------------------------------|
| A. | the scientific management movement |
| B. | the human relations movement |
| C. | the socio-technical movement |
| D. | the lean production movement. |

Answer» B. the human relations movement

[discuss](#)

63.	Walter Shewhart developed:
-----	-----------------------------------

- | | |
|----|--|
| A. | the economic order quantity model |
| B. | the human factors engineering field |
| C. | linear programming models |
| D. | statistical quality control techniques |

Answer» D. statistical quality control techniques

[discuss](#)

64.	The moving assembly line was developed by:
-----	---

- | | |
|----|---------------------|
| A. | elton mayo |
| B. | frederick w. taylor |

64.	The moving assembly line was developed by:
C.	clark gable
D.	henry ford
Answer» D. henry ford	

[discuss](#)

65.	is used to monitor characteristics that can be measured and have a continuum of values such as height, weight, volume etc.
A.	control chart of attributes
B.	control chart for variables
C.	(a) and (b)
D.	none of these
Answer» B. control chart for variables	

[discuss](#)

66.	is used to monitor characteristics that have discrete values and can be counted
A.	control chart for variables.
B.	control chart for attributes
C.	(a) and (b)
D.	none of these
Answer» B. control chart for attributes	

[discuss](#)

67.	Which of the following is not a control chart for variables?
A.	x chart
B.	r chart
C.	p chart
D.	none of these
Answer» C. p chart	

[discuss](#)

68.	Which of the following is not a control chart for attributes?
A.	p chart
B.	c chart
C.	x chart
D.	none of these
Answer» C. x chart	

[discuss](#)

69.	ISO 9000 is a.....
A.	international standard
B.	national standard
C.	local standard
D.	none of these
Answer» A. international standard	

[discuss](#)

70.	In management literature TQM stands for
A.	total quality management
B.	total quantity management
C.	total quantity maintenance
D.	none of these
Answer» A. total quality management	

[discuss](#)

71.	is a group of workers from the same area who usually meet to discuss their problems, investigate, recommend solutions and to corrective actions
A.	quality problems
B.	quality circle
C.	quantify value
D.	none of these
Answer» B. quality circle	

71.	is a group of workers from the same area who usually meet to discuss their problems, investigate, recommend solutions and to corrective actions

[discuss](#)

72.	Which of the following is not an objective of quality circle?
A.	to improve quality
B.	to improve productivity
C.	trading on equity
D.	none of these
Answer» C. trading on equity	

[discuss](#)

73.	Which of the following is not a principles' of TQM?
A.	customer focus
B.	continuous improvement
C.	team approach
D.	black marketing
Answer» D. black marketing	

[discuss](#)

74.	is the systematic recording and critical examination of existing and the proposed way of doing work as a means of developing effective methods.
A.	method study
B.	time study
C.	time booking
D.	none of these
Answer» A. method study	

[discuss](#)

75.	The costs of all activities incurred to prevent poor quality in products and services.
A.	prevention cost

75.	The costs of all activities incurred to prevent poor quality in products and services.
B.	appraisal cost
C.	failure cost
D.	none of the above

Answer» A. prevention cost

76.	This cost is the cost associated with measuring evaluating, or auditing products or services to assure conformance to quality standards and performance requirements
A.	prevention cost
B.	appraisal cost
C.	failure cost
D.	none of the above

Answer» B. appraisal cost

[discuss](#)

77.	This cost is the costs resulting from products or services not conforming to requirements or user needs.
A.	prevention cost
B.	appraisal cost
C.	failure cost
D.	none of the above

Answer» C. failure cost

[discuss](#)

78.	 is a graphical tool to analyse and time the small, physical actions of workers and machine in performing a routine, repetitive, worker- machine task so that idle time can be identified
A.	activity chart
B.	metrics
C.	(a) and (b)
D.	none of these

78. is a graphical tool to analyse and time the small, physical actions of workers and machine in performing a routine, repetitive, worker- machine task so that idle time can be identified

Answer» A. activity chart

[discuss](#)

79.is the level of output volume for which total cost equals total revenues

- A. profit
- B. breakeven point
- C. sales
- D. all of these

Answer» B. breakeven point

[discuss](#)

80. is a process of representing each item by a number, the digit of which indicates the group, the sub-group, the type and the dimension of the item.

- A. codification
- B. classification
- C. duplication
- D. none of these

Answer» A. codification

[discuss](#)

81.is a Manufacturing systems utilizing computer software programs that control the actual machine on the shop floor.

- A. complex manufacturing
- B. computer aided manufacturing
- C. (a)and (b)
- D. none of these

Answer» B. computer aided manufacturing

[discuss](#)

82.	is the Japanese concept of continuous improvement in all things.
A.	kaizen
B.	marketing myopia
C.	(a) and (b)
D.	none of these
Answer» A. kaizen	

[discuss](#)

83.	is the process of creating and using mathematical representations of management problems and organizations to predict outcomes of proposed courses of action
A.	mathematical modelling
B.	physical modelling
C.	service queries
D.	.none of these
Answer» A. mathematical modelling	

[discuss](#)

84.	is the degree to which the design specifications for a product or service are appropriate to its function and use, and the degree to which a product or service conforms to its design specifications
A.	quantity
B.	quality
C.	price
D.	cost
Answer» B. quality	

[discuss](#)

85.	is a process used to determine the maintenance requirements of any physical asset in its operating context?
A.	reliability centered maintenance
B.	preventive cost
C.	unavoidable cost

85.	is a process used to determine the maintenance requirements of any physical asset in its operating context?
D.	none of these
Answer» A. reliability centered maintenance	

[discuss](#)

86.	is the application or techniques designed to establish the time for a qualified worker to carry out a specified job at a defined level or performance
A.	work measurement
B.	work delay
C.	work atmosphere
D.	none of these
Answer» A. work measurement	

[discuss](#)

87.	 deals with decision-making related to production processes so that the resulting goods or services are produced according to specifications, in the amount and by the schedule demanded and out of minimum cost.
A.	production management
B.	marketing management
C.	financemanagement
D.	capital structure
Answer» A. production management	

[discuss](#)

88.	is the part of an organization that produces the organization's physical goods and services.
A.	operating system
B.	marketing system
C.	financial system
D.	all of these
Answer» A. operating system	

88.	is the part of an organization that produces the organization's physical goods and services.

[discuss](#)

89.	Which of the following records quantity of material only
A.	bin card
B.	stores ledger
C.	bill of materials
D.	none of these
Answer» A. bin card	

[discuss](#)

90.	Which of the following is used for issuing materials to different production departments
A.	material requisition
B.	purchase requisition
C.	purchase order
D.	none of these
Answer» A. material requisition	

[discuss](#)

91.	Continuous stock taking is a part of
A.	annual stock taking
B.	perpetual inventory
C.	abc analysis
D.	none of these
Answer» B. perpetual inventory	

[discuss](#)

92.	Stores department issues materials to the production department on the basis of
A.	goodsreceived note
B.	purchase requisition

92.	Stores department issues materials to the production department on the basis of
C.	stores requisition
D.	material transfer note
Answer» C. stores requisition	

[discuss](#)

93.	Recording of time spent by a worker on different job is called
A.	time keeping
B.	time booking
C.	job card keeping
D.	job order costing
Answer» B. time booking	

[discuss](#)

94.	The difference between the actual cost and standard cost is called
A.	profit
B.	loss
C.	sales
D.	variance
Answer» D. variance	

[discuss](#)

95.	Qualitycircle is a group of
A.	operatives
B.	supervisors
C.	management trainees
D.	top management
Answer» A. operatives	

[discuss](#)

96.	Safety stock is related to
A.	inventory control
B.	quality control
C.	employeecontrol
D.	strategic control
Answer» A. inventory control	

[discuss](#)

97.	is undertaken to find out the one best way of doing the thing
A.	job analysis
B.	merit rating
C.	job enrichment
D.	none
Answer» A. job analysis	

[discuss](#)

98.	The concept of Job enrichment is a contribution by.....
A.	frederick herzberg
B.	f.w.taylor
C.	c.k. prahlad
D.	peter f. drucker
Answer» A. frederick herzberg	

[discuss](#)

99.	 is the process of comparing actual performance with the standard and taking corrective Action.
A.	controlling
B.	management
C.	planning
D.	co-ordination
Answer» A. controlling	

[discuss](#)

100.aims at visualizing and identifying deviation before they actually occur.

- A. predictive control
- B. concurrent control
- C. operational control
- D. all of these

Answer» A. predictive control

101. In -----type of organization, workers receive instructions from various specialists.

- A. line
- B. functional
- C. informal
- D. none

Answer» B. functional

[discuss](#)

102.is an organized creative approach which has its objective, the efficient identification of unnecessary cost—cost which provides neither quality nor use nor life nor appearance nor customer features.

- A. money chain
- B. value analysis
- C. supply chain
- D. none of these

Answer» B. value analysis

[discuss](#)

103.are those materials and equipment's which have no immediate use but have accumulated due to faulty planning, forecasting and purchasing.

- A. surplus items
- B. deficit items
- C. (a) and (b)

103.are those materials and equipment's which have no immediate use but have accumulated due to faulty planning, forecasting and purchasing.

D. none of these

Answer» A. surplus items

[discuss](#)

104. is a recording technique for micro motionstudy.

A. simultaneous motion cycle chart

B. simultaneous master cycle chart

C. (a) and (b)

D. none of these

Answer» A. simultaneous motion cycle chart

[discuss](#)

105.is a priority rule that gives top priority to the waiting job whose operation time at a work center is shortest.

A. material shortage

B. shortest-processing-time rule

C. (a) and (b)

D. none of these

Answer» B. shortest-processing-time rule

[discuss](#)

106.is the process of testing the feasibility of master production schedules in terms of capacity.

A. rough-cut capacity planning

B. manpower planning

C. financial planning

D. all of these

Answer» A. rough-cut capacity planning

[discuss](#)

107.	involves theactivities relating to procuring materials and supplies consumed during production
A.	selling
B.	pricing
C.	purchasing
D.	distributing
Answer» C. purchasing	

[discuss](#)

108.	The risk or probability of incorrectly concluding that the conversion process is out of control.
A.	type 1 error
B.	type 2 errors
C.	(a) and (b)
D.	none of these
Answer» A. type 1 error	

[discuss](#)

109.	Operation process chart is also called as.....
A.	online chart
B.	outline process chart
C.	(a) and (b)
D.	none of these
Answer» B. outline process chart	

[discuss](#)

110.	It is a chart where activities of more than subject (worker or equipment) are each recorded on a common time scale to show their inter-relationship.
A.	single activity chart
B.	multiple activity charts
C.	charting
D.	none of these

110. It is a chart where activities of more than subject (worker or equipment) are each recorded on a common time scale to show their inter-relationship.

Answer» B. multiple activity charts

[discuss](#)

111.is an assigning job to work centres without considering the work centre's capacity

- A. infinite loading
- B. finite loading
- C. (a) and (b)
- D. none of these

Answer» A. infinite loading

[discuss](#)

112.is the analysis and comparisons of items to group them into families with similar characteristics

- A. mass technology
- B. group technology
- C. independent technology
- D. none of these

Answer» B. group technology

[discuss](#)

113.is one that is capable of producing a variety of products (or parts) with virtually no time lost for changeovers form one product to the next.

- A. a flexible automated system
- B. a fixed automated system
- C. (a) and(b)
- D. none of these

Answer» A. a flexible automated system

[discuss](#)

114. Fixed position layout is also called as..... of layout

- A. project type
- B. product type
- C. (a) and(b)
- D. none of these

Answer» A. project type

[discuss](#)

115. is an information management system that connects all departments and disciplines within a company making them an integrated unit.

- A. enterprise asset management
- B. entrepreneurship development
- C. manpower planning
- D. none of these

Answer» A. enterprise asset management

[discuss](#)

116.is a Computer software programs that allow a designer to carry out geometric transformations rapidly.

- A. tally
- B. computer-aided design
- C. (a) and(b)
- D. none of these

Answer» B. computer-aided design

[discuss](#)

117.is the arrangement of a facility so that equipment used to make similar parts or families of parts is grouped together.

- A.) cellular layout
- B. product lay out
- C. (a) and (b)
- D. none of these

Answer» A.) cellular layout

117.is the arrangement of a facility so that equipment used to make similar parts or families of parts is grouped together.

[discuss](#)

118.is a graphical and algebraic representation of the relationships among volume of output, cost, and revenues.

- A. break mechanism
- B. break-even analysis
- C. fixed analysis
- D. none of these

Answer» B. break-even analysis

[discuss](#)

119.is a technology concerned with the application of mechanical, electronic, and computer based systems to operate and control production

- A. automation
- B. manpower
- C. motivation
- D. supervision

Answer» A. automation

[discuss](#)

120. Specialization of labour in manufacturing is associated with

- A. henry fayol
- B. eli whitney & others
- C. charles babbage
- D. frederick w.taylor

Answer» A. henry fayol

[discuss](#)

121. Interchangeable parts, cost accounting is associated with

- A. adam smith

121.	Interchangeable parts, cost accounting is associated with
B.	eli whitney & others
C.	charles babbage
D.	frederick w.taylor
Answer» B. eli whitney & others	

[discuss](#)

122.	Division of labour by skill; assignment of jobs by Skill; basics of time study are contributed by
A.	adam smith
B.	eli whitney & others
C.	charles babbage
D.	frederick w.taylor
Answer» C. charles babbage	

[discuss](#)

123.	Scientific management, time study and work study are associated with
A.	adam smith
B.	eli whitney & others
C.	charles babbage
D.	frederick w.taylor
Answer» A. adam smith	

[discuss](#)

124.	Motion of study of jobs in production management is contributed by
A.	frank b. gilbreth
B.	henry l. gantt
C.	f.w. harris
D.	elton mayo
Answer» A. frank b. gilbreth	

[discuss](#)

125. Scheduling techniques for employees, machines Jobs in manufacturing are associated with

- A. frank b. gilbreth
- B. henry l. gantt
- C. f.w. harris
- D. elton mayo

Answer» B. henry l. gantt

126. Economic lot sizes for inventory control is developed by

- A. frank b. gilbreth
- B. henry l. gantt
- C. f.w. harris
- D. elton mayo

Answer» C. f.w. harris

[discuss](#)

127. Human relations; the Hawthorne studies is developed by

- A. frank b. gilbreth
- B. henry l. gantt
- C. f.w. harris
- D. elton mayo

Answer» D. elton mayo

[discuss](#)

128. Statistical inference applied to product quality: quality control charts are contributed by

- A. w.a. shewart
- B. h.f.dodge&h.g.roming
- C. p.m.blacker& others
- D. john mauchlly and j.p.eckert

Answer» A. w.a. shewart

[discuss](#)

129. Inspection sampling plans is developed by

- A. w.a. shewart
- B. h.f.dodge&h.g.roming
- C. p.m.blacker& others
- D. john mauchlly and j.p.eckert

Answer» B. h.f.dodge&h.g.roming

[discuss](#)

130. Operations research applications in world war II is contributed by

- A. w.a. shewart
- B. h.f.dodge&h.g.roming
- C. p.m.blacker& others
- D. john mauchlly and j.p.eckert

Answer» C. p.m.blacker& others

[discuss](#)

131. Digital Computer is associated with

- A. w.a. shewart
- B. h.f.dodge&h.g.roming
- C. p.m.blacker& others
- D. john mauchlly and j.p.eckert

Answer» D. john mauchlly and j.p.eckert

[discuss](#)

132. Which of the following is not an input in production system

- A. men
- B. material
- C. money
- D. competition

Answer» D. competition

[discuss](#)

133. Which of the following is a part of production system?

- A. input
- B. output
- C. transformation process
- D. all of these

Answer» D. all of these

[discuss](#)

134. Operations management is part of

- A. management science
- B. natural science
- C. (a) and (b)
- D. none of these

Answer» A. management science

[discuss](#)

135. Resources are in the form of.....

- A. human
- B. material
- C. capital
- D. all of these

Answer» D. all of these

[discuss](#)

136. Which one of the following is not a part of production planning and control?

- A. follow-up
- B. financial leverage
- C. routing
- D. scheduling

136. Which one of the following is not a part of production planning and control?

Answer» B. financial leverage

[discuss](#)

137. Which one of the following is not an objective of materials management?

- A. to minimise material cost.
- B. to purchase, receive, transport and store materials efficiently.
- C. to reduce material costs through simplification, standardisation
- D. to fix cash dividend

Answer» D. to fix cash dividend

[discuss](#)

138. Which one of the following is an objective of maintenance management?

- A. to reduce breakdown of machineries
- B. to keep the machines and other facilities in a good condition.
- C. to keep the plant in good working condition
- D. all of these

Answer» D. all of these

[discuss](#)

139. Operation management department has interaction with

- A. finance department
- B. marketing department
- C. (a) and (b)
- D. none of these

Answer» C. (a) and (b)

[discuss](#)

140. Which of the following factors affect the choice of manufacturing process?

- A. product characteristics
- B. requirements of customers

140. Which of the following factors affect the choice of manufacturing process?

C. availability of capital

D. all of these

Answer» D. all of these

[discuss](#)

141. Which of the following is a production system?

A. continuous system

B. intermittent system

C. project systems

D. all of these

Answer» D. all of these

[discuss](#)

142. Which of the following is incorrect in the case of job production?

A. more variety of products is manufactured as per customer's requirements.

B. volume of production is large.

C. highly skilled employees are required who can take up each job as a challenge.

D. detailed planning is essential for sequencing the requirements of each product.

Answer» B. volume of production is large.

[discuss](#)

143. Which of the following is a part of product life cycle

A. introduction phase

B. growth phase

C. saturation phase

D. all of these

Answer» D. all of these

[discuss](#)

144.	is the process of careful step by step of dismantling of existing product in order to understand its unique underlying concepts
A.	reverse engineering
B.	civil engineering
C.	(a) and (b)
D.	none of these
Answer» A. reverse engineering	

[discuss](#)

145.	refers to the development of the concept or idea of a product in terms of specifications which are required for transforming the idea in to product
A.	product design
B.	product development
C.	(a) and (b)
D.	none of these
Answer» A. product design	

[discuss](#)

146.	refers to the process of creating new products or modifying the existing ones within a predetermined time frame and cost price
A.	product design
B.	product development
C.	market development
D.	none of these
Answer» B. product development	

[discuss](#)

147.	Which of the following technique is employed for measuring work
A.	time study
B.	work sampling
C.	predetermined motion time studies
D.	all of these

147. Which of the following technique is employed for measuring work

Answer» D. all of these

[discuss](#)

148.is the process of determining which job to start first and in what order other jobs should be processed on the machine or in work centre

A. job sequencing

B. priority rules

C. batch production

D. none of these

Answer» A. job sequencing

[discuss](#)

149. Which of the following factors affect capacity planning?

A. type of product

B. type of process

C. skill level of workers

D. all of these

Answer» D. all of these

[discuss](#)

150. Which of the following is an objective of scheduling?

A. meet due dates

B. minimise lead time

C. minimise setup time and set up cost

D. all of these

Answer» D. all of these

FINANCIAL MANAGEMENT

1. All business need to have which fundamental essential element

A. human resources

B. balance sheet

1.	All business need to have which fundamental essential element
C.	labour team
D.	stategy
Answer» D. stategy	

[discuss](#)

2.	Which of the following variable is not known in IRR?
A.	discount rate
B.	terminal inflows
C.	life of the project
D.	intitial cash flows
Answer» A. discount rate	

[discuss](#)

3.	Acccording to the traditional approach what is the effect of increase in degree of leverage on the valuation of the firm
A.	remains unaffected
B.	increase first and then decreases
C.	decreases
D.	increases
Answer» B. increase first and then decreases	

[discuss](#)

4.	The maximum expenses that an equity scheme charge to an investor is
A.	0.025
B.	0.0225
C.	0.0175
D.	0.02
Answer» A. 0.025	

[discuss](#)

5.	The bonds with shorter maturity will have _____ duration
A.	moderate
B.	higher
C.	lower
D.	average
Answer» C. lower	

[discuss](#)

6.	Relaxed or liberal credit implies -credit to customers
A.	higher
B.	both a and b
C.	lower
D.	neither a nor b
Answer» A. higher	

[discuss](#)

73.	Financial Planning deals with:
A.	Preparation of Financial Statements
B.	Planning for a Capital Issue
C.	Preparing Budgets
D.	All of the above
Answer» C. Preparing Budgets	

[discuss](#)

74.	Financial planning starts with the preparation of:
A.	Master Budget
B.	Cash Budget
C.	Balance Sheet
D.	None of the above.
Answer» D. None of the above.	

[discuss](#)

75.	Process of Financial Planning ends with:
A.	Preparation of Projected Statements
B.	Preparation of Actual Statements
C.	Comparison of Actual with Projected
D.	Ordering the employees that projected figures m come true.
Answer» C. Comparison of Actual with Projected	
76.	Capital Budgeting is a part of:
A.	Investment Decision

75.	Process of Financial Planning ends with:
B.	Working Capital Management
C.	Marketing Management
D.	Capital Structure
Answer» A. Investment Decision	

[discuss](#)

77.	Capital Budgeting deals with:
A.	Long-term Decisions
B.	Short-term Decisions
C.	Both (a) and (b)
D.	Neither (a) nor (b)
Answer» A. Long-term Decisions	

[discuss](#)

78.	Which of the following is not used in Capital Budgeting?
A.	Time Value of Money
B.	Sensitivity Analysis
C.	Net Assets Method
D.	Cash Flows.
Answer» C. Net Assets Method	

[discuss](#)

79.	Capital Budgeting Decisions are:
A.	Reversible
B.	Irreversible
C.	Unimportant
D.	All of the above
Answer» B. Irreversible	

[discuss](#)

80.	Which of the following is not incorporated in Capital Budgeting?
A.	Tax-Effect
B.	Time Value of Money
C.	Required Rate of Return
D.	Rate of Cash Discount
Answer» D. Rate of Cash Discount	

[discuss](#)

81.	Which of the following is not a capital budgeting decision?
A.	Expansion Programme
B.	Merger
C.	Replacement of an Asset
D.	Inventory Level
Answer» D. Inventory Level	

[discuss](#)

82.	A sound Capital Budgeting technique is based on:
A.	Cash Flows
B.	Accounting Profit
C.	Interest Rate on Borrowings
D.	Last Dividend Paid
Answer» B. Accounting Profit	

[discuss](#)

83.	Which of the following is not a relevant cost in Capital Budgeting?
A.	Sunk Cost
B.	Opportunity Cost
C.	Allocated Overheads
D.	Both (a) and (c) above.
Answer» D. Both (a) and (c) above.	

[discuss](#)

84. Capital Budgeting Decisions are based on:

- A. Incremental Profit
- B. Incremental Cash Flows
- C. Incremental Assets
- D. Incremental Capital

Answer» B. Incremental Cash Flows

[discuss](#)

85. Which of the following does not effect cash flows proposal?

- A. Salvage Value
- B. Depreciation Amount
- C. Tax Rate Change
- D. Method of Project Financing

Answer» D. Method of Project Financing

[discuss](#)

86. Cash Inflows from a project include:

- A. Tax Shield of Depreciation
- B. After-tax Operating Profits
- C. Raising of Funds
- D. Both (a) and (b)

Answer» D. Both (a) and (b)

[discuss](#)

87. Which of the following is not true with reference capital budgeting?

- A. Capital budgeting is related to asset replacement decisions,
- B. Cost of capital is equal to minimum required return,
- C. Existing investment in a project is not treated as sunk cost,
- D. Timing of cash flows is relevant.

87. Which of the following is not true with reference capital budgeting?

Answer» C. Existing investment in a project is not treated as sunk cost,

[discuss](#)

88. Which of the following is not followed in capital budgeting?

- A. Cash flows Principle
- B. Interest Exclusion Principle
- C. Accrual Principle
- D. Post-tax Principle

Answer» C. Accrual Principle

[discuss](#)

89. Depreciation is incorporated in cash flows because it:

- A. Is unavoidable cost
- B. Is a cash flow
- C. Reduces Tax liability
- D. Involves an outflow

Answer» C. Reduces Tax liability

[discuss](#)

90. Which of the following is not true for capital budgeting?

- A. Sunk costs are ignored,
- B. Opportunity costs are excluded,
- C. Incremental cash flows are considered,
- D. Relevant cash flows are considered

Answer» B. Opportunity costs are excluded,

[discuss](#)

91. Which of the following is not applied in capital budgeting?

- A. Cash flows be calculated in incremental terms
- B. All costs and benefits are measured on cash basis,

91.	Which of the following is not applied in capital budgeting?
C.	All accrued costs and revenues be incorporated,
D.	All benefits are measured on after-tax basis.
Answer» C. All accrued costs and revenues be incorporated,	

[discuss](#)

92.	Evaluation of Capital Budgeting Proposals is based on Cash Flows because:
A.	Cash Flows are easy to calculate
B.	Cash Flows are suggested by SEBI
C.	Cash is more important than profit
D.	None of the above
Answer» C. Cash is more important than profit	

[discuss](#)

93.	Which of the following is not included in incremental A flows?
A.	Opportunity Costs
B.	Sunk Costs
C.	Change in Working Capital
D.	Inflation effect
Answer» B. Sunk Costs	

[discuss](#)

94.	A proposal is not a Capital Budgeting proposal if it:
A.	is related to Fixed Assets
B.	brings long-term benefits
C.	brings short-term benefits only
D.	has very large investment.
Answer» C. brings short-term benefits only	

[discuss](#)

95.	In Capital Budgeting, Sunk cost is excluded because it is:
A.	of small amount
B.	not incremental
C.	not reversible
D.	All of the above
Answer» B. not incremental	

[discuss](#)

96.	Savings in respect of a cost is treated in capital budgeting as:
A.	An Inflow
B.	An Outflow
C.	Nil
D.	None of the above.
Answer» A. An Inflow	

[discuss](#)

97.	In capital budgeting, the term Capital Rationing implies:
A.	That no retained earnings available
B.	That limited funds are available for investment
C.	That no external funds can be raised,
D.	That no fresh investment is required in current year
Answer» B. That limited funds are available for investment	

[discuss](#)

98.	Feasibility Set Approach to Capital Rationing can be applied in:
A.	Accept-Reject Situations
B.	Divisible Projects
C.	Mutually Exclusive Projects
D.	None of the above
Answer» A. Accept-Reject Situations	

[discuss](#)

99. In case of divisible projects, which of the following can be used to attain maximum NPV?

- A. Feasibility Set Approach
- B. Internal Rate of Return
- C. Profitability Index Approach
- D. Any of the above

Answer» C. Profitability Index Approach

[discuss](#)

100. In case of the indivisible projects, which of the following may not give the optimum result?

- A. Internal Rate of Return
- B. Profitability Index
- C. Feasibility Set Approach
- D. All of the above

Answer» C. Feasibility Set Approach

101. Profitability Index, when applied to Divisible Projects, impliedly assumes that:

- A. Project cannot be taken in parts
- B. NPV is linearly proportionate to part of the project taken up
- C. NPV is additive in nature
- D. Both (b) and (c)

Answer» D. Both (b) and (c)

[discuss](#)

102. If there is no inflation during a period, then the Money Cashflow would be equal to:

- A. Present Value
- B. Real Cash flow
- C. Real Cash flow + Present Value
- D. Real Cash flow - Present Value

Answer» B. Real Cash flow

102. If there is no inflation during a period, then the Money Cashflow would be equal to:

[discuss](#)

103. The Real Cashflows must be discounted to get the present value at a rate equal to:

- A. Money Discount Rate
- B. Inflation Rate
- C. Real Discount Rate
- D. Risk free rate of interest

Answer» C. Real Discount Rate

[discuss](#)

104. Real rate of return is equal to:

- A. Nominal Rate $\times$ Inflation Rate
- B. Nominal Rate $\div$ Inflation Rate
- C. Nominal Rate - Inflation Rate
- D. Nominal Rate + Inflation Rate

Answer» B. Nominal Rate $\div$ Inflation Rate

[discuss](#)

105. If the Real rate of return is 10% and Inflation s Money Discount Rate is:

- A. 14.4%
- B. 2.5%
- C. 25%
- D. 14%

Answer» A. 14.4%

[discuss](#)

106. If the Money Discount Rate is 19% and Inflation Rate is 12%, then the Real Discount Rate is:

- A. 7%
- B. 5%

106. If the Money Discount Rate is 19% and Inflation Rate is 12%, then the Real Discount Rate is:

C. 5.70%

D. 6.25%

Answer» D. 6.25%

[discuss](#)

107. Money Discount Rate if equal to:

A. $(1 + \text{Inflation Rate}) (1 + \text{Real Rate}) - 1$

B. $(1 + \text{Inflation Rate}) - (1 + \text{Real Rate}) - 1$

C. $(1 + \text{Real Rate}) - (1 + \text{Inflation Rate}) - 1$

D. $(1 + \text{Real Rate}) + (1 + \text{Inflation Rate}) - 1$

Answer» A. $(1 + \text{Inflation Rate}) (1 + \text{Real Rate}) - 1$

[discuss](#)

108. Real Discount Rate is equal to:

A. $(1 + \text{Inf. Rate}) (1 + \text{Money D Rate}) - 1$

B. $(1 + \text{Money D Rate}) + (1 + \text{Inf. Rate}) - 1$

C. $(1 + \text{Money D Rate}) - (1 + \text{Inf. Rate}) - 1$

D. $(1 + \text{Money D Rate}) - (1 + \text{Inf. Rate}) - 1$

Answer» C. $(1 + \text{Money D Rate}) - (1 + \text{Inf. Rate}) - 1$

[discuss](#)

109. Two mutually exclusive projects with different economic lives can be compared on the basis of

A. Internal Rate of Return

B. Profitability Index

C. Net Present Value

D. Equivalent Annuity Value

Answer» D. Equivalent Annuity Value

[discuss](#)

110. Risk in Capital budgeting implies that the decision-maker knows_____ of the cash flows.

- A. Variability
- B. Probability
- C. Certainty
- D. None of the above

Answer» B. Probability

[discuss](#)

111. In Certainty-equivalent approach, adjusted cash flows are discounted at:

- A. Accounting Rate of Return
- B. Internal Rate of Return
- C. Hurdle Rate
- D. Risk-free Rate

Answer» D. Risk-free Rate

[discuss](#)

112. Risk in Capital budgeting is same as:

- A. Uncertainty of Cash flows
- B. Probability of Cash flows
- C. Certainty of Cash flows
- D. Variability of Cash flows

Answer» D. Variability of Cash flows

[discuss](#)

113. Which of the following is a risk factor in capital budgeting?

- A. Industry specific risk factors
- B. Competition risk factors
- C. Project specific risk factors
- D. All of the above

Answer» D. All of the above

[discuss](#)

114. In Risk-Adjusted Discount Rate method, the normal rate of discount is:

- A. Increased
- B. Decreased
- C. Unchanged
- D. None of the above

Answer» A. Increased

[discuss](#)

115. In Risk-Adjusted Discount Rate method, which one is adjusted?

- A. Cash flows
- B. Life of the proposal
- C. Rate of discount
- D. Salvage value

Answer» C. Rate of discount

[discuss](#)

116. NPV of a proposal, as calculated by RADR real CE Approach will be:

- A. Same
- B. Unequal
- C. Both (a) and (b)
- D. None of (a) and (b)

Answer» B. Unequal

[discuss](#)

117. Risk of a Capital budgeting can be incorporated

- A. Adjusting the Cash flows
- B. Adjusting the Discount Rate
- C. Adjusting the life
- D. All of the above

117. Risk of a Capital budgeting can be incorporated

Answer» D. All of the above

[discuss](#)

118. Which element of the basic NPV equation is adjusted by the RADR?

- A. Denominator
- B. Numerator
- C. Both
- D. None

Answer» A. Denominator

[discuss](#)

119. Cost of Capital refers to:

- A. Flotation Cost
- B. Dividend
- C. Required Rate of Return
- D. None of the above.

Answer» B. Dividend

[discuss](#)

120. Which of the following sources of funds has an Implicit Cost of Capital?

- A. Equity Share Capital
- B. Preference Share Capital
- C. Debentures
- D. Retained earnings

Answer» D. Retained earnings

[discuss](#)

121. Which of the following has the highest cost of capital?

- A. Equity shares
- B. Loans

121. Which of the following has the highest cost of capital?

C. Bonds

D. Preference shares

Answer» A. Equity shares

[discuss](#)

122. Cost of Capital for Government securities is also known as:

A. Risk-free Rate of Interest

B. Maximum Rate of Return

C. Rate of Interest on Fixed Deposits

D. None of the above

Answer» A. Risk-free Rate of Interest

[discuss](#)

123. Cost of Capital for Bonds and Debentures is calculated on:

A. Before Tax basis

B. After Tax basis

C. Risk-free Rate of Interest basis

D. None of the above.

Answer» B. After Tax basis

[discuss](#)

124. Weighted Average Cost of Capital is generally denoted by:

A. k_A

B. k_w

C. k_0

D. k_c

Answer» C. k_0

[discuss](#)

125. Which of the following cost of capital require tax adjustment?

- A. Cost of Equity Shares
- B. Cost of Preference Shares
- C. Cost of Debentures
- D. Cost of Retained Earnings.

Answer» C. Cost of Debentures

126. Which is the most expensive source of funds?

- A. New Equity Shares
- B. New Preference Shares
- C. New Debts
- D. Retained Earnings

Answer» A. New Equity Shares

[discuss](#)

127. Marginal cost of capital is the cost of:

- A. Additional Sales
- B. Additional Funds
- C. Additional Interests
- D. None of the above.

Answer» B. Additional Funds

[discuss](#)

128. In case the firm is all-equity financed, WACC would be equal to

- A. Cost of Debt
- B. Cost of Equity
- C. Neither (a) nor (b)
- D. Both (a) and (b)

Answer» B. Cost of Equity

[discuss](#)

129. In case of partially debt-financed firm, k_0 is less

- A. K_d
- B. K_e
- C. Both (a) and (b)
- D. None of the above

Answer» B. K_e

[discuss](#)

130. In order to calculate Weighted Average Cost of weights may be based on:

- A. Market Values
- B. Target Values
- C. Book Values
- D. All of the above

Answer» D. All of the above

[discuss](#)

131. Firm's Cost of Capital is the average cost of:

- A. All sources
- B. All borrowings
- C. Share capital
- D. Share Bonds & Debentures

Answer» A. All sources

[discuss](#)

132. An implicit cost of increasing proportion of debt is:

- A. Tax should would not be available on new debt
- B. P.E. Ratio would increase
- C. Equity shareholders would demand higher return
- D. Rate of Return of the company would decrease

Answer» C. Equity shareholders would demand higher return

[discuss](#)

133. Cost of Redeemable Preference Share Capital is:

- A. Rate of Dividend
- B. After Tax Rate of Dividend
- C. Discount Rate that equates PV of inflows and out-flows relating to capital
- D. None of the above

Answer» C. Discount Rate that equates PV of inflows and out-flows relating to capital

[discuss](#)

134. Which of the following is true?

- A. Retained earnings are cost free
- B. External Equity is cheaper than Internal Equity
- C. Retained Earnings are cheaper than External Equity
- D. Retained Earnings are costlier than External Equity

Answer» C. Retained Earnings are cheaper than External Equity

[discuss](#)

135. Cost of capital may be defined as:

- A. Weighted Average cost of all debts
- B. Rate of Return expected by Equity Shareholders
- C. Average IRR of the Projects of the firm
- D. Minimum Rate of Return that the firm should earn

Answer» D. Minimum Rate of Return that the firm should earn

[discuss](#)

136. Minimum Rate of Return that a firm must earn in order to satisfy its investors, is also known as:

- A. Average Return on Investment
- B. Weighted Average Cost of Capital
- C. Net Profit Ratio
- D. Average Cost of borrowing

136. Minimum Rate of Return that a firm must earn in order to satisfy its investors, is also known as:

Answer» B. Weighted Average Cost of Capital

[discuss](#)

137. Cost Capital for Equity Share Capital does not imply that:

- A. Market Price is equal to Book Value of share,
- B. Shareholders are ready to subscribe to right issue,
- C. .Market Price is more than Issue Price,
- D. AC of the three above.

Answer» D. AC of the three above.

[discuss](#)

138. In order to calculate the proportion of equity financing used by the company, the following should be used:

- A. Authorised Share Capital,
- B. Equity Share Capital plus Reserves and Surplus,
- C. Equity Share Capital plus Preference Share Capital,
- D. Equity Share Capital plus Long-term Debt.

Answer» B. Equity Share Capital plus Reserves and Surplus,

[discuss](#)

139. The term capital structure denotes:

- A. Total of Liability side of Balance Sheet,
- B. Equity Funds, Preference Capital and Long term Debt
- C. Total Shareholders Equity,
- D. Types of Capital Issued by a Company.

Answer» B. Equity Funds, Preference Capital and Long term Debt

[discuss](#)

140. Debt Financing is a cheaper source of finance because of:

- A. Time Value of Money
- B. Rate of Interest,

140. Debt Financing is a cheaper source of finance because of:

- C. Tax-deductibility of Interest
- D. Dividends not Payable to lenders.

Answer» C. Tax-deductibility of Interest

[discuss](#)

141. In order to find out cost of equity capital under CAPM, which of the following is not required:

- A. Beta Factor
- B. Market Rate of Return,
- C. Market Price of Equity Share
- D. Risk-free Rate of Interest.

Answer» C. Market Price of Equity Share

[discuss](#)

142. Tax-rate is relevant and important for calculation of specific cost of capital of:

- A. Equity Share Capital
- B. Preference Share Capital
- C. Debentures
- D. (a) and (b) above.

Answer» C. Debentures

[discuss](#)

143. Advantage of Debt financing is

- A. Interest is tax-deductible
- B. It reduces WACC
- C. Does not dilute owners control
- D. All of the above.

Answer» D. All of the above.

[discuss](#)

144. Cost of issuing new shares to the public is known as:

- A. Cost of Equity
- B. Cost of Capital
- C. Flotation Cost
- D. Marginal Cost of Capital.

Answer» C. Flotation Cost

[discuss](#)

145. Cost of Equity Share Capital is more than cost of debt because:

- A. Face value of debentures is more than face value of shares,
- B. Equity shares have higher risk than debt,
- C. Equity shares are easily saleable
- D. All of the three above.

Answer» B. Equity shares have higher risk than debt,

[discuss](#)

146. Which of the following is not a generally accepted approach for Calculation of Cost of Equity?

- A. CAPM
- B. Dividend Discount Model
- C. Rate of Pref. Dividend Plus Risk
- D. Price-Earnings Ratio

Answer» C. Rate of Pref. Dividend Plus Risk

[discuss](#)

147. Operating leverage helps in analysis of:

- A. Business Risk
- B. Financing Risk
- C. Production Risk
- D. Credit Risk

Answer» A. Business Risk

[discuss](#)

148. Which of the following is studied with the help of financial leverage?

- A. Marketing Risk
- B. Interest Rate Risk
- C. Foreign Exchange Risk
- D. Financing risk

Answer» D. Financing risk

[discuss](#)

149. Combined Leverage is obtained from OL and FL by their:

- A. Addition
- B. Subtraction
- C. Multiplication
- D. Any of these

Answer» C. Multiplication

[discuss](#)

150. High degree of financial leverage means:

- A. High debt proportion
- B. Lower debt proportion
- C. Equal debt and equity
- D. No debt

Answer» A. High debt proportion

OPERATIONS RESEARCH

1. _____ are entities whose value is determined from the solution of LPP

- A. objective function
- B. decision variable
- C. constraints
- D. opportunity cost

Answer» A. objective function

1.	_____are entities whose value is determined from the solution of LPP

[discuss](#)

2.	The region of feasible solution in LPP graphical method is called _____
----	---

- | | |
|----|-------------------|
| A. | infeasible region |
| B. | unbounded region |
| C. | infinite region |
| D. | feasible region |

Answer» D. feasible region

3.	The outgoing variable row in the simplex table is called _____
----	--

- | | |
|----|-------------------|
| A. | outgoing row |
| B. | key row |
| C. | basic row |
| D. | interchanging row |

Answer» C. basic row

[discuss](#)

4.	When the solution is degenerate in transportation problem, we add a _
----	---

- | | |
|----|---------|
| A. | dummy |
| B. | epsilon |
| C. | penalty |
| D. | regret |

Answer» B. epsilon

[discuss](#)

5.	_____method is used in Assignment Problem
----	---

- | | |
|----|------|
| A. | ncwr |
| B. | lcm |

5.	_____method is used in Assignment Problem
C.	vam
D.	hungarian
Answer» D. hungarian	

[discuss](#)

6.	The longest path in the network diagram is called _____
A.	head path
B.	sub path
C.	critical path
D.	sub critical path
Answer» C. critical path	

[discuss](#)

7.	IF the Minimax are (10,18,16) and Maximin are (8,10,7). The saddle point is _____
A.	7
B.	10
C.	18
D.	8
Answer» B. 10	

[discuss](#)

8.	Pick the wrong relationship:
A.	interfering float = total float – free float
B.	total float =free float + independent float
C.	total float $\geq$ free float $\geq$ independent float
D.	free float = total float – head event slack
Answer» B. total float =free float + independent float	

[discuss](#)

9.	The shortest time in the PERT is called _____time
A.	expected
B.	pessimistic
C.	optimistic
D.	most likely
Answer» C. optimistic	

[discuss](#)

10.	The total time required to complete all the jobs in a job sequence problem is known as _____
A.	processing order
B.	idle time
C.	processing time
D.	elapsed time
Answer» D. elapsed time	

[discuss](#)

11.	Operations Research Models in which values of all variables and all possible outcomes are known with certainty are called models.
A.	physical
B.	symbolic
C.	deterministic
D.	probabilistic
Answer» C. deterministic	

[discuss](#)

12.	Operations Research Models in which some or all variables are random in nature are called models.
A.	physical
B.	symbolic
C.	deterministic
D.	probabilistic
Answer» D. probabilistic	

12.	Operations Research Models in which some or all variables are random in nature are called models.

[discuss](#)

13.	_____ and are techniques applied in project management.
-----	--

A.	cpm and pert
----	--------------

B.	assignment & transportation
----	-----------------------------

C.	game theory
----	-------------

D.	decision theory & inventory models
----	------------------------------------

Answer» A. cpm and pert

[discuss](#)

14.	_____ are the entities whose values are to be determined from the solution of the LPP.
-----	---

A.	objective function
----	--------------------

B.	decision variables
----	--------------------

C.	constraints
----	-------------

D.	opportunity cost
----	------------------

Answer» B. decision variables

[discuss](#)

15.	_____ specifies the objective or goal of solving the LPP.
-----	--

A.	objective function
----	--------------------

B.	decision variables
----	--------------------

C.	constraints
----	-------------

D.	opportunity cost
----	------------------

Answer» A. objective function

[discuss](#)

16.	_____ are the restrictions or limitations imposed on the LPP.
-----	--

A.	objective function
----	--------------------

B.	variables
----	-----------

16.	_are the restrictions or limitations imposed on the LPP.
C.	constraints
D.	profit
Answer» C. constraints	

[discuss](#)

17.	When it is not possible to find solution in LPP, it is called as solution
A.	infeasible
B.	unbounded
C.	improper
D.	unknown
Answer» A. infeasible	

[discuss](#)

18.	In case of a ‘ ’ constraint, the feasible region is a straight line.
A.	less than or equal to
B.	greater than or equal to
C.	mixed
D.	equal to
Answer» D. equal to	

[discuss](#)

19.	In linear programming, unbounded solution means solution.
A.	infeasible
B.	infinite
C.	unique
D.	degenerate
Answer» B. infinite	

[discuss](#)

20.	The incoming variable column in the simplex algorithm is called .
A.	key column
B.	incoming column
C.	important column
D.	variable column
Answer» A. key column	

[discuss](#)

21.	The intersection value of key column and key row is called
A.	vital element
B.	important element
C.	basic element
D.	key element
Answer» D. key element	

[discuss](#)

22.	The variable added to the LHS of a less than or equal to constraint to convert it into equality is called variable.
A.	surplus
B.	artificial
C.	slack
D.	additional
Answer» C. slack	

[discuss](#)

23.	A resource which is completely utilized is called in simplex
A.	null resource
B.	scarce resource
C.	abundant resource
D.	zero resource
Answer» B. scarce resource	

[discuss](#)

24. In simplex, a minimization problem is optimal when all Delta J, i.e. $C_j - Z_j$ values are .

- A. either zero or positive
- B. either zero or negative
- C. only positive
- D. only negative

Answer» A. either zero or positive

[discuss](#)

25. To find initial feasible solution of a transportation problem the method which starts allocation from the lowest cost is called method

- A. vogel's approximation method
- B. nwcr
- C. lcm
- D. modi

Answer» C. lcm

26. When the total of allocations of a transportation problem match with supply and demand values, the solution is called solution.

- A. infeasible solution
- B. feasible solution
- C. optimum solution
- D. degenerate solution

Answer» B. feasible solution

[discuss](#)

27. When the allocations of a transportation problem satisfy the rim condition $(m + n - 1)$ the solution is called

- A. infeasible solution
- B. feasible solution
- C. non degenerate solution
- D. degenerate solution

Answer» C. non degenerate solution

27. When the allocations of a transportation problem satisfy the rim condition $(m + n - 1)$ the solution is called

[discuss](#)

28. Which of the following considers difference between two least costs for each row and column while finding initial basic feasible solution in transportation?

- A. vam
- B. nwcr
- C. modi
- D. lcm

Answer» A. vam

[discuss](#)

29. If the number of rows and columns in an assignment problem are not equal than it is called problem.

- A. balanced
- B. unbalanced
- C. infeasible
- D. unbounded

Answer» B. unbalanced

[discuss](#)

30. The method used for solving an assignment problem is called method.

- A. vam
- B. nwcr
- C. modi
- D. hungarian

Answer» D. hungarian

[discuss](#)

31. When a maximization assignment problem is converted in minimization problem, the resulting matrix is called matrix.

- A. cost

31. When a maximization assignment problem is converted in minimization problem, the resulting matrix is called matrix.

B. regret

C. profit

D. dummy

Answer» B. regret

[discuss](#)

32. The longest path in the network diagram is called path

A. critical

B. sub-critical

C. best

D. worst

Answer» A. critical

[discuss](#)

33. Backward pass calculations are done to find occurrence times of events.

A. tentative

B. definite

C. latest

D. earliest

Answer» C. latest

[discuss](#)

34. The order in which machines are required for completing the jobs is called

A. machines order

B. job order

C. processing order

D. working order

Answer» C. processing order

[discuss](#)

35. The time during which a machine remains waiting or vacant in sequencing problem is called time.

- A. processing
- B. waiting
- C. free
- D. idle

Answer» D. idle

[discuss](#)

36. In linear programming represents mathematical equation of the limitations imposed by the problem.

- A. objective function
- B. decision variables
- C. constraints
- D. opportunity cost

Answer» C. constraints

[discuss](#)

37. The type of constraint which specifies maximum capacity of a resource is 'or equal to' constraint.

- A. less than
- B. greater than
- C. not greater than
- D. not less than

Answer» A. less than

[discuss](#)

38. The region of feasible solution in LPP graphical method is called region

- A. infeasible
- B. infinite
- C. unbounded
- D. feasible

38.	The region of feasible solution in LPP graphical method is called region

Answer» D. feasible

[discuss](#)

39.	When the constraints are a mix of 'less than' and 'greater than' it is a problem having .
-----	--

A.	multiple constraints
----	----------------------

B.	infinite constraints
----	----------------------

C.	infeasible constraints
----	------------------------

D.	mixed constraints
----	-------------------

Answer» D. mixed constraints

[discuss](#)

40.	The outgoing variable row in the simplex algorithm is called .
-----	---

A.	outgoing row
----	--------------

B.	key row
----	---------

C.	interchanging row
----	-------------------

D.	basic row
----	-----------

Answer» B. key row

[discuss](#)

41.	A resource which is partially utilized is called in simplex.
-----	---

A.	null resource
----	---------------

B.	scarce resource
----	-----------------

C.	abundant resource
----	-------------------

D.	zero resource
----	---------------

Answer» C. abundant resource

[discuss](#)

42.	The value of one extra unit of resource is called in simplex.
-----	--

A.	unit price
----	------------

42.	The value of one extra unit of resource is called in simplex.
B.	extra price
C.	retail price
D.	shadow price
Answer» D. shadow price	

[discuss](#)

43.	In simplex, a maximization problem is optimal when all Delta J, i.e. $C_j - Z_j$ values are .
A.	either zero or positive
B.	either zero or negative
C.	only positive
D.	only negative
Answer» B. either zero or negative	

[discuss](#)

44.	In a transportation problem, the method of penalties is called method.
A.	vogel's approximation method
B.	nwcr
C.	lcm
D.	modi
Answer» A. vogel's approximation method	

[discuss](#)

45.	When there is a degeneracy in the transportation problem, we add an imaginary allocation called in the solution.
A.	dummy
B.	penalty
C.	regret
D.	epsilon
Answer» D. epsilon	

[discuss](#)

46. If $M + N - 1$ = Number of allocations in transportation, it means . (Where 'M' is number of rows and 'N' is number of columns)

- A. there is no degeneracy
- B. degeneracy exists
- C. solution is optimum
- D. problem is balanced

Answer» A. there is no degeneracy

[discuss](#)

47. An activity whose start or end cannot be delayed without affecting total project completion time is called activity.

- A. dummy
- B. non-critical
- C. important
- D. critical

Answer» D. critical

[discuss](#)

48. Floats for critical activities will be always be .

- A. one
- B. zero
- C. highest
- D. equal to duration

Answer» B. zero

[discuss](#)

49. The shortest possible completion time of an activity in PERT is called time.

- A. optimistic
- B. pessimistic
- C. expected
- D. most likely

Answer» A. optimistic

[discuss](#)

50. The total time required to complete all the jobs in a job sequencing problem is known as .

- A. processing time
- B. waiting time
- C. elapsed time
- D. idle time

Answer» C. elapsed time

51. The participants in a game are called .

- A. invitees
- B. players
- C. contestants
- D. clients

Answer» B. players

[discuss](#)

52. The outcome of the interaction of selected strategies of opponents in a game is called .

- A. income
- B. profit
- C. payoff
- D. gains

Answer» C. payoff

[discuss](#)

53. In a game, the alternatives or courses of action available to each player are called .

- A. choices
- B. strategies
- C. options
- D. actions

Answer» B. strategies

53. In a game, the alternatives or courses of action available to each player are called .

[discuss](#)

54. A situation in a game where, in the payoff matrix, maximin of row is equal to minimax of column is called .

- A. centre point
- B. saddle point
- C. main point
- D. equal point

Answer» B. saddle point

[discuss](#)

55. If there are or more decision variables in a LPP, SIMPLEX method is used.

- A. 2
- B. 3
- C. 1
- D. 4

Answer» B. 3

[discuss](#)

56. If $5y = 30$, then the line is

- A. parallel to x axis
- B. parallel to y axis
- C. passes through the origin
- D. intersects both the axis

Answer» A. parallel to x axis

[discuss](#)

57. Operations Research techniques are in nature.

- A. qualitative
- B. quantitative

57.	Operations Research techniques are in nature.
C.	judgmental
D.	subjective
Answer» B. quantitative	

[discuss](#)

58.	Forward pass calculations are done to find occurrence times of events.
A.	exact
B.	earliest
C.	latest
D.	approximate
Answer» B. earliest	

[discuss](#)

59.	The second longest path in the network diagram is called Path.
A.	alternate
B.	feasible solution
C.	critical
D.	sub-critical
Answer» D. sub-critical	

[discuss](#)

60.	When a particular assignment in the given problem is not possible or restricted as a condition, it is called a problem.
A.	degenerate
B.	prohibited
C.	infeasible
D.	unbalanced
Answer» B. prohibited	

[discuss](#)

61.	Operations Research (OR) , which is a very powerful tool for -----
A.	Research
B.	Decision – Making
C.	Operations
D.	None of the above
Answer» B. Decision – Making	

[discuss](#)

62.	Who coined the term Operations Research?
A.	J.F. McCloskey
B.	F.N. Trefethen
C.	P.F. Adams
D.	Both A and B
Answer» D. Both A and B	

[discuss](#)

63.	The term Operations Research was coined in the year -----
A.	1950
B.	1940
C.	1978
D.	1960
Answer» B. 1940	

[discuss](#)

64.	This innovative science of Operations Research was discovered during -----
A.	Civil War
B.	World War I
C.	World War II
D.	Industrial Revolution
Answer» C. World War II	

[discuss](#)

65. Operations Research was known as an ability to win a war without really going in to a -----

- A. Battle field
- B. Fighting
- C. War
- D. Both A and B

Answer» D. Both A and B

[discuss](#)

66. Who defined Operations Research as scientific method of providing executive departments with a quantitative basis for decisions regarding the operations under their control?

- A. Morse and Kimball (1946)
- B. P.M.S. Blackett (1948)
- C. E.L. Arnoff and M.J. Netzorg
- D. None of the above

Answer» A. Morse and Kimball (1946)

[discuss](#)

67. Who defined Operations Research as scientific approach to problem solving for executive management ?

- A. E.L. Arnoff
- B. P.M.S. Blackett
- C. H.M. Wagner
- D. None of the above

Answer» C. H.M. Wagner

[discuss](#)

68. Who defined Operations Research as an aid for the executive in marketing his decisions by providing him with the quantitative information based on the scientific method of analysis ?

- A. C. Kitte
- B. H.M. Wagner

68. Who defined Operations Research as an aid for the executive in marketing his decisions by providing him with the quantitative information based on the scientific method of analysis ?

C. E.L. Arnoff

D. None of the above

Answer» A. C. Kitte

[discuss](#)

69. Operations Research has the characteristics the it is done by a team of -----

A. Scientists

B. Mathematicians

C. Academics

D. All of the above

Answer» A. Scientists

[discuss](#)

70. There is a great scope for ----- working as a team to solve problems of defence by using the Operations Research approach

A. Economists

B. Administrators

C. Statisticians and Technicians

D. All of the above

Answer» D. All of the above

[discuss](#)

71. Operations Research emphasizes on the overall approach to the system. This charecteristics of Operations Research is often referred as

A. System Orientation

B. System Approach

C. Interdisciplinary Team Approach

D. none

Answer» D. none

[discuss](#)

72.	Operations Research cannot give perfect ----- to problems
A.	Answers
B.	Solutions
C.	Both A and B
D.	Decisions
Answer» C. Both A and B	

[discuss](#)

73.	Operations Research simply helps in improving the ----- of the solution but does not result in a perfect solution.
A.	Quality
B.	Clarity
C.	Look
D.	None of the above
Answer» A. Quality	

[discuss](#)

74.	Operations Research involves ----- attack of complex problems to arrive at the optimum solution
A.	Scientific
B.	Systematic
C.	Both A and B
D.	Statistical
Answer» C. Both A and B	

[discuss](#)

75.	Operations Research uses models built by quantitative measurement of the variables c a given problem and also derives a solution from the model using ----- of the diversified solution techniques concerning
A.	Two or more
B.	One or more
C.	Three or more
D.	Only One

75. Operations Research uses models built by quantitative measurement of the variables c a given problem and also derives a solution from the model using ----- of the diversified solution techniques concerning

Answer» B. One or more

76. A solution may be extracted from a model either by

A. Conducting experiments on it

B. Mathematical analysis

C. Both A and B

D. Diversified Techniques

Answer» C. Both A and B

[discuss](#)

77. Operations Research uses models to help the management to determine its - ----- scientifically

A. Policies

B. Actions

C. Both A and B

D. None of the above

Answer» C. Both A and B

[discuss](#)

78. Operations Research is a -----

A. Science

B. Art

C. Mathematics

D. Both A and B

Answer» D. Both A and B

[discuss](#)

79. What have been constructed for Operations Research problems and methods for solving the models that are available in many cases?

A. Scientific Models

B. Algorithms

79. What have been constructed for Operations Research problems and methods for solving the models that are available in many cases?

C. Mathematical Models

D. None of the above

Answer» C. Mathematical Models

[discuss](#)

80. Which technique is used in finding a solution for optimizing a given objective, such as profit maximization or cost minimization under certain constraints?

A. Quailing Theory

B. Waiting Line

C. Both A and B

D. Linear Programming

Answer» D. Linear Programming

[discuss](#)

81. What aims at optimizing inventory levels?

A. Inventory Control

B. Inventory Capacity

C. Inventory Planning

D. None of the above

Answer» C. Inventory Planning

[discuss](#)

82. What can be defined as a useful idle resource which has economic value eg; raw materials, spare parts, finished items, etc?

A. Inventory Control

B. Inventory

C. Inventory Planning

D. None of the above

Answer» B. Inventory

[discuss](#)

83.	Which theory concerns making sound decisions under conditions of certainty, risk and uncertainty
A.	Game Theory
B.	Network Analysis
C.	Decision Theory
D.	None of the above
Answer» C. Decision Theory	

[discuss](#)

84.	Key concept under which technique are network of events and activities , resource allocation, time and cost considerations, network paths and critical paths ?
A.	Game Theory
B.	Network Analysis
C.	Decision Theory
D.	None of the above
Answer» B. Network Analysis	

[discuss](#)

85.	Which technique is used to imitate an operation prior to actual performance ?
A.	Simulation
B.	Integrated Production Models
C.	Inventory Control
D.	Game Theory
Answer» A. Simulation	

[discuss](#)

86.	What is concerned with the prediction of replacement costs and determination of the most economic replacement policy ?
A.	Search Theory
B.	Theory of replacement
C.	Probabilistic Programming
D.	None of the above

86. What is concerned with the prediction of replacement costs and determination of the most economic replacement policy ?

Answer» B. Theory of replacement

[discuss](#)

87. What refers to Linear Programming that includes an evaluation of relative risks and uncertainties in various alternatives of choice for management decisions ?

- A. Probabilistic Programming
- B. Stochastic Programming
- C. Both A and B
- D. Linear Programming

Answer» C. Both A and B

[discuss](#)

88. What enables us to determine the earliest and the latest times for each of the events and activities and thereby helps in the identification of the critical path?

- A. Programme Evaluation
- B. Review Technique (PERT)
- C. Both A and B
- D. Deployment of resources

Answer» C. Both A and B

[discuss](#)

89. Linear Programming technique is used to allocate scarce resources in an optimum manner in problems of ----- ?

- A. Schedule
- B. Product Mix
- C. Both A and B
- D. Servicing Cost

Answer» C. Both A and B

[discuss](#)

90.	Operations Research techniques helps the directing authority in optimum allocation of various limited resources, such as -----
A.	Men and Machine
B.	Money
C.	Material and Time
D.	All of the above
Answer» D. All of the above	

[discuss](#)

91.	Operations Research study generally involves how many phases ?
A.	Three
B.	Four
C.	Five
D.	Two
Answer» A. Three	

[discuss](#)

92.	----- models involves the allocation of resources to activities in such a manner that some measure of effectiveness is optimized.
A.	Sequencing
B.	Allocation Models
C.	Queuing Theory
D.	Decision Theory
Answer» B. Allocation Models	

[discuss](#)

93.	Allocation problems can be solved by
A.	Linear Programming Technique
B.	Non – Linear Programming Technique
C.	Both A and B
D.	None of the above
Answer» C. Both A and B	

[discuss](#)

94. In ----- models, everything is defined and the results are certain,

- A. Deterministic Models
- B. Probabilistic Models
- C. Both A and B
- D. None of the above

Answer» A. Deterministic Models

[discuss](#)

95. In ----- models there is risk and uncertainty

- A. Deterministic Models
- B. Probabilistic Models
- C. Both A and B
- D. None of the above

Answer» B. Probabilistic Models

[discuss](#)

96. ----- models are obtained by enlarging or reducing the size of the item

- A. Iconic Models
- B. Analogue Models
- C. Symbolic Models
- D. None of the above

Answer» A. Iconic Models

[discuss](#)

97. Operations Research attempts to find the best and ----- solution to a problem

- A. Optimum
- B. Perfect
- C. Degenerate
- D. None of the above

97. Operations Research attempts to find the best and ----- solution to a problem

Answer» A. Optimum

[discuss](#)

98. The word ----- may be defined as some action that we apply to some problems or hypothesis.

A. Research

B. Operation

C. Both A and B

D. None of the above

Answer» B. Operation

[discuss](#)

99. The operations Research technique, specially used to determine the optimum strategy is

A. Decision Theory

B. Simulation

C. Game Theory

D. None of the above

Answer» B. Simulation

[discuss](#)

100. The operations Research technique which helps in minimizing total waiting and service costs is

A. Queuing Theory

B. Decision Theory

C. Both A and B

D. None of the above

Answer» A. Queuing Theory

101. ----- are the representation of reality

A. Models

B. Phases

100.	The operations Research technique which helps in minimizing total waiting and service costs is
C.	Both A and B
D.	None of the above
Answer» A. Models	

[discuss](#)

102.	----- are called mathematical models
A.	Iconic Models
B.	Analogue Models
C.	Symbolic Models
D.	None of the above
Answer» C. Symbolic Models	

[discuss](#)

103.	It is not easy to make any modification or improvement in
A.	Iconic Models
B.	Analogue Models
C.	Symbolic Models
D.	None of the above
Answer» C. Symbolic Models	

[discuss](#)

104.	In ----- models one set of properties is used to represent another set of properties
A.	Iconic Models
B.	Analogue Models
C.	Symbolic Models
D.	None of the above
Answer» A. Iconic Models	

[discuss](#)

105. Allocation Models are -----

- A. Iconic models
- B. Analogue Models
- C. Symbolic Models
- D. None of the above

Answer» C. Symbolic Models

[discuss](#)

106. Probabilistic models are also known as

- A. Deterministic Models
- B. Stochastic Models
- C. Dynamic Models
- D. Static Models

Answer» B. Stochastic Models

[discuss](#)

107. ----- models assumes that the values of the variables do not change with time during a particular period

- A. Static Models
- B. Dynamic Models
- C. Both A and B
- D. None of the above

Answer» A. Static Models

[discuss](#)

108. A ----- models considers time as one of the important variable

- A. Static Models
- B. Dynamic Models
- C. Both A and B
- D. None of the above

Answer» B. Dynamic Models

[discuss](#)

109. Replacement Model is a ----- model

- A. Static Models
- B. Dynamic Models
- C. Both A and B
- D. None of the above

Answer» B. Dynamic Models

[discuss](#)

110. ----- may be defined as a method of determining an optimum programme inter dependent activities in view of available resources

- A. Goal Programming
- B. Linear Programming
- C. Decision Making
- D. None of the above

Answer» B. Linear Programming

[discuss](#)

111. ----- are expressed in the form of inequities or equations

- A. Constraints
- B. Objective Functions
- C. Both A and B
- D. None of the above

Answer» A. Constraints

[discuss](#)

112. The objective functions and constraints are linear relationship between -----

- A. Variables
- B. Constraints
- C. Functions
- D. All of the above

112. The objective functions and constraints are linear relationship between -----

Answer» A. Variables

[discuss](#)

113. Assignment problem helps to find a maximum weight identical in nature in a weighted -----

- A. Tripartite graph
- B. Bipartite graph
- C. Partite graph
- D. None of the above

Answer» B. Bipartite graph

[discuss](#)

114. All the parameters in the linear programming model are assumed to be -----

- A. Variables
- B. Constraints
- C. Functions
- D. None of the above

Answer» B. Constraints

[discuss](#)

115. The solution need not be in ----- numbers

- A. Prime Number
- B. Whole Number
- C. Complex Number
- D. None of the above

Answer» B. Whole Number

[discuss](#)

116. Graphic method can be applied to solve a LPP when there are only --- ----- variable

- A. One
- B. More than One

**116. Graphic method can be applied to solve a LPP when there are only ---
----- variable**

C. Two

D. Three

Answer» C. Two

[discuss](#)

117. If the feasible region of a LPP is empty, the solution is -----

A. Infeasible

B. Unbounded

C. Alternative

D. None of the above

Answer» A. Infeasible

[discuss](#)

**118. The variables whose coefficient vectors are unit vectors are called ----
-----**

A. Unit Variables

B. Basic Variables

C. Non basic Variables

D. None of the above

Answer» B. Basic Variables

[discuss](#)

119. Any column or row of a simplex table is called a -----

A. Vector

B. Key column

C. Key Row

D. None of the above

Answer» A. Vector

[discuss](#)

120.	A minimization problem can be converted into a maximization problem by changing the sign of coefficients in the -----
A.	Constraints
B.	Objective Functions
C.	Both A and B
D.	None of the above
Answer» B. Objective Functions	

[discuss](#)

121.	If in a LPP , the solution of a variable can be made infinity large without violating the constraints, the solution is -----
A.	Infeasible
B.	Unbounded
C.	Alternative
D.	None of the above
Answer» B. Unbounded	

[discuss](#)

122.	In maximization cases , ----- are assigned to the artificial variables as their coefficients in the objective function
A.	+m
B.	-m
C.	0
D.	None of the above
Answer» A. +m	

[discuss](#)

123.	In simplex method , we add ----- variables in the case of ‘=’
A.	Slack Variable
B.	Surplus Variable
C.	Artificial Variable
D.	None of the above
Answer» C. Artificial Variable	

123.	In simplex method , we add ----- variables in the case of ‘=’

[discuss](#)

124.	In simplex method, if there is tie between a decision variable and a slack (or surplus) variable, --- ----- should be selected
A.	Slack variable
B.	Surplus variable
C.	Decision variable
D.	None of the above
Answer» C. Decision variable	

[discuss](#)

125.	A BFS of a LPP is said to be ----- if at least one of the basic variable is zero
A.	Degenerate
B.	Non-degenerate
C.	Infeasible
D.	Unbounded
Answer» A. Degenerate	

126.	In LPP, degeneracy occurs in ----- stages
A.	One
B.	Two
C.	Three
D.	Four
Answer» B. Two	

[discuss](#)

127.	Every LPP is associated with another LPP is called -----
A.	Primal
B.	Dual
C.	Non-linear programming

127. Every LPP is associated with another LPP is called -----

D. None of the above

Answer» B. Dual

[discuss](#)

128. As for maximization in assignment problem, the objective is to maximize the -----

A. Profit

B. optimization

C. cost

D. None of the above

Answer» A. Profit

[discuss](#)

129. If there are more than one optimum solution for the decision variable the solution is -----

A. Infeasible

B. Unbounded

C. Alternative

D. None of the above

Answer» C. Alternative

[discuss](#)

130. Dual of the dual is -----

A. Primal

B. Dual

C. Alternative

D. None of the above

Answer» A. Primal

[discuss](#)

131. Operations Research approach is

A. Multi-disciplinary

131. Operations Research approach is

- B. Scientific
- C. Initiative
- D. All of the above

Answer» C. Initiative

[discuss](#)

132. For analyzing the problem , decision – makers should normally study

- A. Its qualitative aspects
- B. Its quantitative aspects
- C. Both A and B
- D. Neither A and B

Answer» A. Its qualitative aspects

[discuss](#)

133. Decision variables are

- A. Controllable
- B. Uncontrollable
- C. Parameters
- D. None of the above

Answer» D. None of the above

[discuss](#)

134. The issue of decision models

- A. Is possible when the variable's value is
- B. Reduces the scope of judgment and intuition known with certainty in decision making
- C. Requires the knowledge of computer software use
- D. None of the above

Answer» D. None of the above

[discuss](#)

135. ----- is one of the fundamental combinatorial optimization problems.

- A. Assignment problem
- B. Transportation problem
- C. Optimization Problem
- D. None of the above

Answer» A. Assignment problem

[discuss](#)

136. An optimization model

- A. Mathematically provides the best decision
- B. Provides decision within its limited context
- C. Helps in evaluating various alternatives constantly
- D. All of the above

Answer» D. All of the above

[discuss](#)

137. The quantitative approach to decision analysis is a

- A. Logical approach
- B. Rational approach
- C. Scientific approach
- D. All of the above

Answer» C. Scientific approach

[discuss](#)

138. Operations Research approach is typically based on the use of

- A. Physical model
- B. Mathematical model
- C. Iconic model
- D. Descriptive model

Answer» B. Mathematical model

[discuss](#)

139. In a manufacturing process, who takes the decisions as to what quantities and which process or processes are to be used so that the cost is minimum and profit is maximum?

- A. Supervisor
- B. Manufacturer
- C. Producer
- D. Production manager

Answer» D. Production manager

[discuss](#)

140. Linear programming has been successfully applied in -----

- A. Agricultural
- B. Industrial applications
- C. Both A and B
- D. Manufacturing

Answer» C. Both A and B

[discuss](#)

141. The term linearity implies ----- among the relevant variables:

- A. Straight line
- B. Proportional relationships
- C. Linear lines
- D. Both A and B

Answer» D. Both A and B

[discuss](#)

142. Process refers to the combination of ----- inputs to produce a particular output.

- A. one or more
- B. two or more
- C. one

142. Process refers to the combination of ----- inputs to produce a particular output.

D. None of the above

Answer» A. one or more

[discuss](#)

143. What has always been very important in the business and industrial world, particularly with regard to problems concerning productions of commodities?

A. Linear Programming

B. Production

C. Decision – making

D. None of the above

Answer» C. Decision – making

[discuss](#)

144. What are the main questions before a production manager?

A. Which commodity/ commodities to produce

B. In what quantities

C. By which process or processes

D. All of the above

Answer» D. All of the above

[discuss](#)

145. Who pointed out that the businessman always studies his production function and his input prices and substitutes one input for another till his costs become the minimum possible?

A. Alan Marshall

B. Alfred Marsh

C. Alfred Marshall

D. None of the above

Answer» C. Alfred Marshall

[discuss](#)

146.	Who invented a method of formal calculations often termed as ?
A.	A.V. Kantorovich
B.	L.V. Kantorovich
C.	T.S. Kantorovich
D.	Alfred Marshall
Answer» D. Alfred Marshall	

[discuss](#)

147.	Who developed Linear Programming for the purpose of scheduling the complicated procurement activities of the United States Air Force?
A.	George B. Dantzig
B.	James B. Dantzig
C.	George B. Dante
D.	George V. Dantzig
Answer» A. George B. Dantzig	

[discuss](#)

148.	This method of formal calculations often termed as Linear Programming was developed later in which year?
A.	1947
B.	1988
C.	1957
D.	1944
Answer» A. 1947	

[discuss](#)

149.	What is being considered as one of the most versatile management tools?
A.	Electronic Computers
B.	Linear Programming
C.	Computer Programming
D.	None of the above
Answer» B. Linear Programming	

[discuss](#)

150. LP is a major innovation since ----- in the field of business decision – making, particularly under conditions of certainty.

A. Industrial Revolution

B. World War I

C. World War II

D. French Revolution

Answer» C. World War II
