

Jimma University
Department of Management
Mock exam

1. Which one of the following is the aim of business research?
 - A. Generating answers to questions and to advance knowledge
 - B. The systematic and objective process of collecting, recording, analyzing and interpreting data for aid in solving managerial
 - C. Step-by-step process that involves the collecting, recording, analyzing and interpreting of information
 - D. A scientific method for addressing research problem not yet been clearly defined
2. The purpose of a problem statement includes the following except:
 - A. Introduce the reader to the importance of the topic being studied
 - B. Places the problem into a particular context
 - C. Describe the data collection procedures.
 - D. Provides the framework for reporting the results
3. Assume you are interested to conduct a study on the “Effect of Employee Motivation on Organizational Performance” and the purpose of your study is to show the cause and effect relationship between these two variables. Which research design is suitable for investigating this study?
 - A. Explanatory design
 - B. Descriptive design
 - C. Exploratory design
 - D. All of the above
4. Assume you have a plan to conduct your study in XYZ Company and the employees are divided in to several groups based on their job roles. Which sampling design is suitable for your study in order to draw more precise conclusions and ensure every subgroup is properly represented in the sample.
 - A. Simple random sampling
 - B. Quota sampling
 - C. Purposive sampling
 - D. Stratified sampling
5. Which of the following terms best describes data that were originally collected at an earlier time by a different person for a different purpose?
 - A. Primary data
 - B. Field survey
 - C. Secondary data
 - D. Experimental data
6. Which one of the following is the purpose of data analysis?
 - A. It involves the interpretation of data gathered through data collection techniques.
 - B. It provides the direction for future research
 - C. It summarize the basic conclusion of the study
 - D. It indicates the methodology of the study
7. Which of the following represents the correct order for the five main sections of a research report?
 - A. Conclusion, Introduction, Methods, Literature Review, Results
 - B. introduction, Literature Review, Methods, Results, Conclusion
 - C. Methods, Results, Conclusion, Literature Review, Introduction
 - D. Literature Review, Results, Methods, Introduction, Conclusion
8. Strategic uses of Information Technology can be clearly expressed as;
 - A. Use IT to manage regional and global business expansion
 - B. Develop unique new markets or market niches with the help of IT

- C. Use IT to substantially reduce the cost of business process
 - D. All of the Above
9. Which one of the following is not management support system?
- A. Management Information Systems
 - B. Decision Support Systems
 - C. Transaction Information Systems
 - D. Executive Information Systems
10. virtual reality systems and 3-D medical modeling are an examples of
- A. Knowledge work systems
 - B. Intelligent techniques
 - C. Enterprise-wide KM systems
 - D. Management Information System
11. Which of the following system enforces access-control policy between two networks?
- A. Firewall
 - B. Authentication
 - C. Encryption
 - D. Decryption
12. Which one of the following is correct step of creativity?
- A. Incubation, opportunity recognition, insight, immersion verification and application
 - B. opportunity recognition, insight, incubation, immersion, verification and application
 - C. insight, opportunity recognition, immersion, incubation and application
 - D. opportunity recognition, immersion, incubation, verification and application
13. Which one of the following can be sources of idea for entrepreneur?
- A. scanning environment
 - B. problem inventory analysis
 - C. attending trade fairs and exhibition
 - D. All of the above
14. Managers who direct non-managerial employees is
- A. Top-level managers
 - B. middle level manager
 - C. operational level manager
 - D. All of the above
15. One of the following is not standing plan?
- A. Policy
 - B. Procedure
 - C. Project
 - D. Method
16. One of the following decision making environment has moderate ambiguity and moderate chance of making bad decision?
- A. certainty
 - B. risk
 - C. uncertainty
 - D. All of the above
17. Which one of the following is not true about informal organization?
- A. Group norm
 - B. Group cohesiveness
 - C. Group leadership
 - D. Consciously designed
18. One of the following is forced reduction of the number of employees because of there is lack of business or budget curtailment/ shortage.
- A. Promotion

- B. Layoff
C. Transfer
D. Quits
19. Leader who allows his employees complete freedom to make decisions is using which leadership style?
A. Democratic
B. Laissez-faire
C. Autocratic
D. Participatory
20. Which one of the following control focuses on the regulation of ongoing activities?
A. Steering Control
B. Concurrent Control
C. Feedback Control
D. Output Control
21. Which one of the following statement is conventional distinction of between leaders and managers?
A. He leader imitate and managers originate
B. The leader uses people while the managers develops people
C. The leader do things right while the manager do the right things
D. The manager sells while the leader tells
22. Mr. Gameda is an instructor in the department of management. While is teaching stimulate his students, set clear objectives and he leads them students by example. So, which style is leadership Mr. Gameda follows
A. Transformational
B. Transactional
C. Charismatic
D. none of the above
23. Which one of the following statement is true about the interactionist view of conflict?
A. It encourages a group of leaders to maintain an ongoing minimum level conflict
B. It argues that conflict is destructive and it has to be avoided at any cost
C. They believe that conflict is natural and inevitable outcome in a group
D. None of the above
24. Which one of the following conflict handling orientation might involve attempting to find a win-win solution
A. Avoiding
B. Collaborating
C. Accommodating
D. Compromising
25. In our country Ethiopia a lot of changes has been taking place over the last fifty years. Among other things, in 2010 E.C. EPRDF the leading political party of the country was forced to reform itself due to the continuous popular uprising in different part of the country. Which type change was took place in EPRDF in 2010?
A. Un planned
B. Planned
C. Radical
D. Evolutionary
26. Almaz feels that Kidist her class mate talks to much loudly in the phone. They are living together in one dorm. But in other way they are friends. Almaz, gets annoyed every time when kidist's phone rings, nonetheless she has decided it simply not worth the trouble to talk her friend. Almaz's conflict resolution method is.
A. Competing

- B. Accommodating
 - C. Collaborating
 - D. Avoiding
27. Your instructor listens your problems, allows you to participate in decision making and strives to create conducive leaning environment and recognize and encourage your achievements. This is an example of:
- A. Charismatic leadership
 - B. Autocratic leadership
 - C. Laissez –fair leadership
 - D. None of the above
28. Which one of the following is not true regarding the competences of leadership?
- A. They promote creativities
 - B. The leader is constantly interacting and commanding
 - C. They are good team builders
 - D. impede creativity & innovation
29. Which one of the following change management strategy is necessary when the resistance comes from powerful sources?
- A. Education and communication
 - B. Coercion
 - C. Facilitation and support
 - D. Negotiation
30. All of the following are roles of leadership in change management except?
- A. Encourage collaboration rather than competition
 - B. Encourage customer orientation
 - C. Improve the participation of the work forces
 - D. All of the above
31. Which one of the following might be the functional outcome of the conflict process?
- A. stimulate creativity and innovation
 - B. Reduce group cohesiveness
 - C. Relieves tension
 - D. Leads to change
32. All of the following are the reasons for resistance to change except?
- A. Lack of communication
 - B. Group phenomena
 - C. Loss of power
 - D. Change agent
33. Which one of the following is correct about the degree freedom in chi-square distribution
- A. Multinomial population has “k-2” degree of freedom
 - B. Test of independence has (n-1) (m-1) degree of freedom
 - C. Poison distribution has “k-4” degree of freedom.
 - D. Normal distribution has “ k-4 ” degree of freedom
34. Regression analysis was applied between sales data (in birr 1,000s) and advertising data (in birr 100s) and the following information was obtained. $Y = 14 + 2.5X$
 $n = 40$
 $SSB = 400$
 $b_1 = 3.7$
 Based on the above estimated regression equation, if advertising is birr 5,000, then the point estimate for sales (in birr) is
- A. 20,000
 - B. 14000
 - C. 12514

D. 16575

35. If 55% of England citizens supports Manchester united football club. What is the value of “Z” if probability that a simple random sample of 90 England citizens will reveal the proportion of supporters favoring the Manchester united football club to be 40% or less is 0.15?
- A. -1.5
 - B. -2.86
 - C. -1.9
 - D. -2.86
36. International marketing practices are different from domestic marketing practices because _____.
- A. It evolves duplication of marketing strategies
 - B. It is conducted in more than one nation
 - C. It emphasizes the satisfaction of legitimate needs and wants
 - D. It is conducted in familiar marketing environment
37. One of the following statements is not considered as a pushing factor to international marketing
- A. High foreign market profit margins
 - B. Emergence of global needs
 - C. Intense domestic competition
 - D. Increasing purchasing power of home land market
38. Which one of the following statements is not true about the international marketing environments?
- A. Culture determines consumer needs and wants
 - B. Cultural elements are natural as well as manmade and thus they do not pose any lifelong influences on consumer behavior
 - C. socialist economy, every economic activities regardless of the private sector, are determined by the government
 - D. Political-legal environment states the role of government in the market system
39. Which one of the following variables inhibits product acceptability in the foreign market?
- A. In Compatibility with local customs
 - B. Cultural variation
 - C. Contradictions with enforcing social acceptance
 - D. All
40. A name, term, sign, symbol, or combination of them which is intended to identify the goods and services of one seller or group of sellers and to differentiate them from those of competitors with legal protection.
- A. Trademark
 - B. Patent
 - C. Brand equity
 - D. Brand
41. Which one of the following counter trade involves triangular rather than bilateral trade agreement?
- A. Buyback
 - B. Barter
 - C. Switch trading
 - D. Offset
42. Which of the following are the main advantages and reasons to use an international licensing for expanding internationally?
- A. Obtain extra income for technical know-how and services
 - B. Reach new markets not accessible by export from existing facilities
 - C. Quickly expand without much risk and large capital investment
 - D. All of the above

43. personal selling is greater than advertising in that it is _____
A. A one way communication process
B. Non personal means of communication
C. More flexible and powerful
D. Controlling the message
44. What is the ultimate goal of marketing?
A. To generate profits for the company
B. To satisfy customer needs and wants
C. To increase market share
D. reduce costs & expenses
45. Whenever possible, smart marketing managers will take _____ rather than _____ approach to marketing environment?
A. Reactive/proactive
B. Conciliatory/proactive
C. Commanding/Submissive
D. proactive/reactive
46. A company sets a price for its product that is higher than the competition. Which pricing strategy is this?
A. Cost-plus pricing
B. skimming pricing
C. Penetration pricing
D. Discount pricing
47. Which of the following factors that influence the human resource within the organization's boundary?
A. Socio-Cultural Factors
B. Legal factors
C. Nature of the task
D. Economic Factors
48. Bontu records every activity in which she engages along with the time each activity takes her to complete each activity. Which of the following methods of Collecting Job Analysis information?
A. Diary/log
B. Interview
C. Observation
D. Questionnaire
49. Which of the following concepts is defined as the process of matching the qualifications of applicants with job requirements?
A. Recruitment
B. Placement
C. Orientation
D. Selection
50. Which of the following is a planned program designed to improve employees' efficiency for doing a particular job?
A. Development
B. Training
C. Promotion
D. Transfer
51. Mr. Beki is the manager of Yes Company; when he evaluates his subordinates' performance he marks high for some employees relative to their actual performance they exhibit. What kind of performance appraisal error occurs?

- A. Negative lenient error
 - B. Halo effect
 - C. Positively lenient error
 - D. Horn effect
52. Chala had previously received a verbal warning followed by a written warning about taking an extended lunch hour, yet he kept coming back one half hour late. What should be the next step in progressive discipline for Chala?
- A. Another verbal warning
 - B. Termination
 - C. Suspension without pay
 - D. Discharge
53. Beki Industries needs to temporarily remove a number of workers from the payroll of the organization due to lack of work, although it expects they will return at a future. This is an example of _____
- A. Transfer
 - B. Demotion
 - C. Promotion
 - D. Layoff
54. If two events cannot occur at the same time, then they are said to be.
- A. Independent
 - B. Mutually exclusive
 - C. Dependent
 - D. B and C
55. When a random sample is to be taken from a population and a statistic is to be computed, the statistic can also be thought of as
- A. A point estimate
 - B. A random variable
 - C. Both of the above
 - D. None of the above
56. The mean and the variance are always equal in
- A. Binomial Distribution
 - B. Poisson distribution
 - C. Normal Distribution
 - D. None
57. If two events are mutually exclusive and both have probability > 0 , then
- A. They must also be independent
 - B. They cannot also be independent
 - C. They must also be complements
 - D. They cannot also be complements
58. Which one of the following can have more than one value?
- A. Mean
 - B. Mode
 - C. Median
 - D. None of the above
59. Null and alternative hypotheses can be statements about which of the following?
- A. population parameters
 - B. sample estimates
 - C. sample statistics
 - D. it depends - sometimes population parameters and sometimes sample statistics
60. Which one of the following statement is correct about operations management?
- A. Operations management activities take place in all organizations

- B. In manufacturing firms, the production activities that create goods are usually quite obvious.
- C. In organizations that do not create physical products, production functions are less obvious.

D. All of the above

61. A given furniture maker produces dining room sets but not apply stain until customer preference is known, allowing customers a choice of stains. Once the choice is made the stain is applied in relatively short time, thus eliminating a long wait for customers, giving the seller a competitive advantage. This is

- A. Modular design
- B. Robust design
- C. Delayed differentiation

D. Concurrent engineering

62. Which one of the following is wrong about modular design?

- A. Modular design makes it possible to have relatively high product variety and low component
- B. Modular design is a form of standardization in which component parts are subdivided into modules that are easily replaced or interchanged
- C. To the customers, it appears there are a great number of different products

D. None of the above

63. One of the following activities comes first in the procedure of location decision.

- A. Decide on the criteria to use for evaluating location alternatives
- B. Identify important factors
- C. Develop location alternatives
- D. Evaluate the alternatives and make a sale

64. When making a decision to increase the number of rooms in motel, one should also take in to account probable increased demands for parking and entertainments. This is

- A. Dealing with capacity chunks
- B. Smoothing out capacity requirements
- C. Taking big picture approach
- D. Designing flexibility

65. Which type of process is appropriate for highly standardized goods or services?

- A. Job shop
- B. Batch
- C. Repetitive/Assembly

D. Continuous

66. Turnaround strategy will happen except the following?

- A. while increased competition
- B. there are raw material shortage
- C. while decreases completion and increase raw materials
- D. decrease profit margin due to operating and labor problem are happening

67. Bargaining power of the buyer will happen except the following idea?

- A. A buyer purchases a large proportion of the seller's product or service
- B. buyer has insufficient potential to integrate backward by producing the product by itself
- C. Alternative suppliers are plentiful because the product is standard or undifferentiated
- D. The purchased product can be easily substituted without affecting the final product adversely
