A. Applied research C. Academic research
B. Descriptive research D. Fundamental research
35. Which of the following is the first step in starting the research process?
A. Searching sources of information to locate problem.
A. Survey of related literature
B. Identification of problem
C. Searching for solutions to the problem
36. _____ refers to some difficulty which a researcher experiences in the context of either a theoretical or practical situation and wants to obtain a solution for the same.
A. Statement of the problem B. Significance of the study
A. Scope of the study C. Literature review
37. Sampling technique is used under the following conditions, **except**;
A. When the number of units is very large B. When census is impossible
A. When there is infinite population C. When there is finite population
38. Which one of the following is most the important and foremost stage in the research process?
A. Planning the research design C. Sample plan and design
B. Identifying the research problem D. Collecting data
39. Quantitative research method is used to
A. Explain the reasons for a particular attitude or behavior
A. Analyze what motivate people to behave in a particular manner
B. Measure problems that can be expressed in qualitative terms
C. Measure problems that can be expressed in quantitative terms
40. Which one of the following has correct association among the types sampling techniques?
A. Non probability sampling and Simple Random Sampling

- B. Probability sampling and Convenience sampling
 - C. Probability sampling and Stratified sampling
 - D. Non probability sampling and Cluster sampling
41. _____ is a measurement of all the individual elements making up a population.
- A. Sampling
 - B. Population
 - C. Census
 - D. Sampling frame
42. Applied research means _____
- A. A longitudinal research
 - B. A scientific research
 - C. A research initiated to solve an immediate problem
 - D. A research with socioeconomic objective
43. Delineate the aim which the inquirer seeks to bring about as a result of completing the research undertaken.
- A. Problem statement
 - B. Research methodology
 - C. Research question
 - D. Objectives of the study
 - E. Research design
44. Arranging the data in rows and columns to facilitate analysis:
- A. Coding
 - B. Tabulation
 - C. Editing
 - D. Statistical inferences
45. Consists of the boundaries the research has established for the study in terms of either geographic boundaries, a segment of the universe, or a time period.
- A. Executive summary
 - B. Problem statement
 - C. Scope of the study
 - D. Literature review
46. Objective of the study a set of suggested tentative solutions for a problem is known as _____.
- A. Hypothesis
 - B. Proposal
 - C. Sponsors
 - D. Project
47. Identify a sequential step of the scientific method:
- A. Recording, Observation, Classification, Verification, Generalization
 - B. Observation, Recording, Classification, Verification, Generalization
 - C. Classification, Recording, Observation, Generalization, Verification
 - D. Observation, Recording, Classification, Generalization, Verification
 - E. Recording, Observation, Classification, Verification, Generalization
48. Aimed at discovering, identifying and formulating a research problem hypothesis.
- A. Applied research
 - B. Pure research
 - C. Exploratory research
 - D. Fundamental research
49. Before using secondary data, we must see that they possess the following characters.
- A. Reliability of the data
 - B. Suitability of the data
 - C. Adequacy of the data
 - D. All of the above
50. Which one of the following is the source of secondary data?
- A. Books, magazines and newspapers
 - B. Journals of trade, commerce and economics

- D. All of the above
51. Consists of the boundaries the research has established for the study in terms of either geographic boundaries, a segment of the universe, or a time period.
- A. Executive summary
 - B. Problem statement
 - C. Scope of the study
 - D. Literature review
52. Is an investigation of all the individual elements making up a population?
- A. Sampling
 - B. Population
 - C. Census
 - D. Sampling frame
53. A written document that shows the overall plan and strategy for conducting a study refers to:
- A. Research design
 - B. research report
 - C. Research proposal
 - D. Sampling design
 - E. Sample frame
54. As a researcher how do you understand the meaning of interpretation?
- A. Interpretation refers to writing bibliography
 - A. Interpretation refers to writing appendix
 - B. An abstract or executive summary
 - C. Refer to the task of drawing inference from the collected facts
55. Which one of the following **is not** Non-probability sampling method?
- A. Judgmental sampling
 - B. Snow-ball sampling
 - C. Purposive sampling
 - D. Stratified sampling
56. All are primary source of data collection, **except**;
- A. Self-administered Questionnaires
 - B. Observation method
 - C. Data gathered from the organization's report.
 - D. Interview
57. A research approach with a purpose to accurately portray the characteristics of a particular individual, situation or a group is_____.
- A. Descriptive research
 - B. explanatory research
 - C. Exploratory research
 - D. experimental research
 - E. None of the above
58. Which one of the following active **is not** part of the sampling process?
- A. Identify the relevant population
 - B. Determining sampling units and sample size
 - C. Determining techniques of sample selection
 - D. Budgetary consideration
 - E. None of the above
59. In processing and analyzing data, operations are involved in the following sequence:
- A. Tabulation, Classification, Coding, Editing
 - B. Editing, Tabulation, Classification, Coding
 - C. Editing, Coding, Classification, Tabulation
 - D. Editing, Classification, Coding, Tabulation
60. If one variable depends upon or is a consequence of the other variables is termed as
- A. Independent variables
 - B. Intervening variable
 - C. Dependent variables
 - D. A and B are answers
61. In a research topic “*The impact of product quality on the profitability of soft drink products*”,

- what is the dependent variable?
- A. Profitability
 - B. Soft drink products
 - C. Impact
 - D. Sales Volume
 - E. Product quality
62. Is a type of hypothesis that always predicts that there will be no differences between the groups being studied?
- A. Alternative hypothesis
 - B. Null hypothesis
 - C. Experimental hypothesis
 - D. Test hypothesis
63. Which of the following is wrong regarding exploratory research?
- A. Formulate the problem or define the problem more precisely
 - B. Develops hypotheses
 - C. Gains insights for developing an approach to the problem
 - D. Tests hypothesis
 - E. None of the above
64. What is your favorite television program? This types of question is
- A. Open ended questions
 - B. Closed end questions
 - C. Factual questions
 - D. All of the above
65. Which one of the following is true about cross-sectional research?
- A. It also called on-going research
 - A. It limited to one time period
 - B. It prefers for impact assessment kind of research work
 - C. A & C
 - D. None of the above
66. Which of the following sampling techniques is most appropriate for very large and most homogenous population?
- A. Stratified Sampling
 - B. Cluster Sampling
 - C. Quota Sampling
 - D. Simple Random Sampling
67. A concise description of the research report or proposal is known as _____.
- A. Background of the study
 - B. Statement of the problem
 - C. Executive summary/Abstract
 - D. Bibliography

Theme 2: Promotion & Brand management

Theme 3: Services and E- Marketing

A. E - Marketing

68. Enables internet users to share files and computer resources directly without having to through a central web server?
