- A. Predatory Dumping
 - B. Unintentional Dumping
 - C. Antidumping Duty
 - D. Countervailing Duties
 - E. None
113. _____ which one is characterized as accepted by the seller, it cannot be amended in anyway or cancelled by the buyer's bank without all parties approval is called
- A. Revocable letter of credit
 - B. Revocable letter of credit
 - C. Revocable letter of credit
 - D. Irrevocable letter of credit
 - E. All of them
114. A paid form non-personal communication and openly sponsored, to promote or sell a product, service or idea.
- A. Sales promotion
 - B. Advertising
 - C. Personal selling
 - D. Publicity
 - E. All
115. The printed information that provides detailed product compositions and nutritional information as well as warning messages in the case of products that may be harmful or hazardous;
- A. Labeling
 - B. Packaging
 - C. Prototype
 - D. Brand mark
 - E. None

Marketing Research

116. Literature review is all about, Except
- A. It is a section where a list of books, journals and other documents is referred.
 - B. It provides evidences of what is already known and unknown
 - C. It can serve as a basis for formulating hypothesis.
 - D. It is a brief summary of related studies found in Journals, Magazines etc

117. Which one of the following statement is wrongly affirm the functions of background of the study?
- A. It reviews the previous work to reveal what is known on the subject
 - B. It is the place where you can put your research results
 - C. It present gap in knowledge and current trend
 - D. It allow the reader to understand the context of the study
118. Which one of the following has correct association among the types sampling techniques?
- A. Probability sampling and Stratified sampling
 - B. Non probability sampling and Simple Random Sampling
 - C. Probability sampling and Convenience sampling
 - D. Non probability sampling and Cluster sampling
119. Quantitative research method is used to
- A. Explain the reasons for a particular attitude or behavior
 - B. Analyze what motivate people to behave in a particular manner
 - C. Measure problems that can be expressed in qualitative terms
 - D. Measure problems that can be expressed in quantitative terms
120. One of the following is a document that provides an overview of the proposed research and methodology, and serves as a written contract between the decision maker and the researcher.
- A. Questionnaire design
 - B. Research proposal
 - C. Statement of the problem
 - D. Interview transcript

- A. Books, magazines and newspapers
 - B. Journals of trade, commerce and economics
 - C. Publications of Central, State and local governments
 - D. All of the above
122. In a research topic “*The impact of product quality on the sales volume of soft drink products*”, which one is the dependent variable?
- A. Product quality
 - B. Soft drink products
 - C. Impact
 - D. Sales Volume
123. Which one of the following statements is *false* about simple random sampling (SRS) technique?
- A. Each part of the population has a known chance of being selected.
 - B. It may not result in a representative sample
 - C. To draw a SRS, the researcher should first group the population into parts.
 - D. Each element of the population is selected independently of every other element.
124. Which statement is not the basic feature of a research?
- A. A research should be original

- B.** A research should be either very general or very specific
C. A research should be solvable
D. A research should be feasible
125. _____ is a type of research that is aimed at investigating for new principles, theories and laws.
A. Fundamental research
B. Applied research
C. Descriptive research
D. Exploratory research
126. _____ is a kind of research concerned with why one variable produce changing in another.
A. Causal research
B. Exploratory research
C. Descriptive research
D. Fundamental research
127. _____ consists of the boundaries the research has established for the study in terms of either geographic boundaries, a segment of the universe, or a time period.
A. Executive summary
B. Scope of the study
C. Problem statement
D. Literature review
128. _____ delineate the aim which the inquirer seeks to bring about as a result of completing the research undertaken.
A. Problem statement
B. Objectives of the study
C. Research methodology
D. Research question
129. _____ the process of selecting a group of subjects for a study in such a way that the individual represents the larger group from which they were selected.
A. Population
B. Sampling
C. Statistic
D. Literature review
130. Under _____ sampling only the first unit of the sample is selected at random and the remaining units are selected at fixed/skipping/ n^{th} intervals.
A. Simple random sampling
B. Cluster Sampling
C. Systematic Sampling
D. Stratified sampling
131. As a researcher how do you understand the meaning of interpretation?
A. Interpretation refers to writing bibliography
B. Interpretation refers to writing appendix
C. An abstract or executive summary
D. Refers to the task of drawing inference from the collected facts

132. If we wish to estimate say yield of coffee per hectare in Jimma Zone, we begin by random selection of say 5 districts in the first insurance of these 5 districts, 8 villages per district will be chosen in the same manner in final stage we will select again randomly 5 farms from every village. Thus, we shall examine per hectare yield in a total of 250 farms all over that region. What types of sampling techniques is
- A. Simple random sampling
 - B. Cluster sampling
 - C. Systematic sampling
 - D. Stratified sampling
133. Enku wants to conduct a research on the effect of international laws on export markets by using causal research design, what would be the sampling procedure/technique?
- A. Judgmental Sampling
 - B. Accidental Sampling
 - C. Cluster Sampling
 - D. Quota Sampling
134. A researcher is interested to survey the Math's achievement of 4th grade students in elementary schools found in Ethiopia. It is practically impossible to test all 4th grade students in elementary school students in the country by a single researcher.
- A. Simple Random Sampling
 - B. Convenience Sampling
 - C. Quota Sampling
 - D. Cluster Sampling
135. If the title of a given research is 'a study on the immediate causes of COVID-19' by using mixed approach. What would be the types of data to be collected?
- A. Qualitative
 - B. Quantitative
 - C. Both qualitative and quantitative
 - D. secondary data

Business marketing

136. This business-to-business pricing approach seeks to understand customers' needs before pricing the offering according to those needs in order to generate a long-term relationship. This is referred to as:
- A. Geographical pricing.
 - B. Discount pricing.
