Exit multiple choice questions for

Operating system

Prepared by:

@Neyatibeb

KOMBOLCHA, Ethiopia

2015 E.C

Q1. OS stands for

- a) Operating solve
- b) Open Source
- c) Open System
- d) Operating system

Answer : d

Q2. World Wide Web is being standard by

- a) Worldwide corporation
- b) W3C
- c) World Wide Web Standard
- d) World Wide Consortium

Answer : b

Q3. A co-processor

- a) Is relatively easy to support in software
- b) Causes all processor to function equally
- c) Works with any application
- d) Is quite common in modern computer

Answer : a

Q4. A Microsoft Windows is a(n)

- a) Operating system
- b) Graphic program
- c) Word Processing
- d) Database program

Answer : a

Q5. Which of the following is program group?

- a) Accessories
- b) Paint
- c) Word
- d) All of above

Answer : a

Q6. Which is not application software?

- a) Windows NT
- b) Page Maker
- c) WinWord XP
- d) Photoshop

Answer : a

Q7.The program compresses large files into a smaller file

- a) WinZip
- b) WinShrink
- c) WinStyle
- d) None of above

Answer : a

Q8.My Computer was introduced from

- a) Windows 3.1
- b) Windows 3.11

- c) Windows 95
- d) Windows 98

Answer : c

Q9. Which of the following is not an operating system?

- a) DOS
- b) Linux
- c) Windows
- d) Oracle

Answer : d

Q10. Linux is a(n) operating system

- a) Open source
- b) Microsoft
- c) Windows
- d) Mac

Answer : a

Q11. The most recent version of MAC OS is based on the operating system

- a) Windows
- b) Linux
- c) Unix
- d) CMOS

Answer : c

Q12. In Windows, start button is used to

- a) Run applications
- b) Device setting
- c) Turn off the system
- d) All of above

Answer : d

Q13. For that hard disk is

- a) 1
- b) 2
- c) 3
- d) 4

Answer : c

Q14. The date and time displays on

- a) Taskbar
- b) Status bar
- c) System tray
- d) Launch pad

Answer : c

Q15. runs on computer hardware and serves as a platform for other system to run on

- a) Operating system
- b) Application system
- c) System software
- d) All of above

Department of software engineering

Answer : a

Q16. Is the layer of a computer system between the hardware and the user?

- a) Operating environment
- b) Operating system
- c) System environment
- d) None of these

Answer : b

Q17. Which is the first program run on a computer when the computer boots up?

- a) System software
- b) Operating system
- c) System operations
- d) None

Answer : b

Q18. Which of the following requires a device driver?

- a) Register
- b) Cache
- c) Main memory
- d) Disk

Answer : d

Q19. A program in execution is called

- a) A Paging
- b) A Process
- c) A virtual memory
- d) A Demand Page

Answer : b

Q20. Which of the following memory unit that processor can access more rapidly

- a) Main Memory
- b) Virtual Memory
- c) Cache memory
- d) Read Only Memory

Answer : c

Q21. Which of the following is an example of a real-time operating system?

- a) Lynx
- b) MS-DOS
- c) Windows XP
- d) Process Control

Answer : d

Q22. Which of the following shutdown method is often called Warm Boot?

- a) Shut Down
- b) Restart
- c) Sleep
- d) Hibernate

Answer : b

Q23. If the displayed system time and date are wrong, you can reset it using

- a) Write
- b) Calendar
- c) Write file.
- d) Control panel

Answer : d

Q24. World Wide Web is being a standard by

- a) Worldwide corporation
- b) W3C
- c) World Wide Consortium
- d) d.World Wide Web Standard

Answer : b

Q25. Which scheduler selects which processes should be brought into the ready queue?

- a) Real-term
- b) Long-term
- c) Mid-term
- d) Short-term

Answer : b

Q26. Piece of code that only one thread can execute at a time is called

- a) Mutual Exclusion
- b) Critical Section
- c) Synchronization
- d) All of them

Answer : b

Q27. Which is not application software?

- a) Windows NT
- b) Page Maker
- c) WinWord XP
- d) Photoshop

Answer : a

Q28. Running multiple programs at the same time is called:

- a) Multitasking
- b) Foreground tasking
- c) Single tasking
- d) Symmetric

Answer : a

Q29. What is Dr. Watson?

- a) IT Expert
- b) Diagnosis tool
- c) Surgeon
- d) None

Answer : b

Q30. The contains commands associated with the My Computer window

- a) Standard menu
- b) Start menu
- c) System menu
- d) None of the above

Answer : c

Q31. The contains commands associated with the My Computer window

- a) Standard menu
- b) Start menu
- c) System menu
- d) None of the above

Answer : c

Q32. To install the new font in window XP

- a) Start -> setting -> control panel -> font
- b) Start -> setting -> control panel -> font -> install new font
- c) Start -> control panel -> font -> install new font
- d) Start -> setting -> font

Answer : b

Q33. Which of the following operating system do you choose to implement a client-server network?

- a) MS-DOS
- b) Windows
- c) Windows 98
- d) Windows 2000

Answer : d

Q34. Which one is not an operating system?

- a) P11
- b) OS/2
- c) Windows
- d) Unix

Answer : a

Q35. The operating system creates ... from the physical computer

- a) Virtual space
- b) Virtual computer
- c) Virtual device
- d) None

Answer : b

Q36. Which mode loads a minimal set of drivers when starting Windows?

- a) Safe Mode
- b) Normal Mode
- c) VGA Mode.
- d) Network Support Mode

Answer : a

Q37. A page fault occurs when

- a) the Deadlock happens
- b) the Segmentation starts
- c) the page is found in the memory
- d) the page is not found in the memory

Answer : d

Q38. runs on a computer hardware and serves as a platform for other system to run on

Department of software engineering

- a) Operating system
- b) Application system
- c) System software
- d) All of above

Answer : a

Q39. The operating system is the most common type of Software

- a) Communication
- b) Application
- c) System
- d) Word processing software

Answer : c

Q.40 Suppose that a process is in 'BLOCKED' state waiting for some I/O service. When the service is completed, it goes to the

- a) RUNNING state
- b) READY state
- c) SUSPENDED state
- d) TERMINATED state

Answer : b

Q.41 Sector interleaving in disks is done by

- a) the operating system
- b) the disk manufacturer
- c) the disk controller cord
- d) none of the above

Answer : a

Q.42 Which of the following are real-time systems?

- a) An on-line railway reservation system
- b) A process control system
- c) Aircraft control system
- d) Both (B) and (C)

Answer : d

Q43. Windowing and graphics system implements the

- a) Operating System
- b) I/O Devices
- c) Programmed I/O
- d) I/O Modules

Answer : a

Q44. A Microsoft Windows is.....a(n)

- a) Operating system
- b) Graphic program
- c) Word Processing
- d) Database program

Answer : a

Q45. A system program that sets up an executable program in main memory ready for execution is

- a) assembler
- b) linker

- c) loader
- d) compiler

Answer : c

Q46. Fragmentation of the file system

- a) occurs only if the file system is used improperly
- b) can always be prevented
- c) can be temporarily removed by compaction
- d) is a characteristic of all file systems

Answer : c

Q47. Paging is implemented in

- a) Operating System
- b) Hardware
- c) Software
- d) All of them

Answer : b

Q48. software creates a mirror images of the entire hard disk, including the operating system, application files, and data.

- a) Operating system
- b) Backup software
- c) Utility programs
- d) Driver imaging
- e) None of these

Answer : b

Q49. A mistake in a algorithm that causes incorrect results is called a

- a) logical error
- b) syntax error
- c) procedural error
- d) compiler error

Answer : a

Q50. When data changes in multiple lists and all lists are not updated .this causes

- a) data redundancy
- b) information overload
- c) duplicate data
- d) data inconsistency
- e) data repetition

Answer : d

Q51. What is the process of copying software programs from secondary storage media to the hard disk called ?

- a) configuration
- b) download
- c) storage
- d) upload
- e) installation

Answer : e

Department of software engineering

Q52. Which process checks to ensure the components of the computer are operating and connected properly ?

- a) Booting
- b) Saving
- c) Editing
- d) Processing
- e) Starting

Answer : a

Q53. An error in a computer program

- a) Crash
- b) Power failure
- c) bug
- d) Virus
- e) Fatal error

Answer : c

Q54. The software that allows users to surf the Internet is called a/an .

- a) Search engine
- b) Internet service provider (ISP)
- c) Multimedia application
- d) Browser
- e) Internet Surfing provider

Answer : d

Q55. The issues that deal with the collection and use of data about individuals is

- a) access
- b) publicity
- c) accuracy
- d) property
- e) privacy

Answer : e

Q56. Unauthorized copying of software to be used for personal gain instead of for personal backups is called

- a) program thievery
- b) data snatching
- c) software piracy
- d) program looting
- e) data looting

Answer : c

Q57. What is an embedded system ?

- a) A program that comes wrapped in a box
- b) A program that is permanently part of a computer
- c) A computer that is part of a larger computer
- d) A computer and software system that controls a machine or appliance
- e) None of these

Answer : d

Q58. The _____ controls a client computer's resources .

- a) application program
- b) instruction set

Department of software engineering

- c) operating system
- d) server application
- e) compiler

Answer : c

Q59. Every computer has a(n) _____ many also have _____.

- a) operating system a client system
- b) operating system instruction sets
- c) application programs an operating system
- d) application programs ; a client system
- e) operating system, application programs

Answer : e

Q60. Who invented Linux?

- a) J.presper Eckert and John W. Mauchly
- b) Dennis M. Ritchie
- c) Seymour Papert
- d) Torvalds
- e) None of these

Answer : a

Q61. Which of the following is the reason for computer failure?

- a) Disk failure
- b) Power failure
- c) Wrong programming
- d) CD Failure
- e) None of these

Answer : c

Q62. A _____ is a computer attached to the Internet that runs special web server software and can send web pages out to other computers over the Internet –

- a) Web Client
- b) Web System
- c) Web page
- d) Web Server
- e) None of these

Answer : a

Q63. The human-readable version of a program is called-

- a) source code
- b) program code
- c) human code
- d) system code
- e) None of these

Answer : b

Q64. A (n) __ converts and executes one statement at a time.

- a) compiler
- b) interpreter
- c) converter
- d) instructions
- e) None of these

Department of software engineering

Answer : b

Q65. _____ this is the act of copying or downloading a program from a network and making multiple copies of it.

- a) Network piracy
- b) Plagiarism
- c) Site – license piracy
- d) Software piracy
- e) None of these

Answer : d

Q66. Which is the best definition of a software package?

- a) An add-on for your computer such as additional memory
- b) A set of computer programs used for a certain function such as word processing
- c) A protection you can buy for a computer
- d) The box, manual and license agreement that accompany commercial software.
- e) None of these

Answer : b

Q67. When installing –the user must copy and usually decompress program files from a CD-ROM or other medium to the hard-disk.

- a) programming software
- b) system hardware
- c) applications hardware
- d) application software

Answer : d

Q68. programs designed specifically to address general purpose applications and special purpose application are called...

- a) Operating system
- b) System software
- c) Application software
- d) Management

Answer : c

Q69. a series of instructions that tells a computer what to do and how to do it is called a

- a) Program
- b) Command
- c) User response
- d) Processor

Answer : a

Q70. programs or a set of electronic instructions that tell a computer what to do

- a) Menu
- b) Monitor
- c) Hardware
- d) Software

Answer : d

Q71. Is when the computer is turned on and the operating system is loading.

- a) Booting
- b) Flashing

- c) Tracking
- d) Taping

Answer : a

Q72.is a set of computer programs that runs or controls computer hardware and acts as an interface ifthe application programs and users.

- a) object code
- b) a compiler
- c) an operating system
- d) the CPU

Answer : c

Q73. IT stands for

- a) Information technology
- b) intelligent technology
- c) intelligent technology
- d) interesting technology

Answer : a

Q74. A computer cannot “boot” if it does not have the.....

- a) Compiler
- b) Loader
- c) Operating system
- d) Assembler

Answer : c

Q75. If there are multiple recycle bin for a hard disk

- a) You can set different size for each recycle bin
- b) You can choose which recycle bin to use to store your deleted files
- c) You can make any one of them default recycle bin
- d) None of above

Answer : a

Q76. Identify false statement

- a) You can find deleted files in recycle bin
- b) You can restore any files in recycle bin if you ever need
- c) You can increase free space of disk by sending files in recycle bin
- d) You can right click and choose Empty Recycle Bin to clean it at once

Answer : c

Q77. If the displayed system time and date is wrong, you can reset it using

- a) Write
- b) Calendar
- c) Write file
- d) Control panel

Answer : d

Q78. You should save your computer from?

- a) Viruses
- b) Time bombs
- c) Worms
- d) All of the above

Department of software engineering

Answer : d

Q79. A(n) program is one that is ready to run and does not need to be altered in any way.

- a) interpreter
- b) high-level
- c) compiler
- d) COBOL
- e) Executable

Answer : e

Q80. Which part of the computer is used for calculating and comparing?

- a) ALU
- b) Control unit
- c) Disk unit
- d) Modem
- e) None of these

Answer : a

Q81. Which of the following is an example of a real time operating system?

- a) Lynx
- b) MS DOS
- c) Windows XP
- d) Process Control

Answer : d

Q82. Which of the following operating system does not implement the multitasking truly?

- a) Windows 98
- b) Windows NT
- c) Windows XP
- d) MS DOS

Answer : d

Q83. Which of the following windows version support 64 bit processor?

- a) Windows 98
- b) Windows 2000
- c) Windows XP
- d) Windows 95

Answer : c

Q84. Computer software can be defined as –

- a) the computer and its associated equipment
- b) the instructions that tell the computer what to do
- c) computer components that act to accomplish a goal
- d) an interface between the computer and the network
- e) the interaction between the computer and its database

Answer : b

Q85. Which of the following operating system do you choose to implement a client server network?

- a) MS DOS
- b) Windows
- c) Windows 98
- d) Windows 2000

Answer : d

Q86. Which of the following Operating systems is better for implementing a Client-Server network

- a) MS DOS
- b) Windows 95
- c) Windows 98
- d) Windows 2000

Answer : d

Q87. Which of the following Windows do not have Start button

- a) Windows Vista
- b) Windows 7
- c) Windows 8
- d) None of above

Answer : c

Q88. Which is the latest version of MS Windows?

- a) Windows 2007
- b) Windows 8.1
- c) Windows 2008
- d) Windows 10

Answer : d

Q89. Which operating system doesn't support networking between computers?

- a) Windows 3.1
- b) Windows 95
- c) Windows 2000
- d) Windows NT

Answer : a

Q90. Which operating system can you give smallest file name?

- a) Ps/2
- b) Dos
- c) Windows
- d) Windows NT

Answer : b

Q91. Which one is not operating system?

- a) P11
- b) OS/2
- c) Windows
- d) Unix

Answer : a

Q92. Which of the following is not a multitasking operating system?

- a) Windows
- b) Linux
- c) Win NT
- d) DOS

Answer : d

Q93. You should choose Sleep option when

Department of software engineering

- a) The computer is tired after working for the whole day
- b) You are leaving for a very short time and want to resume you work shortly
- c) When computer gets hanged frequently. Let it sleep for some time
- d) You finish working and going to bed

Answer : b

Q94.The displays the name of every computer user on the computer

- a) Wish list screen
- b) Command screen
- c) Welcome screen
- d) None of the above

Answer : c

Q95.The category of software most appropriate for controlling the design and layout of complex document like newsletters and brochure is:

- a) Word processing
- b) Computer aided design
- c) Web page authoring
- d) Desktop publishing

Answer : a

Q95.Which one is not a system tool?

- a) Backup
- b) Disk defragment
- c) Virus scanning
- d) All of the above

Answer : c

Q96.Which of the following does not support more than one program at a time?

- a) DOS
- b) Linux
- c) Windows
- d) Unix

Answer : a

Q97.The operating system creates _____ from the physical computer

- a) Virtual space
- b) Virtual computers
- c) Virtual device
- d) None

Answer : b

Q98.Which menu bar selection would you access to open file?

- a) Option
- b) Help
- c) View
- d) None of above

Answer : d

Q99.Which mode loads minimal set of drivers when starting Windows?

- a) Safe Mode
- b) Normal Mode

- c) VGA Mode
- d) Network Support Mode

Answer : a

Q100. Which of the following are loaded in safe mode?

- a) Keyboard driver
- b) Mouse driver
- c) VGA drive
- d) All of above

Answer : d

Q101. A is a named location on a disk where files are stored

- a) Folder
- b) Pod
- c) Version
- d) None of the above

Answer : a

Q102. Which type of command requires additional files to perform specific operations?

- a) Internal commands
- b) External commands
- c) Valuable commands
- d) Primary commands

Answer : b

Q103. Which of the following is system software?

- a) Operating system
- b) Compiler
- c) Utilities
- d) All of the above

Answer : d

Q104. A user-interface that is easy to use is considered to be

- a) User-happy
- b) User-simple
- c) User-friendly
- d) None of the above

Answer : c

Q105. A is a flash memory storage device that plugins into a USB port

- a) USB snap drive
- b) USB flash drive
- c) USB memory maker drive
- d) None of above

Answer : b

Q106. The is the drive containing the files to be copied

- a) Source drive
- b) Destination drive
- c) USB drive
- d) None of the above

Answer : a

Q107.Which one is true for unconditional disk formatting?

- a) Destroys every byte of data on a disk by overwriting it with blank spaces
- b) Do not check/scan surface after format
- c) Transfer system files after format
- d) All of above

Answer : a

Q108.Once text has been cut to the clipboard, you can that text into another document

- a) Paste
- b) Copy
- c) Transfer
- d) None of the above

Answer : a

Q109.What is the function of radio button?

- a) To select multiple option
- b) To select single option
- c) To select all option
- d) All of above

Answer : b

Q110.The Banker's algorithm is used

- a) to rectify deadlock
- b) to detect deadlock
- c) to prevent deadlock
- d) to solve deadlock

Answer : c

Q111.The primary purpose of an operating system is:

- a) To make the most efficient use of the computer hardware
- b) To allow people to use the computer
- c) To keep systems programmers employed
- d) To make computers easier to use

Answer : a

Q112.Which of the following operating system reads and reacts in actual time?

- a) Quick Response System
- b) Real Time System
- c) Time Sharing System
- d) Batch Processing System

Answer : b

Q113.All of the following are TRUE regarding virtual memory EXCEPT

- a) Any amount of RAM can be allocated to virtual memory
- b) The setting for the amount of hard disk drive space to allocate virtual memory can be manually change
- c) This temporary storage is called the swap file or page file
- d) Virtual memory is the physical space on the hard drive

Answer : a

Q114.The essential difference between an operating system like Linux and one like Windows is that

- a) Windows can run with an Intel processor, whereas Linux cannot
- b) Linux is a proprietary whereas Windows is not
- c) There are multiple versions of Linux, but only one version of Windows
- d) Any programmer can modify Linux code which is not permitted with Windows

Answer : d

Q115.What is dispatch latency?

- a) The time taken by the dispatcher to stop one process and start another
- b) The time taken by the processor to write a file into disk
- c) The whole time taken by all processor
- d) None of Above

Answer : a

Q.116. Memory protection is of no use in a

- a) single user system
- b) non-multitasking system
- c) non-multiprogramming system
- d) none of the above

Answer : d

Q117.Whenever you move a directory from one location to another

- a) All files inside the directory are moved
- b) All the subdirectory inside that directory are moved
- c) The directory is moved the source file is not moved
- d) Both A and B

Answer : d

Q118.The Basic Input Output System (BIOS) resides in

- a) RAM
- b) ROM
- c) The CPU
- d) Memory Cache

Answer : b

Q119.Which of the following does not occur during the power-on-self-test (POST)?

- a) The scan disk utility begins to run
- b) The video card and video memory are tested
- c) The BIOS identification process occurs
- d) Memory chip are checked to ensure that they are working properly

Answer : a

Q120. The command used to create logical drive for specific location of disk

- a) Fdisk
- b) Format
- c) Subst
- d) All of the above

Answer : c

Q121.Which of the following is drop down list?

- a) List
- b) Combo box
- c) Text area
- d) None

Answer : b

Q122. Which runs on computer hardware and serve as platform for other software to run on?

- a) Operating System
- b) Application Software
- c) System Software
- d) All

Answer : a

Q123. VGA stands for

- a) Video Graphics Advance
- b) Video Grey Array
- c) Visual Graphics Array
- d) Video Graphics Array

Answer : d

Q124. Recently deleted files are stored in

- a) Recycle bin
- b) Desktop
- c) Taskbar
- d) My computer

Answer : a

Q125. Which components appear in the initial Windows start up display?

- a) Dialog boxes
- b) Start menu
- c) Taskbar
- d) All of above

Answer : c

Q126. A small part of taskbar that has icons of background running applications is

- a) Start button
- b) Quick launch
- c) Task bar
- d) System tray

Answer : d

Q127. An operating system version designed for use with a media center PC is Microsoft Windows XP

- a) Home edition
- b) Media center edition
- c) Tablet PC edition
- d) None of above

Answer : b

Q128. An operating system version designed for use with a tablet PC is Microsoft Windows XP

- a) Home edition
- b) Media center edition
- c) Tablet PC edition
- d) None of the above

Answer : c

Q129. Which is the layer of a computer system between the hardware and the user program?

- a) Operating environment
- b) Operating system
- c) System environment
- d) None

Answer : b

Q130. When you start up the computer the boot up storage at which the BIOS versions manufacturer and data are displayed on the monitor is called

- a) Bootstrap
- b) Power on self test (POST)
- c) System configuration
- d) Kernel loading

Answer : b

Q131. The operating system is the most common type of Software

- a) Communication
- b) Application
- c) System
- d) Word processing software

Answer : c

Q132. Which components appear in the initial windows start up display?

- a) Dialog box
- b) Task bar
- c) Start menu
- d) All of the above

Answer : b

Q133. Taskbar is used for

- a) Navigation program
- b) Switching between program
- c) Start a program
- d) All of above

Answer : d

Q134. When a peripheral device needs immediate attention from the operating system, it generates a(n)

- a) Interrupt
- b) Spool
- c) Stack
- d) Page file

Answer : a

Q135. Which of the following is/are external commands?

- a) Edit
- b) Label
- c) Sys
- d) All of above

Answer : d

Q136. Which is not an external command?

- a) Edit
- b) XCOPY

- c) Sys
- d) None of the above

Answer : d

Q137. Which of the following is not essential to shut down your computer?

- a) Save all opened files
- b) Close all running applications
- c) Switch off monitor
- d) Cut off the power supply

Answer : c

Q138. You can move a window to a different position on your screen by dragging it by its

- a) Move handle
- b) Tail
- c) Status bar
- d) Title bar

Answer : a

Q139. ____ is a compromise mode between Shut Down and Sleep mode because it does not consume power and remembers the current state of your desktop

- a) Shut Down
- b) Restart
- c) Sleep
- d) Hibernate

Answer : d

Q140. You should choose this mode if you don't know how long you won't use your computer but want to have the same desktop state when you resume

- a) Shut Down
- b) Restart
- c) Sleep
- d) Hibernate

Answer : d

Q141. The category of operating system that you most likely have running on your PDA computer is a Operating system

- a) Real time
- b) Single user, single task
- c) Single user, multitask
- d) Multiuser, multitask

Answer : b

Q142. What is the meaning of "Hibernate" in Windows XP/Windows 7?

- a) Restart the Computer in safe mode
- b) B Restart the Computer in hibernate mode
- c) Shutdown the Computer terminating all the running applications
- d) Shutdown the Computer without closing the running applications

Answer : d
