The branch's managers and all employees to make a big effort to completion of my practical attachment.

Chapter one: Introduction

1.1 Historical background of the organization right from its establishment

Omo micro finance institution (s.c) is established in 1997 by registering with bureau of trade and industry of SNNPR and the national bank of Ethiopia in line with the licensing and supervision of micro finance institution proclamation no 40/1996 and began operation in 1998. Since its establishment the institution has been providing saving and loan services to the regional community. In order to contribute its effort in poverty alleviation, Currently OMFI is operating in 4all zones, city administrations, woredas and special woredas. In addition to this, it manages different funds from other organizations according to their agreement, and also it pays social security for the pensioners in region. OMFI has its own objectives that want to be achieved through its operation period. Such as; to delivering financial services to the rural and urban poor, empower poor women by improving access to financial services, increase agricultural productivity and

production by improving access to financial services, to reduce exploitation by illegal money lenders and increase self-employment and entrepreneurial skill. 5

We didn't get real evidence about establishment of Omo microfinance in Daye town. However, it can get its sources of funds from government and non governmental organization. Sidama regional state bureau of enterprise can subsidized its funds. It can also get its fund from NGO like RGOS, RUIFB'S.

1.2. Main functions or core activities of the host organization

Providing services like loan, credit and saving to alleviate poverty's among poor house holds

Motivating women to engage on saving by charging high interest rate than men. i.e eight percent rate of interest

Giving fast services for customer-customer satisfaction

Working for giving loan in the form Omo regular fund and youth employment fund by charging 10% and 20% respectively.

It target economically active poor women and men in both rural and urban

Decrease unemployment by provision of youth fund and Omo regular fund

Chapter three

Evaluation of the attachment period

3.1. Description of the strength, weakness, threats and opportunities of the organization.

3.1.1. Strength of the institution

1. Strong Social Impact: OMO Microfinance institution has a strong commitment to financial inclusion and poverty alleviation, providing access to financial services to underserved and marginalized populations.

2. Extensive Outreach: OMO Microfinance has a wide network of branches or field offices, allowing it to reach clients in remote and rural areas where traditional banks may not have a presence.

3. Robust Risk Management: OMO Microfinance has effective risk management practices in place to mitigate credit, operational, and other risks associated with its operations, ensuring the sustainability of its business model.

5. Experienced Leadership Team: OMO Microfinance has a team of experienced leaders with expertise in microfinance, finance, and social impact, guiding the organization towards its strategic goals.

6. Innovative Products and Services: OMO Microfinance continuously innovates its products and services to adapt to changing market conditions and meet the evolving needs of its clients.

7. Strong Partnerships: OMO Microfinance collaborates with local communities, government agencies, NGOs, and other stakeholders to enhance its impact and reach more clients in need of financial services.

8. Transparent and Ethical Practices: OMO Microfinance upholds high standards of transparency, accountability, and ethical conduct in its operations, building trust with clients and stakeholders.

9. Financial Sustainability: OMO Microfinance has a sound financial management approach that ensures its long-term sustainability and ability to continue serving clients in the future.

3.1.2. Weakness of the OMO microfinance institution

1. Limited Capacity: OMO Microfinance may have limited capacity in terms of human resources, technology infrastructure, or funding, which could hinder its ability to scale up operations and reach more clients.

2. Vulnerability to Economic Shocks: OMO Microfinance's clients, who are often low-income individuals or small businesses, may be more vulnerable to economic downturns, leading to higher default rates and financial instability for the institution.

3. Regulatory Challenges: OMO Microfinance may face regulatory challenges or compliance issues in the markets where it operates, which could impact its ability to expand or introduce new products and services.

4. Competition: OMO Microfinance operates in a competitive market with other microfinance institutions, banks, and fintech companies offering similar services, which could pose a challenge in attracting and retaining clients.

5. Limited Product Diversification: OMO Microfinance's product portfolio may be limited in terms of diversity, which could restrict its ability to meet the varied financial needs of its clients and adapt to changing market demands.

6. High Operating Costs: OMO Microfinance may incur high operating costs related to branch networks, staff salaries, technology investments, and risk management practices, which could impact its profitability and sustainability.

7. Credit Risk: OMO Microfinance's lending activities expose it to credit risk, as defaults or delinquencies by clients could affect its financial performance and asset quality.

8. Limited Access to Funding: OMO Microfinance may face challenges in accessing affordable funding sources, such as loans or grants, which could constrain its ability to expand operations or offer competitive interest rates to clients.

9. External Factors: OMO Microfinance may be vulnerable to external factors such as political instability, natural disasters, or regulatory changes, which could disrupt its operations and financial stability.

3.1.3 Opportunity of OMO microfinance institution

1. Partnerships: OMO Microfinance can explore partnerships with other financial institutions, fintech companies, NGOs, or government agencies to expand its reach, share resources, and offer complementary services to clients.

2. Product Diversification: OMO Microfinance can diversify its product portfolio to include savings accounts, insurance products, financial education programs, or value-added services, catering to the diverse needs of its clients and increasing revenue streams.

3. Capacity Building: OMO Microfinance can invest in training and development programs for its staff, improving their skills and knowledge in areas such as customer service, risk management, and financial literacy, enhancing overall operational efficiency.
4. Geographic Expansion: OMO Microfinance has the opportunity to expand its presence into new regions or countries with underserved populations, leveraging its existing expertise and network to establish a stronger foothold in new markets.
5. Social Impact: OMO Microfinance can focus on measuring and communicating its social impact, demonstrating how its services contribute to poverty alleviation, job creation, and economic empowerment in the communities it serves, attracting socially conscious investors and donors.
6. Customer Engagement: OMO Microfinance can enhance its customer engagement strategies through personalized communication, feedback mechanisms, and client-centric product design, building trust and loyalty among its client base.
7. Innovation: OMO Microfinance can encourage a culture of innovation within the organization, fostering creativity and entrepreneurship among its staff to develop new solutions, processes, or business models that drive growth and sustainability.

3.1.4. Threats of the institution

1. Competition: OMO Microfinance faces competition from traditional banks, other microfinance institutions, fintech companies, and informal money lenders, which may offer similar financial products and services to the same target market, leading to market saturation and pricing pressures.
2. Economic Instability: OMO Microfinance is vulnerable to economic downturns, inflation, currency fluctuations, and other macroeconomic factors that may affect the financial stability of its clients, leading to higher default rates, reduced demand for loans, and increased credit risk.
3. Regulatory Changes: OMO Microfinance is subject to regulatory changes, licensing requirements, compliance standards, and reporting obligations imposed by government authorities, which may increase operational costs, limit flexibility in product offerings, or lead to legal disputes if not properly managed.
4. Credit Risk: OMO Microfinance faces credit risk from loan defaults, delinquencies, and non-performing assets, especially in cases where clients face financial difficulties or external shocks such as natural disasters or health emergencies, impacting the institution's profitability and liquidity.
5. Technological Disruption: OMO Microfinance may face challenges in adopting and integrating new technologies, such as cybersecurity threats, data privacy concerns, or disruptions in digital payment systems, which could compromise the security of client information and transactions.

6. Funding Constraints: OMO Microfinance relies on external funding sources such as grants, loans, or deposits to finance its operations and lending activities, facing risks of funding shortages, interest rate fluctuations, or liquidity constraints that may impact its ability to meet client demands or expand its services.

7. External Shocks: OMO Microfinance is vulnerable to external shocks such as political instability, regulatory changes, environmental disasters, or public health crises like pandemics, which may disrupt its operations, reduce client demand for financial services, or impact the overall economic environment in which it operates.

3.2. Description of the benefits I gained from the attachment in terms of practical knowledge/ Significance of Practical Attachment

Since this practical attachment is the connection between theory in class and real world it has significant. **Some of the significance of this practical attachment;**

- Help to know and compare the relationship between the theory and real world
- To increase my confidence on future work
- To identify the problem in the company for necessary solution
- Help to apply the theory in class for future expected activities
- Help me to how to identify and find solution for problem
- Help to teach others the acceptability of theory in class

➤ Increase my confidence for research and etc....

3.3. Experience gained

When I was done this practical attachment I have got an experience and knowledge which will help me for my future work environment. Those are,

How the work of each institution has planned, monitored and controlled over time

I also acquired the work ethics in working environment

How to communicate and solve problems if any among co-worker

Grasped practical knowledge

How to organize and arrange different information from different sources

3.4. Challenges encountered by the student during the attachment period.

Major problems faced me during the attachment

❖ At the beginning time they didn' t give me full freedom to do activities independently.

- ❖ Shortage of some extra or additional working materials like chair and computers for trainers.

- ❖ Some employees are not interested for sharing their experience.

- ❖ Their working computers have a secret password.

3.5. How the challenges were solved.

Suggested solution and way forward for Attachment

The problem mentioned above are solved by:-

- ❖ I was try to adapt new environment and working condition gradually by studing behavior of department member and sharing experience among them.

- ❖ The organization should have to buy additional materials like chair and computers that help for training

- ❖ The organization should give the opportunity for students to participate in a given activities freely in order to improve their knowledge and producing self-confident professionals.

❖ The organization should have to prepare other computer for training in addition to the working computer.²³

Chapter four: Conclusion & Recommendation

First of all, this kind of course (practical attachment) will give students the experience they need in the world of work. However, while doing this course, students need the help of staff and teachers to enable them to do their work properly and get enough experience.

For example:-

In the university

When students go to school, school administrations should know in advance when students will come and be prepared and wait.

When students enter and work in offices, it is necessary to allocate enough time for students to stay in the office so that students can gain sufficient understanding and knowledge about the office they work in.

In the same way, when students are working on the facilities, an appropriate amount of budget will be allocated based on the current situation of the country.

In the company

In order to make the organization more accessible, by supplementing the missing man power, providing the necessary resources, material and extension services to the community at the appropriate time and place.

When students are working in the office, the staff of the office, from the general manager to the messenger& cleaner, should cooperate as much as possible so that the students can get the information they need.

Staff under the offices should be at their workplace properly during working hours and help individuals and organizations that cameos to the institution in order to get information.
