KOMBOLCHA, Ethiopia

2015 E.C

- ☐
- A. You can set different size for each recycle bin
- ☐
- B. You can choose which recycle bin to use to store your deleted files
- ☐
- C. You can make any one of them default recycle bin
- ☐
- D. None of above

[Answer & Solution](#) [Discuss in Board](#) [Save for Later](#)

Answer & Solution

Answer: Option A

Solution:

If there are multiple recycle bins for a hard disk, you can set the size for each recycle bin. There is one recycle bin for each partition.

2.

Identify false statement

- ☐
- A. You can find deleted files in recycle bin
- ☐
- B. You can restore any files in recycle bin if you ever need
- ☐
- C. You can increase free space of disk by sending files in recycle bin
- ☐
- D. You can right click and choose Empty Recycle Bin to clean it at once

[Answer & Solution](#) [Discuss in Board](#) [Save for Later](#)

Answer & Solution

Answer: Option C

Solution:

In Windows operating system, the recycle bin is temporary storage for files or folders that have been deleted but are not yet permanently erased from the system. A user can open the recycle bin and restore deleted file if need.

3.

If the displayed system time and date is wrong, you can reset it using

- ☐ A. Write
- ☐ B. Calendar
- ☐ C. Write file
- ☐ D. Control panel

[Answer & Solution](#) [Discuss in Board](#) [Save for Later](#)

Answer & Solution

Answer: Option D

Solution:

The Control Panel is a component of Microsoft Windows that provides the ability to view and change system settings. It consists of a set of applets that include adding or removing hardware and software, controlling user accounts, changing accessibility options, and accessing networking settings.

4.

You should save your computer from?

- ☐ A. Viruses
- ☐ B. Time bombs
- ☐ C. Worms
- ☐ D. All of the above

[Answer & Solution](#) [Discuss in Board](#) [Save for Later](#)

Answer & Solution

Answer: Option D

Solution:

A virus can damage programs, delete files and reformat or erase your hard drive, which results in reduced performance or even crashing your system entirely. Hackers can also use viruses to access your personal information to steal or destroy your data.

5.
