- (4) Primary data
- (5) None of these

Ans: (2)

83. An intuitive manager could best be described as one who:

- (1) Uses scientific problem solving
- (2) Eliminates uncertainty in decision making
- (3) Searches out facts and data systematically
- (4) Uses personal knowledge and experience to make decisions
- (5) None of these

Ans: (4)

84. If Master Foods Ltd knows that its market share in Ireland has dropped 13 percent in the first quarter of the year but does not know what might have contributed to this decline; it is in which stage of the marketing research process?

- (1) Hypothesis development
- (2) Symptom identification
- (3) Problem identification
- (4) Data interpretation
- (5) None of these

Ans: (3)

85. Suppose marketers at Lever Brothers are trying to determine whether the use of money off coupons for detergent was the reason for a sales increase in a particular store. The type of study conducted to answer this question would be:

- (1) Exploratory
- (2) Descriptive
- (3) Casual
- (4) Qualitative
- (5) None of these

Ans: (1)

86. Marks and Spencer wants to learn about consumer attitudes toward mail order purchases and conducts a study to acquire this information, this study would best be classified as collecting data.

- (1) Casual
- (2) Experimental
- (3) Primary
- (4) Secondary
- (5) None of these

Ans: (3)

87. When working on a job placement for a local retailer, Joan Halverson was sent to the library to look up data on population forecasts for Scotland, The population information she found would be considered data_____

- (1) Primary
- (2) Secondary
- (3) Syndicated research
- (4) Exploratory
- (5) None of these

Ans: (2)

88. Primary data are best described as the_____

- (1) First batch of data collected for a specific study
- (2) Data that are observed, recorded, or collected from respondents
- (3) Data that were compiled for some purpose other than the study current study
- (4) Data that are collected from a computerised data base
- (5) None of these

Ans: (2)

89. Data compiled inside or outside the organisation for some purpose other than the current research investigation are termed ____ data.

- (1) Organisational
- (2) Primary
- (3) Secondary
- (4) Exploratory
- (5) None of these

Ans: (3)

90. A valid study_____

- (1) Portrays the population being studied
- (2) Establishes a casual relationship between variables
- (3) Uses random sampling
- (4) Measures what it is supposed to
- (5) None of these

Ans: (4)

91. Marketing researchers at Cumbria Ltd. repeated an experiment several times and discovered that the results produced each time were identical. This would suggest that the results were_____

- (1) Reliable
- (2) Valid
- (3) Usable
- (4) Predictable
- (5) None of these

Ans: (1)

92. To set the price of a new dictionary, Kiran Prakashan needs to know how many dictionaries can be sold at different prices. The dependent variable in this example would be _____

- (1) Competition
- (2) Book publishers
- (3) Sales
- (4) Price
- (5) None of these

Ans: (3)

93. Nestle develops a scale to measure young adults' attitudes toward snacking. There is concern that if the questions were given to the same person several times they would produce different answers, Nestle is concerned about the scale's _____

- (1) Validity
- (2) Capacity
- (3) Dependability
- (4) Reliability
- (5) None of these

Ans: (4)

94. The University Book Shop selects 200 of its more than 8,000 customers to participate in a study on service quality in the shop. The Book Shop has established a for use in its research _____

- (1) Population
- (2) Field setting
- (3) Dependent grouping
- (4) Sample
- (5) None of these

Ans: (3)

95. Ms. Mayawati is running for Parliament in the general election. She needs to know the intended choices of the voters and will undertake a survey. All the voters on the electoral register in her constituency would be the study's _____

- (1) Sample
- (2) Dependent variable
- (3) Population
- (4) Independent variable
- (5) None of these

Ans: (3)

96. In what type of sampling design is the final choice of respondents left up to the interviewer?

- (1) Stratified sampling
- (2) Random sampling
- (3) Cluster sampling
- (4) Quota sampling
- (5) None of these

Ans: (4)

97. Wessex Motors needs to assess the company's image relative to a new competitor. The time schedule is flexible, the research budget is very limited and a low response rate will not be a major problem. Wessex Motors will probably use _____ survey.

- (1) Mail
- (2) Telephone
- (3) Random
- (4) Personal interview
- (5) None of these

Ans: (1)

98. If Adidas needs to survey retailers attitudes on the availability of product literature in athletic shoe shops and needs the results within four working days, Adidas will probably use survey.

- (1) A mail
- (2) A telephone
- (3) A mall intercepts
- (4) A personal interview
- (5) None of these

Ans: (2)

99. An item on the University Book Shop's survey asks respondents to tell the shop, in their own words, what they like least about textbook shopping. This item would be an example of ____ question.

- (1) An open-ended
- (2) A dichotomous
- (3) A forced-sum choice
- (4) A multiple choice
- (5) None of these

Ans: (1)

100. If Proctor and Gamble, the makers of Ariel, need to know what percentage of customers examine product labels before making a product selection in the supermarket, this could best be accomplished through:

- (1) Focus groups
- (2) Mail surveys
- (3) Personal interviews
- (4) Observation

(5) None of these

Ans: (4)

101. Lever Bros, markets a number of different brands of laundry detergents including Radion, Persil Power, Persil Colour and Surf. Each of these specific versions of laundry detergents can be described as _____

(1) A product item

(2) A product line

(3) A core product

(4) A mix item

(5) None of these

Ans: (1)

102. A brand name is one of the elements of the _____

(1) Core product

(2) Actual product

(3) Augmented product

(4) All of the above

(5) None of these

Ans: (2)

103. Procter & Gamble makes at least eight different detergents. This illustrates _____

(1) Product mix width

(2) Product mix consistency

(3) Product mix depth

(4) Market item width

(5) None of these

Ans: (3)

104. A product item can be best described as a _____

- (1) Component of a marketing mix.
- (2) Particular type of brand.
- (3) Specific characteristics of a company's product.
- (4) Specific version of a product.
- (5) None of these

Ans: (4)

105. A group of closely related product items that are considered to be a unit because of marketing, technical, or end-use considerations is a product _____

- (1) Category
- (2) Dimension
- (3) Extension
- (4) Line
- (5) None of these

Ans: (4)

106. The depth of a product mix is measured by the average number of _____

- (1) Convenience products as compared with the number of specialty products.
- (2) Different product lines offered by the company.
- (3) Different products offered in each product line.
- (4) Specialty products as compared with the number of convenience products.
- (5) None of these

Ans: (3)

107. Beatrice Company markets such diverse products as Rosarita Mexican foods and Samsonite luggage. These various offerings exhibit Beatrice's product mix _____

- (1) Width
- (2) Depth
- (3) Length
- (4) Volume
- (5) None of these

Ans: (1)

108. Aggressive pricing is typical during the stage of the product life cycle.

- (1) Decline
- (2) Growth
- (3) Introduction
- (4) Plateau
- (5) None of these

Ans: (2)

109. Sales usually start to decline ___ of the product life cycle.

- (1) At the beginning of the termination stage
- (2) At the end of the growth stage
- (3) At the beginning of the decline stage
- (4) During the maturity stage
- (5) None of these

Ans: (4)

110. An ad that stresses "Demand the real Lucas Wine Cooler; accept no substitutes!" is best geared for which stage of the product life cycle?

- (1) Introduction
- (2) Growth
- (3) Maturity
- (4) Decline
- (5) None of these

Ans: (2)

111. Persil is the best-selling laundry detergent in the UK. When Lever Bros, used the Persil brand name for its washing up liquid it was adopting policy.

- (1) An individual branding
- (2) An overall family branding
- (3) A line family branding
- (4) A brand extension branding
- (5) None of these

Ans: (4)

112. Firms that use _____ are less likely to damage their reputations if a new product fails.

- (1) Individual branding
- (2) Overall family branding
- (3) Line family branding
- (4) Brand extension branding
- (5) None of these

Ans: (1)

113. Which of the following is not a desirable feature for a brand name?

- (1) It can facilitate the introduction of new products

- (3) It can make it possible for the firm to engage in non price competition
- (4) It can help develop brand loyalty amongst buyers
- (5) None of these

Ans: (2)

114. Which of the following is an example of a manufacturer's brand?

- (1) Sainsbury wines
- (2) Matsui televisions
- (3) Yessica dresses
- (4) Flymo lawnmowers
- (5) None of these

Ans: (4)

115. Andrex toilet tissue is a _____ for Kimberly-Scott Corporation.

- (1) Trade name
- (2) Trade mark
- (3) Brand name
- (4) Brand mark
- (5) None of these

Ans: (3)

116. The Nike swoosh that is prominent on all of the firm's packaging, products, and advertising is a:

- (1) Trade name
- (2) Trade mark
- (3) Brand name

- (4) Brand mark
- (5) None of these

Ans: (4)

117. Own label brands are initiated and owned by:

- (1) Manufacturers only.
- (2) Manufacturers and retailers.
- (3) Wholesalers only.
- (4) Wholesalers or retailers.
- (5) None of these

Ans: (4)

118. The major characteristic of own label brands is that:

- (1) Only retailers initiate and own the brand.
- (2) Manufacturers are not identified on the product.
- (3) Producers become involved with the marketing mix.
- (4) Producers are identified on the product.
- (5) None of these

Ans: (2)

119. At one time, generic brands represented about 10 percent of all retail grocery sales. Today they account for ____

- (1) Considerably less.
- (2) Considerably more
- (3) About the same.
- (4) None of above
- (5) None of these

Ans: (1)

120. Dakotah, a South Dakota-based producer and marketer of fine home furnishings, authorized Dan River Mills to produce and market a line of sheets under the Dakotah name. This arrangement is an example of _____

- (1) Brand extension.
- (2) Brand licensing.
